Is Eyestrain A Rare Condition?

BY NO MEANS. Most people are not aware of its prevalence, nor of its effects upon those who have it to any extent. But anyone who is even a little informed on Optometry knows that eyestrain is very prevalent and that its effects are so detrimental as to result in a great lowering of efficiency among people generally.

Have your eyes examined and know their condition.

Registered Optometrist
140 Wellington St. Opp. Post Office.

GASOLINE PUMP OWNERS TO PAY TAX OF \$15

Board of Works So Decides—Street Name Changed to William Street West.

At the Wednesday afternoon session of the Board of Works, a resolution, advanced by Ald. Richardson, was passed placing a tax of \$15 per year on every local owner of a gasoline pump where gasoline is retailed to the public. The motion brought about considerable discussion, and the new tax will bring a large revenue to the city.

A petition signed by the residents of Upper William street was presented to the committee, in which it was asked that the name of this street be changed to William street west. Ald. Johnston spoke for the petitioners and explained that a great deal of confusion in mail and various deliveries had been experienced owing to the name of Upper William. The petition was granted and the necessary steps to have the name changed will be taken immediately.

Mr. Raynor, representing the E. L. Ruddy Company, appeared before the board asking permission for the changing of certain post-boards from sections of the city that were being built up this summer and to again erect these boards at other points in the city. The request was granted, subject to the supervision of the city engineer.

City Engineer Dick reported on the situation with regard to the Bateman property on South Bartlett street. Mr. Bateman having asked for a sewer in a certain quarter. The engineer stated that the proposition was not practical, and that the only solution would be in a sewer that would run from the mentioned property to Victoria street. It was left to the city engineer, Mr. Bateman and Chairman Sargent to consider the entire proposition.

Permission was granted to Atwood and Dine, Bagot street, and W. H. Cockburn and Company, Princess and Wellington streets, to erect gasoline pumps. Thomas Andre, William street, was given a permit to build a structure that would encroach slightly on city property. A concrete walk on the north side of Anne street, between Main and Vine, will be constructed.

It was decided to call for tenders for approximately 100 barrels of "Koid patching material" to be used for road repairs, and prices will be also ascertained on 100 tons of soft coal.

George Bawden appeared before the board with plans of a service station, gasoline pump, etc., to be run in connection with his garage, and a permit was given for this purpose.

The following members of the board were in attendance: Alds. Sargent, Milne, Holder, Nash, Johnston and Richardson.

To Move to California
Mrs. David Wilson, who recently sold her property on Brook street, Gananoque, is leaving for St. Gabriel, Cal., to take up residence there. Her sister, Mrs. Hall resides there. She will be accompanied by her son.

Had Bad Pains In Her Heart Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes: "I wish to say that I have been bothered very much with my heart and nerves. I doctored with two different doctors, but did not find much relief. I would have such bad pains in my heart, at times I would be almost afraid to move or breathe, and at night I could not sleep. If the pains in my heart were gone, my nerves would be so bad I could not lie still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made my heart worse."

Milburn's Heart and Nerve Pills

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Mentho-Sulphur and use it like cold cream.

DELIGHTFUL VAUDEVILLE AT GRAND OPERA HOUSE

Japanese Mental Marvel and Some High-Class Musical Acts.

The patronage accorded the Cultural Vaudeville Circle at the Grand Opera House increases daily. At Wednesday's performance the largest audience of the week were in attendance and the high quality of the acts delighted all vaudeville enthusiasts. The whole programme is select. Tameo Kajiyama, the Japanese intellectual marvel, who is the headliner, creates intense interest by his demonstrations of concentration, upon three or more subjects simultaneously. His theory is that the average man wastes four-fifths of his brain power, which is capable of being employed with solution of problems.

In the musical line there is something for everybody. Dan Castler, celebrated pianist and the Beasley Sisters, violinists, gave a wonderful performance and made a decided hit with the audience last night. Clinton and Cappel in "The Little Wop" are most pleasing. Angle Cappel is small, but she has a wonderful soprano voice. Maurice Briere and Grace King appear in catchy songs and dances and Bobby Ballinger and Elma Reynolds in a novel variety act. Kluting's animal show is the best ever produced on a stage here.

The Cultural Vaudeville Circle will appear at the Grand Thursday and Friday evenings and Saturday matinee and evening. On Friday Tameo Kajiyama will conduct a memory contest for all who desire to enter.

INDOLENCE THE CAUSE

Of Ninety Per Cent. of Men Going to Penitentiary.

Frederick C. Griffith in Toronto Star Weekly.

I was sitting in his office with Warden Ponsford when he said: "Indolence puts 90 per cent. of the men in the penitentiary. Indolence pure and simple. Not drink or drugs. A man would not be looking for drink or dope or any of the forty other things blamed for crime if it were not for indolence.

"Prohibition has not kept men out of the penitentiary because drink was never responsible for the great majority of them coming here.

"You can go through the whole cycle of crime, consider it from every angle, and you come back to indolence every time."

The warden pointed to his feet. "Do you see those boots?" he asked abruptly. He was wearing a pair that might have come from the best store on Yonge street.

"Those were made in our shoe shop," he went on. "Aren't they a credit to the maker? Yet of the fifty men in our shoe shop today not one of them is a shoemaker. Not one of them ever drove a peg until he came into the penitentiary.

"Why don't your shoemakers come to the penitentiary? Because they were trained to work.

"In the other shops the same story. The blacksmith's, the carpenter's—yes, I believe there is one man in the carpenter shop who was a carpenter before he came here.

