Relieve that Eyestrain

Many women have the foolish notion that glasses are a disfigurement.

On the contrary, they are an asset to your appearance if you wear a pair to fit every occasion—the ballroom, the movies, outdoor sports and reading or sewing.

Better to guard your eyes against increasing weakness—for neglect will bring wrinkles and eventually serious discomforts.

JUDGE DISALLOWED THIS GROUND OF APPEAL

No Reason For Interfering With the Discretion of the Surrogate Judge.

In the Weekly Court at Toronto, before Justice Orde the case re the John Vair estate came up. J. J. Grover, for Agnes M. Vair, an executor and beneficiary, appealed from order of Surrogate Judge of Lennox and Addington of April 28th, 1923, on passing accounts of executors, W. Law for Edward Hawkins, an executor, and for Mary Vair, life tenant.

Judgment: Testator's widow is eighty-eight years of age, and objections taken by a niece, who is entitled to only one-fifth interest in remainder, that certain comparatively small items should be charged against the widow's income are not worthy of much sympathy, but must, nevertheless, be dealt with on principle. All the costs of administering the trusts relating to the devised property must be borne by the subject matter of the gift, which, of course, comprises the income as well as the corpus. All the expense of collecting the income must of necessity first be deducted therefrom, and there is neither reason nor justice in treating the trustees' commission for collecting the rents or other gross income as differing in character from other expenses of collection. This order of the Surrogate Judge must be varied by charging the \$142.78 allowed on income collected against the income and not against the corpus.

I see no ground for interfering with the discretion of the surrogate judge as to the items charged against corpus for repairs to the building. The order and report of the Surrogate Judge will be varied by charging the interest on the third mortgage of \$1,000 to the life tenant. As to the fourth item of \$66, paid to agent for collecting rents, I cannot find this item in executor's accounts, or any means of tracing it. If the rents collected pending sale were ultimately paid or allowed in gross to the life tenant, then the commission for collecting them should have been deducted and not charged to capital; but if these rents were allowed to the purchaser on adjustment then the life tenant ought not to be charged with cost of collection, etc.

As to the legal fees and expenses, I think the discretion of the surrogate judge should not be interfered with. I think I may regard the taxation by the Registrar of the surrogate court, at Napanee, who is also local registrar of the supreme court, as the taxation of the local registrar, and disallowed this ground of appeal. As to the part of the bill for the sale of the property of the registrar is clearly wrong in taxing it as coming under Tariff "E" of Consolidated Rules. The bills ought to be referred back to local registrar for taxation upon a proper principle. The order and report will be varied in accordance with these findings. As success has been divided there will be no costs to either party.

A POWDER BUILDING BURNED AT DESERONTO

Firemen Worked Hard in Saving The Adjacent Property.

Deseronto, Aug. 21. — Yesterday afternoon about 12.45 o'clock, Charles Ready, an employee at the Olympic Powder Company, noticed that the big frame building was on fire. An alarm was sent in and the fire brigade were soon on the scene. But a strong wind from the southwest was blowing and everything being dry, the building was soon burned to the ground.

The firemen were able to save the miller buildings, after a hard fight of three hours, and to prevent the fire from spreading down to the town. The plant is on the bay shore, about two and a half miles west of the town, and is owned by E. A. LeSueur, Ottawa.

'Twas a Glorious Rain.

The district received the grandest rain since June on Tuesday. It was a real rainy day, but the downpour came between six and seven o'clock in the evening and was a corker. It was the rain the farmers hereabouts have been praying for during the past month, and was raining in all respects. August 21st will be remembered with satisfaction for some time. Now potatoes, corn and pasture will get a chance to do something.

Mr. Smith—I thought as much; we could hear the sounds from our house.

HAPPIER, HEALTHIER WOMEN by thousands are known to exist in this country because they have been relieved from pain and suffering by taking Lydia E. Pinkham's Vegetable Compound. Science in surgery and electricity have advanced greatly during the past fifty years, but treatment of disease by old-fashioned root and herb medicines has never been improved upon. The leader of them all is Lydia E. Pinkham's Vegetable Compound, which after fifty years of success is to-day recognized as the standard remedy for female ills and sold everywhere for that purpose. Reply to a questionnaire recently sent out to 50,000 women by the Lydia E. Pinkham Medicine Co., of Cobourg, Ont., proved that it benefits 98 out of every 100 women who try it. Isn't this a marvelous record for any medicine to hold?

The green fees this season are proving a most important part of the golf club's revenue, and due in a large measure to the many tourists who are stopping off for games at the links. CHILD'S STORY OF THE HUMAN RACE By Uncle Ray

WEDNESDAY CHILD STORY. Chapter 118—The Burning of Troy.

It was a sad day for Troy when the wooden horse was drawn within the city walls. The people thought victory had been gained, so they feasted heavily. Night arrived and sleep overcame them all. Then a strange thing happened. Men began to come out of the hollow body of the horse. They were Greek soldiers who had been hidden inside ever since the animal of wood was built.

Running to the city gates, they entered them wide and let in their comrades, who had only pretended to give up the attack. Troy was set afire. The people, in terror, fled from their homes but many of them were burned to death before they could get out of reach of the blaze.

The Greeks regained control of Helen, the weak but beautiful wife of King Menelaus. The king took her back to Greece, and she once more acted as queen of Sparta.

The handsome Paris had been slain shortly before Troy was burned. Odysseus, the shrewd leader who had done so much to help the Greeks win the siege, set sail for home; but winds and rains were destined to bring many strange adventures to him, which I shall tell about in coming chapters.

This is an attempt to illustrate the burning of Troy. People are running for their lives. The wooden horse can be seen inside the gate.

came known that Mr. Mellon, who has just returned from a two-months' vacation in Europe, would remain in the cabinet. He conferred with President Coolidge during the day, the announcement being made later that he would continue as head of the treasury department.

Mr. Mellon, who is chairman of the United States Debt Commission, was declared to be pessimistic regarding completion in the near future of additional funding settlements.

Preach not because you have to say something, but because you have something to say.
