## EARTHQUAKE, FIRE AND WAVE

(Continued from Page 1.)

**Ships Carry Relief.**  
London, Sept. 4. — King George has sent a message of condolence to the emperor of Japan.  
British and United States ships are speeding to the Orient with relief.

**Organizing Relief Work.**  
Osaka, Sept. 4. — The Japanese government is boldly facing three gigantic problems arising out of the greatest disaster in the history of Japan. The first problem is that of providing food, shelter and clothes for more than two million people in Tokio and for many additional millions in other cities and districts affected. An emergency commanding act will enable the authorities to requisition necessary supplies and labor. Relief work is being organized throughout the nation.

The second problem is that of maintaining peace and order in Tokio and other cities where already looting and violence are reported. Martial law has been invoked and other military measures have been adopted to cope with this situation.

The third problem is that of reconstructing ruined cities, railways, roads and telegraph and telephone lines. It is estimated that at least 1,000,000,000 pounds sterling will be required for this work.

The entire Japanese people are determined bravely to go through this unprecedented national trial.

Osaka is peaceful and quiet, but the people here realize that the relief of millions of their compatriots and the saving of the empire largely depend upon them.

**Worst Suffering at Yokohama.**  
The worst suffering reported from the entire devastated region is at Yokohama.  
Lawlessness and disorder are prevailing there, the local authorities being insufficient to handle the situation. It is said the city was burned to ashes by Monday morning and great heaps of bodies filled the streets. The casualties are estimated at 100,000.

An emergency relief bureau has been established in Tokio and an army of citizens who escaped disaster is supplying provisions and water to the victims. The troops are also doing their best to alleviate the suffering.

**Casualties 500,000.**  
San Francisco, Cal., Sept. 4. — Casualties from the earthquake and fire total 500,000, and 300,000 houses have been burned. It is estimated by the metropolitan police of Tokio, according to a courier from Oyama who reported today at Temoka to the Radio Corporation of America.

The report, received in San Francisco this morning, said the imperial palace was being guarded by one regiment of infantry, a battalion of engineers and the imperial division.

**Rioting a Menace.**  
Shanghai, Sept. 4. — Reports received here today said rioting menace destroyed Japanese cities. Two hundred Koreans, driven from Tokio by soldiers enforcing martial law, procured arms in Hachioji, near the capital, and started a disturbance. The police were arming officials and citizens to cope with the situation, according to Japanese news agency, which stated that the revolting Koreans had connections between Tokio and Yokohama.

**Death of the Premier.**  
Nagasaki, Sept. 4. — The death of Prince Masayoshi Matsukata, former premier and minister of finance, is reported here. A message to Nagoya railway bureau says that the prince died from effects of injuries sustained in the earthquake.

Prince Shimadzu, formerly of the Great House of Satsuma, is reported to have been killed in disaster. Several others of royal blood are also said to have lost their lives or to have been injured.

**A Great Explosion.**  
Osaka, Sept. 4. — A great explosion has occurred at Owakidani, in Hakone, one of the hot springs of Japan, located about fifty miles from Tokio.

**Heavy Loss Among Foreigners.**  
London, Sept. 4. — There was a heavy loss of life among foreign residents of Yokohama as a result of the earthquake, says a despatch from Kobe, and the city was entirely destroyed.

**Baptist Missionaries Safe.**  
New York, Sept. 4. — All Baptist missionaries in Japan are believed safe, according to a cablegram received early today by the American Baptist Foreign Mission Society, from Charles B. Tenny, secretary of Japan Baptist mission.

**Yokohama Desolate.**  
Peking, Sept. 4. — There are but forty thousand persons left in the city of Yokohama, all the rest being dead or having fled to places of greater safety, according to a landing party from the steamer Korusu Maru, whose report on conditions was received here today. Yokohama's population as given by the latest enumeration was approximately 423,000.

**Attack on Premier.**  
The landing party, it is asserted, obtained evidence in support of the earlier story that an attack had been made on the new premier, Count Yamamoto.  
The story as relayed through them was that the count was attacked

while attending a session at the naval club, at which the new cabinet was outlined, and which the earthquake interrupted. The attackers' aim, it was said, was frustrated by others present.

**River Clogged with Victims.**  
Tokio, Sept. 4. — Innumerable bodies of earthquake victims are clogged in the river Sumida which flows through Tokio.  
Thousands of frenzied men and women, overcome with excitement and fatigue, went mad and threw themselves into the river when the shocks were occurring. Thousands of others perished when the bridges, across the Sumida river collapsed.

## MANY CANADIAN WORKERS THERE

(Continued From Page 1)

**Kitchener Lady There.**  
Kitchener, Sept. 4. — Relatives and friends of Miss Evelyn Lackner of this city, a missionary of the Methodist church in Japan, have grave fears for her safety as a result of the earthquake. Miss Lackner had been in the city for a month in the late spring, but left for Japan about a month ago to join eighteen other Canadian missionaries at North Bay.

**100 Canadian Methodists.**  
Toronto, Sept. 4. — It was shown by statements received from the foreign mission offices here last night that there are nearly one hundred Canadian Methodists in Japan, although there is a strong probability that the greater number of them were in fields sixty miles or so from the section suffering the most severely from the disaster.  
The Church of England in Canada, under the auspices of its missionary society known as the M. S. C. C., has a total of thirty missionaries in Japan. Eight of whom are now on furlough in the dominion.

**Rev. Heber J. Hamilton.**  
Toronto, Sept. 4. — Rev. Heber J. Hamilton, bishop of mid-Japan, whose diocese has been rent and torn by one of the most disastrous earthquakes of history, and for whose personal safety there is keen anxiety in Canada, has for the past eleven years directed the missionary efforts of Canadian Anglicans in Japan. A veteran worker, he has served for thirty-one years in the diocese he now heads.

**Two Canadians Not Heard From.**  
Brampton, Sept. 4. — Miss Annie Bishop, daughter of George Bishop, who left Brampton about a year ago for Tokio, where she undertook the study of the language in order to become a missionary, when last heard from was teaching at Kofu and her people have not heard of her since the news of the earthquake.

Miss Alberta Rutherford, at one time a member of the public school staff, has been teaching at Kobe, and wrote some time ago from the hills, whither she went for the summer. Her relatives have not heard from her, either, since the catastrophe.

The Dutch trawler Java, which arrived at Ymuiden, reported the foundering of the German steamship Kluesfel, with the loss of forty-one lives.

At Watertown, N.Y., on Saturday, Michael McGoldrick was instantly killed when he was struck by an automobile owned and driven by James Shean.

**DAILY MEMORANDUM.**  
British mail will close at the Kingston post office on Sept. 6th, at 9 p.m., and on Sept. 7th at 9 p.m.