"The good tradesmen is not coming to the penitentiary. The man who has no trade, no occupation, is I have no right to say that any man here is a born criminal. The trouble in a great many cases is the home. 'My boy's too good to work—too good to learn a trade.' So, instead of lines of young fellows in Toronto and other cities today learning trades, scarcely a boy is learning a trade properly. They become drifters. But they have got to have money. So they come to crime—and the penitentiary.

"Many a man who comes in here without having learned a trade now goes out a qualified journeyman capable of being honest, if he wants to, and earning good wages. To every newcomer who stands before me I preach the doctrine of work, work and more work. Then he is asked: What trade would you like to learn?"

One of the greatest monuments to the industry of the inmates stands just finished in the south yard—the boiler house chimney of solid concrete lined with fire brick, 120 feet high. The mason gang in the penitentiary, men who had had no previous experience, built it last summer under the instruction of one of the industrial guards. They did it in the record time of six weeks.

Comparisons are said to be odious. But at Queen's University, also in Kingston, they wanted a smoke stack built twenty feet higher. Expert chimney builders were brought from St. Louis, Mo. And it took them four months to finish the job! Yet the men at the penitentiary were not driven. There were only the number on the job for which the man in charge asked. But they were interested in the achievement. They worked with a will. Industry spared them on to earn the good conduct marks which would mean a shortening of sentence.

From Whig Files OF TEN AND TWENTY YEARS AGO.

May 3rd, 1913.
Cadets J. W. Logie and A. L. Smith reported missing at the R. M. C., and it is feared that they are drowned. Search parties are out throughout the district.

Bandmaster Alfred Light of the R. C. H. A. granted an honorary commission in the permanent force. A new library for Queen's university advocated among students and members of the alumni.
Steamer Wolfe Islander doing a heavy business on ferry route.

May 3rd, 1903.
Village of Vennacher almost totally destroyed, and many farmers burned out in forest fires to the north.
Members of First Baptist church are considering the erection of a new church building at Johnston and Sydenham streets.
Changes in G. T. R. plans bring prophesy that Kingston will be centre of railroad shops.
Several citizens have been injured owing to broken planks in sidewalks around city.

WORK-WORN WOMEN

Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her. No wonder the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman needs rich blood and plenty of it. There is one way to get this good blood so necessary to health, and that is through the use of Dr. Williams' Pink Pills. These enrich the blood, and through their use many weak, ailing wives and mothers have been benefited. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GANOQUE

May 3.—Harvey Stewart, St. Catharines, is in town.
Garnet Baker, who is at present in Ottawa, has accepted a position in Detroit, and will leave for that city in a few days.

The Baumington Club held a dance in the Canoe Club last night which was a big success. Garrett's orchestra furnished the music. Several were down from Kingston for it, as well as many from the surrounding country.

Mrs. C. S. Lee, Oshawa, who was in town in attendance at the funeral of the late W. Phillips, senior, returned home yesterday.

Miss Edith Matthews, Albuquerque, New Mexico, accompanied her grandmother Mrs. T. P. Richardson, home.

George Whaley has accepted a position in Oshawa, and left for that city a couple of days ago.
Mrs. J. H. Valleau was in Kingston yesterday.

PLANS FOR FERRY SERVICE

Between Amherst Island and Main Shore at Millhaven.

The residents of Amherst Island expect in the very near future to have a ferry service between the island and the main shore at Millhaven. The council of the township of Amherst Island has been advised by the highway department, at Toronto, that the money which was voted for good roads on the island can be used for establishing a ferry service. It is understood that a ferry boat will be purchased and put on the route. During the summer and fall months the islanders are able to reach Kingston on the steamers Brockville twice a week. The mall has been taken over by motor boat.

During the winter an excellent wharf was built at Millhaven, by the department of public works at Ottawa. The new wharf reaches out from the main shore a distance of one hundred feet and the width of the wharf is forty-eight feet. There is twelve feet of water at the front of the dock and it will be possible for good-sized steamers to make a landing. The wharf consists of four cribs which are filled with rock and there is an approach of seventy-two feet. The wharf is built of good material. There is a large freight shed which is covered with sheet iron on the wharf where freight can be stored. W. D. Midner, Millhaven, erected the structure.

FRANK GERACE

251 PRINCESS ST. Corner of Sydenham Street.

Florida Young Lady Married

On Wednesday, May 2nd, a quiet wedding took place when Miss Maggie Peters, second daughter of Mr. and Mrs. John Peters, Florida, and William Shillington, Cole Lake, were united in marriage at the parsonage by Rev. John A. Waddell, pastor of Princess Street Methodist church, Kingston. The bride was attired in a dress of blue satin-de-chene with hat to match. They were attended by Miss I. Peters and W. Shillington. After the ceremony they took the train for Ottawa. Upon their return they will reside on the groom's farm at Cole Lake.

Student Liquor Smuggler

Brockville, May 3.—Two pupils of the Collegiate Institute, who made a week-end trip to Montreal, were arrested by railway police while riding the blind baggage of a Canadian National express train near Bainsville. Three bottles of liquor bearing Quebec Liquor Commission seals were also found on that portion of the train where they were riding. They were brought here by license officials for trial. One of them pleaded guilty to having liquor in an illegal place and went to jail for three months in lieu of a \$200 fine. The other escaped with a fine for trespassing on railway property.

"My Heart Would Palpitate, I Had Weak Spells"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:—

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better, I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."
