KINGSTON ROTARY CLUB AT MOWAT HOSPITAL

Entertained the Patients to a Delightful Concert on Tuesday Evening.

The members of the Kingston Rotary Club paid a visit to Mowat Hospital on Tuesday night and entertained the inmates to a concert, and the affair was a most delightful one and much enjoyed by the patients. The concert was given on the lawn, and following the programme the Rotary Club provided refreshments of ice cream and cake, after which a dance was held in the concert hall.

The president of the Rotary Club, Leman A. Guild, presided as chairman, and before introducing the programme made a short address, in which he stated that the members of the club had very happy recollections of a visit paid to the institution some time ago, and that the members of the club were very glad of the opportunity to come back to Mowat Hospital.

As an opening number, the entire audience sang, "O Canada," and in addition to several selections by an orchestra, there was community singing led by the Rotary Club. The programme included songs by Master Salisbury; solos by Mrs. Prager; Scotch songs by Rotarian "Jack" Elder; in costume; recitations by Tom Kelly; solos by Miss Derry, Miss La Flair and Mr. Hoise. Every item on the programme was given with fine effect and brought forth round after round of applause.

During the evening, President Guild made a timely reference to the work being carried on by the Kingston Tuberculosis Association. He pointed out that the association was putting forth a fight for free treatment for people suffering from tuberculosis. The governments were being appealed to for support for this most worthy undertaking, and citizens could help along the work of the association by paying their fee and becoming a member of the association. It was work that should appeal to every citizen and he warmly commended the action of the association.

Following the programme on the lawn the members of the Rotary Club served refreshments of ice cream and cake after which three hearty cheers and a "tiger" were given by the members of the Rotary Club for the patients at the hospital and these cheers were followed by cheers from the patients for the members of the Rotary Club, for the splendid entertainment provided.

The programme was arranged by the entertainment committee of the Rotary Club, with "Jack" Elder as master of ceremonies. The orchestra provided a delightful music for the concert and the dance and was composed of the following: George Newlands, J. Radcliffe and Albert Arbuckle, violinists; Mrs. McGrath, pianist; Edward Hunt, saxophone; W. Allen, cornet; Matt Donnelly, drums.

CHATHAM FIRE ENGINE IS THOROUGHLY TESTED

J. H. Davis Says It Is Better Than the Present One In Use.

The Chatham fire engine was subjected to capacity and endurance tests on Tuesday by Messrs. Rutledge and Ryan, engineers selected by the city to conduct tests and submit a report for the consideration of the fire and light committee. In the morning and again in the afternoon the tests were conducted in the presence of the engineers, and John H. Davis, of the Davis Dry Dock, contractors, who repaired the machine, and built the new boiler.

Messrs. Rutledge and Ryan, when interviewed, stated that they would prepare a report for the fire and light committee and, in the meantime, were not making any statement for publication, but Mr. Davis was greatly pleased with the work, stating that it was a better fire engine than the one now in use.

"The boiler makes the steam and the steam pump works splendidly, in fact it throws a stream higher than the other engine."

Mr. Davis said the boiler steamed to meet all demands made of it and when the pump was run at the maximum it could not exhaust the steam. The endurance test was conducted over a period of two hours of continuous work at high speed. After this was over a proposal was made to test for capacity and this was done without cleaning the fires.

"I am satisfied with the performance of the engine," said Mr. Davis. "The boiler makes all the steam required and the pump works perfectly, and I consider the engine as being in first class shape for fire fighting. As a matter of fact, it is better than the other engine already in use."

Mr. Davis took photographs of the streams thrown by both engines at the same time.

From Whig Files OF TEN AND TWENTY YEARS AGO.

Sept. 5, 1913. C.N.R. engineers working on the new road through Frontenac County are meeting great difficulty in bogs of the central section.

Local politicians are all interested in the stewardship which is to be awarded at the Kingston penitentiary.

Victorias won the senior baseball title for the second consecutive year. The steamer Toronto was delayed for two hours by colliding with Swift's wharf coming into port.

Sept. 5, 1903. W. H. Reid "cleaned up" in the poultry division at the Sherbrooke Que. Fair. He had 77 firsts, seven specials and innumerable seconds.

It is rumored that the militia department will ask the city for the Kingston fair grounds for military purposes.

Limestones may not enter a senior team in the O.R.F.U. this year on account of the disqualification of one of their stars.

This year's classes at R.M.C. will total ninety cadets.

Ratepayers on Union street west are becoming insistent in their demands for granolithic sidewalks. Those in the neighborhood of University avenue are particularly insistent.

Bread is the material over which a fierce battle is being waged in Belleville today. A baking establishment lowered the price from 18 to 15 cents retail throughout the city and a lower price to grocers, which will permit them to sell at 15 cents a loaf and make a profit.

Change lays not her hand upon truth.

AGRICULTURAL COURSES.

Are to be Conducted in Kingston in the Winter. A. W. Sirett, local agricultural representative, will supervise courses in agricultural science and domestic science in Kingston this winter. The courses will be carried on for a period of three months beginning in November and ending in February. The course in agricultural science will be for boys and that in domestic science for girls. These courses have been conducted in other places with great success. Arrangements have been completed for the services of seven or eight special instructors.

Mr. Sirett has met with much success in his winter courses in poultry raising, and other branches of farming and he feels that there is a splendid opportunity for the extension of the work.

Knox-Jackson Nuptials. The wedding was solemnized on Tuesday morning, Sept. 4th, at eleven o'clock, of Miss Mildred Jackson, only daughter of Mr. and Mrs. A. Jackson, Bartlett street, and Stanley A. Knox, second youngest son of the late Mr. and Mrs. William Knox, Kingston Junction. The ceremony was performed by Rev. E. Burgess at Zion church manse. The couple were unattended.

VULCANIZING CONFIDENCE

ECONOMY—Our prices are lower than smaller shops because we have the largest and most up-to-date and economical vulcanizing plant in Eastern Ontario.

QUALITY—We use only the highest and best grade of repair materials.

DEPENDABILITY—You can always depend on our repair work standing up and outwearing the rest of your tire.

SATISFACTION—Every piece of work leaving our shop is absolutely guaranteed and we will refund anything that is not satisfactory.

CONSULT US—Don't throw away your old tires—perhaps we can repair that old tire and put it back in service for several thousand more miles at a small cost. We carry every size new Tire in stock at popular prices.
