Husband Didn't Dare Leave Her Alone Heart Was So Bad

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

Milburn's Heart and Nerve Pills

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system.

Mrs. C. Vanhorn, Eckville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Facial Blemishes

Sallow, muddy, roughened or blotched complexions are usually due to constipation. When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

Nujol is a lubricant—not a medicine or laxative—cannot grip. Try it today.

A Semi-Bungalow Along Spanish Lines

The first floor of this house presents a good bungalow arrangement with a large living-room, a dining-room, kitchen, pantry, two bedrooms and a bath. This floor thus provides complete accommodation for the average family. However, the architects have, by well handled roof lines, provided a comfortable second floor for guests. Here are two good bedrooms and a bath; a maid's room is also provided. This arrangement allows the second floor for the exclusive use of guests if desired, while the family have their bedrooms on the first floor. All of the convenience of bungalow housekeeping is here found, with the added feature of a second floor that provides fine accommodation for guests. As these rooms are not used continuously, their isolation from the family rooms is an advantage, it provides the desired privacy for both. Or, the second floor could be given over to the children if one wished, for small children, the playthings and such that clutter up the house would here be out of the way, and the maid would be close at hand. Or, if the children are grown-ups, the privacy of these rooms from the main rooms of the first floor make them ideal for study retirement. Throughout the house, all rooms are of good size and there is plenty of closet space. The living-room opens on a terrace on two sides and the dining-room also connects with this terrace. The living-room has a high curved ceiling, giving it unusual character. The exterior design follows a modification of the Spanish style. The walls are white stucco, the roofs a Spanish tile in a deep shade of red and the chimney is a red tapestry brick. A cellar is provided under the full area of the house, except under the living-room. Cost about \$11,000. Complete working plans and specifications of this house may be obtained for a nominal sum from the Building Editor. Refer to House A-80.
