QUEEN'S SUMMER SCHOOL

Plays a Leading Part in the Further Education of Teachers.

Queen's Summer School Association handbook contains the following:

In this work of elevating standards, and of further education of teachers already employed, Queen's University summer school has come to play a leading part. It is a special university session carried on during the summer vacation. To it this year 423 progressive teachers and ambitious students, drawn from every province of Canada, have come to fit themselves for greater service to their fellowmen.

Queen's summer school offers unique opportunities for teachers and others to improve their academic standing during vacations, and without interference with their regular salaried occupations. By means of extra-mural and summer school work only, one may complete the B.A. or B.Com. courses. Summer school students do the same work and pass the same examinations as do the intra-mural students. Attendance at the summer school is recognized as equivalent to intra-mural attendance, without which no degree course can be completed.

Its courses are so organized that they lend themselves to continuous or intermittent work, as your circumstances permit.

Under the Queen's system one can specialize in a chosen field of study just as if one were an intra-mural student.

Its situation in a granite and limestone district, bounded by lake, river and canal, affords for field work in the sciences opportunities that are unsurpassed.

The city of Kingston, founded in the romantic days of Frontenac and La Salle, has a wealth of most interesting historical associations.

The low average summer temperature makes Kingston the ideal summer school city.

The Queen's Spirit.

Somewhere in your district there is a Queen's student. When you ask about his summers spent at Queen's, you will note the light in his eye, and the enthusiasm in his voice and manner, as he tells you all about the pleasure of his work. He has found in the summer school an opportunity to keep abreast of the times in all that is new in educational circles. He has associated intimately with others intent on finding something to make life bigger and better. He has had the pleasure of personal contact with acknowledged leaders in the various branches of science and letters, and has felt the glorious sense of achievement in attaining to a higher plane of usefulness. He will tell you of the pleasure of his work and his play at Queen's. New ideas, new scenes, new people, new associations, new pleasures—all this is recreation.

For example, this is how one en-

For Thin Falling Hair Use Cuticura
 If your scalp is irritated and your hair dry and falling out in handfuls, try this treatment: Touch spots of dandruff and itching with Cuticura Ointment and follow with hot shampoo of Cuticura Soap. Nothing better than Cuticura for all skin and scalp troubles.

BACK ACHED TERRIBLY
 Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 168 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

thrustastic Summer School student

puts it: "You'll be surprised when you join us next summer! Perhaps you have pictured summer school students as prematurely-aged pedagogues, who spend the golden hours discussing Browning and Bergson, Edison and Einstein. When you get here you will see a jolly crowd filling the lecture rooms or thronging the tennis courts; you'll forget that you are a teacher, and remember that you are a human being.

"At once you'll feel at home. There is a friendly spirit at Queen's that has more 'kick' in it than there is in any patent medicine. There is an earnestness here, in work and play, that just carries you along. That is the secret of the Summer School success—hard work and hard play. Abandon pessimism, all ye that enter here! You will see optimism, raised to the nth power—it's infectious.

"Graduates of the summer school have the habit of returning for post-graduate work, and incidentally for the excursion, picnics, dances, and the feeling of fellowship that prevails. They can't keep away. All of them advertise the benefits of a Queen's course; some arrive with high-powered motor cars, and others with happy brides. They stroll over the campus, beaming tolerantly at the newcomers, and murmuring the well-known lines:

"How doth the busy pedagogue improve each summer hour? Queen's gives his eager brain a jog, And boosts his earning power."

What can you get from this summer school? A degree and a bigger salary—those of course—but you will esteem them of little account compared with the interchange of ideas, the contact with keen minds, the realization of increased efficiency that will be yours.

Recreation at Summer School.

Many prospective students of the Summer School postpone their enrolment because they believe that attendance at this institution is accompanied by a continual round of study, with no relaxation. They are soon disabused of this idea, for no summer resort offers the many attractive facilities for holidaying as does Kingston.

Preparations are made by committees at the opening of the session for social and athletic activities, and no matter what form of sport the student desires, his wishes are satisfied. No effort is spared to give all students a really good time, and to make every student look forward to another holiday spent in this one of Canada's beauty spots.

In summer recreation Queen's stands alone—unrivaled. All forms of outdoor exercises are offered, including baseball, tennis, golf, bowling, swimming, hiking, picnicing, boating and fishing. The aim of the athletic committees is not to provide a select team for the majority to watch, but to devise means whereby everyone takes part in the fun.

Queen's has always been a progressive University, striving to serve its constituency more and more, but always retaining its academic and educational traditions. It is a centre that radiates culture, and the summer school and extra-mural instruction were organized wholly to transmit that culture to people who cannot otherwise attend a University.

FOREST FIRES ARE RAGING AT NORTHBROOK

Purchasing Property on Which J. Vogan Will Erect a Saw Mill.

Northbrook, Aug. 13.—Forest fires are raging between here and Kaladar, also around Cloyne, but we are fortunate in not being in danger at present. Fire that might have proved serious, only for the timely help of the Ore Chimney staff, was extinguished near us after considerable danger had been done to fence and pasture fields.

Mrs. Sophia Shier and family, Newburgh, are the guests of Mrs. J. S. Lloyd this week. The Standard camp meetings under Rev. Messrs. Edmunds and Cooper are being well attended. Miss Bernadette Renaud has gone to Madoc. Ina and Schanour and Miss Edith Fraser were quietly married at Ardock last week.

Mr. and Mrs. William Both spent Sunday with Mrs. A. Robinson, Queensboro. Henry Atkins purchased a car from F. Rambois. Rev. Mr. Ogden purchased a new car and is now able to carry on his five appointments. Mr. and Mrs. R. Kirk left today for the west where they will visit Carman Canada and other friends. Hillier Thompson spent the week at William Thompson's, Harlowe.

J. Vogan is purchasing a plot of land suitable to erect his saw mill and has purchased considerable timber in the vicinity. The Cobalt Frontenac mines are expected to reopen the 14th. Bert Woodman is prospecting on his property of the Kaladar Lode mine. Mrs. P. S. Fox and Lady (Judge) Barthelmeu have returned to Chicago after a vacation at Bon Echo Inn and Ore Chimney mines.

A reception is being held on Aug. 13th at Kaladar for Mr. and Mrs. J. Clynne who were quietly married in Tweed last week. J. L. Lloyd spent the past week in Denbigh vicinity on business. Mr. William Atkins lost a cow which fell in an open well.

Mr. and Mrs. George Barker, Mountain Grove, were week-end guests at Mrs. William Anderson's. Miss May Wood and sister, Joyce, Wood's. Many babies are being born

Five Better Shaving Ways
 Millions now enjoy

If we offered you only one way to get better, easier shaves—it would pay you to make the test. But here we offer you a shaving cream with 5 distinct shaving advantages—5 ways to cleaner, quicker, easier shaves! And the test is to be at our expense:

Eighteen months—130 laboratory experiments—went into perfecting Palmolive Shaving Cream. But see the results:

Cream that multiplies 250 times in rich, foamy lather.

That softens the most obstinate beard in one minute—without tiresome "rubbing in."

Lather that lasts—moist, luxurious—for 10 minutes, if necessary, on your face.

And it leaves your face cool, soothed, through the action of carefully blended palm and olive oils.

Strong-walled bubbles, holding each hair erect, make cutting-easier, cleaner.

Millions of men have made this test. We are sure you'll be as pleased as they have been. In any event, only we can lose by the test.

The coupon brings your first 10 shaves, free.
