## CHILD'S STORY OF THE HUMAN RACE

By Uncle Ray

### Chapter 113—A Stolen Wife Leads to War.

Some of the most noted Greek stories tell about a war against a city called Troy. This city was across the sea from Greece.

Paris, son of the king of Troy, once stole a Greek queen from the city of Sparta. He was aided by a goddess. The Greeks became very angry. They decided to make war on Troy.

More than a thousand ships (says the ancient tale) were in the Greek fleet which sailed to attack Troy. Winds and storms blew them from

their course. They landed at many islands and fought strange peoples.

It was nine years before they reached Troy. When they were landing, Trojan soldiers rushed to the shore to oppose them.

The Greeks were fortunate in having four great heroes in their midst. They were Agamemnon, Achilles, Ajax and Odysseus. Against these, the Trojans had only one noted hero, Hector.

Our picture shows Ajax fighting against the attacking Trojans. The Greeks drove their enemies back within the walls of Troy.

Ajax defending his ship against the Trojans.

### AN ALARMING VIEW OF BRITISH INDUSTRY

Criticism Made by Parliamentarians of Policy Pursued by Baldwin.

London, Aug. 16.—An alarming view of the industrial situation in Great Britain in the coming winter is taken by the industrial group of parliamentarians, headed by Sir Allan Smith, Conservative member of the House of Commons for Croydon, and Chairman of the Managing Committee of the Engineering Employers' Federation.

Sir Allan Smith criticizes Premier Baldwin in connection with the unsatisfactory state of the industry of the country, and he sounds a pessimistic note with regard to the matter. "Firms upon whose financial reputation and business qualities one would have placed the greatest reliance," he says, "are steadily going into liquidation. The financial strain this year has almost reached the breaking point.

"What is lacking is foresight and imagination. If some definite feeling of security is not created in the next four weeks, or, at the latest, by the end of September, no recovery is possible before next March at the earliest. If the fourth winter of unemployment comes, the State will then carry anywhere up to 500,000 industrial pensioners, as the State has to carry war pensioners."

Sir Allan Smith cites expenditures which are required for Nigeria and other colonies, not with a view to getting immediate results, but results to be looked for some years ahead. He criticizes the exports credits scheme and especially criticizes the government's attitude toward Russia.

### FOREST COMMISSION.

To Determine the Question of Pulp Export Embargo.

Ottawa, Aug. 16.—The personnel of the commission which will inquire into the forest resources of Canada with a view to determining the need or otherwise of an embargo upon the exportation of pulpwood is as follows: Joseph Picard, manufacturer, Quebec city, chairman; Apollo Bamber Kerr, barrister, Toronto; Robert W. McLellan, barrister, Fredericton, N.B.; Joseph G. Sutherland, lumberman, Clyde River, N.S.; and William Anstie, contractor, Vancouver, B.C.

The commissioners are instructed to inquire into and report upon the forest resources of Canada.

Ernest Herbert Finlayson, acting director of forestry in the department of the interior, is attached to the commission as secretary.

Mr. Picard, as chairman of the commission, will receive \$35 a day for every day during which the board is engaged in the work, while the other commissioners will get \$25 a day. An expense allowance of \$15 a day is permitted members of the commission in addition to actual expense of transportation.

### TABLET UNVEILED.

Late Peterboro Editor Furthered Interest of Town.

Peterboro, Aug. 16.—A memorial tablet was unveiled at St. John's church to the memory of the late F. R. Yokome, who for over thirty years and up until the time of his death in March, 1918, was editor of the Peterboro Examiner. The tablet has been provided by citizens without regard to political or religious affiliations. In his lifetime of service as editor, the late Mr. Yokome did much to advance the interests of Peterboro. Much of his efforts were directed to beautifying the community by planting trees, the creation of park and other beauty spots. The tablet was unveiled by Judge E. C. S. Huyck.

Ground was broken for the erection of a new station building at Lyndhurst for the Canadian National railways.

Apple acreage in Britain declines, but better class plantations increasing.

### GREAT BRITAIN'S OFFER.

To Help the Allies Out of Financial Difficulties.

London, Aug. 16.—Figures show the magnitude of the gift which Great Britain offers not only to France, but all the allied debtors. Great Britain owes America £710,000,000 (\$3,244,700,000). The allies owe Great Britain £1,200,000,000 (\$5,484,000,000) of which France owes just half. If the German capacity to pay is assessed at £2,500,000,000 under the twenty-three per cent. arrangement, Great Britain will get £575,000,000, leaving it to the Allies to find for Great Britain only £136,000,000, which means that Great Britain makes a present to the Allies of nearly £1,000,000,000. (\$4,570,000,000), which she is quite entitled to collect.

If Germany's capacity to pay is fixed higher or lower, of course, the amounts claimed by Great Britain from the Allies vary accordingly.

### An Unfriendly Act.

Paris, Aug. 16.—If Prime Minister Baldwin decided to call an international conference to fix Germany's capacity to pay, that action will be taken by the French, it is forecast, as an unfriendly act, which will end the cordial relations that have existed for early twenty years. France will then simply recall the fact that, after all, she is the principal creditor of Germany and that care must be taken that her rights as such are not infringed upon.

### DIED NATURALLY.

There Was No Evidence at All of Any Foul Play.

Arnprior, Aug. 16.—The mystery with which rumor surrounded the death of Alex. J. McDougall, Renfrew tailor, whose body was found on the roadside about a mile from Arnprior on August 7th subsided when Dr. J. E. Murphy gave his evidence at the inquest on Tuesday. He stated that after performing an autopsy he was satisfied that there was no evidence on the body to indicate that death was caused by other than natural means.

The doctor explained that the apparent wounds seen by the jury when they examined the body disappeared entirely when the face was washed and were only the result of blood which had issued from the mouth mixing with sand and dirt.

Dr. Murphy gave it as his expert opinion that death was caused by a rupture of a large blood vessel in the brain and stated that the body showed that McDougall had suffered from hardened arteries.

### ONTARIO APPLE CROP.

Heavy in Western Ontario, Light in Eastern Ontario.

Ottawa, Aug. 16.—The report of the fruit branch of the department of agriculture for 1923, which has just been issued, states that reports from Ontario indicate that the total apple crop in the province will be slightly less than that of last year. In western Ontario, a survey shows that the apple crop exceeds that of last year by about 50 per cent., and is practically free from scab. The crop in eastern Ontario, which previously showed prospects of exceeding that of last year, has now been considerably reduced, the cause being ascribed to a very considerable amount of apple scab which has developed in that part of the province.

### A Plunder Expedition.

Sudbury, Ont., Aug. 16.—An astonishing story of a plunder expedition among camps along the French river early in July by two youths was told by Walter Schell, a French river boy, when he took the witness stand in police court yesterday against Alexander Mowers, jointly charged with entry on four separate accounts. Schell pleaded guilty and Mowers asked for trial by jury.

A Chevrolet motor car, owned by William Graham, Junctown, was totally destroyed by fire on Tuesday night, the blaze originating from an unknown cause.

PROBS:—Friday, fine and moderately warm.

# BASEMENT

# BARGAINS!

Friday - Saturday - Monday

A great Three Day Clearance Sale of Summer wearables—prices have been forced down practically to the give-away point at this sensational clear-away event.
