MACADAM ROADWAY IN JOYCEVILLE DISTRICT

McGinnis and O'Connor Have Been Awarded Contract for the Work.

The department of public highways has awarded McGinnis & O'Connor the contract to construct about two miles of macadam roadway in the Joyceville district. During the summer this firm has been busy building four miles of road, starting at Kingston Mills and extending four miles in the direction of Joyceville. The new contract will link up with four miles which is just about completed and go a short distance past the village. The contractors are moving all of their building equipment, which was used on the Kingston road in the Odessa district, to Joyceville and expect to have the 6.6 miles of road finished before the snow falls.

A new quarry has been opened at Joyceville and it is the intention of the contractors to run two quarries.

When the road is completed it will mean that the contractors have built about twelve miles of the Ottawa-Kingston highway during the past two years. There will then be a new road from Kingston as far as Joyceville.

SEVEN U.S. DESTROYERS AND MAIL LINER WRECKED

Off Californian Coast—Twenty-five Men Lose Their Lives.

Santa Barbara, Cal., Sept. 10.—Seven United States navy destroyers and the Pacific Mail Liner Cuba were wrecked Saturday. The navy vessels crashed on the rocks in a dense fog off Arguello Light, 75 miles north of Santa Barbara, and the passenger steamer on the reef off the south end of San Miguel Island, 35 miles off this port.

Twenty-five enlisted men of the destroyers lost their lives in the naval disaster and all the destroyers are reported as total losses. The Cuba was reported to have sunk during the night, but all passengers and members of her crew either were landed at Los Angeles by the destroyer Reno, or are on their way to San Francisco on board the Standard Oil tanker W. S. Miller, with the exception of Captain C. J. Holland, the purser, steward and eight seamen, who remained on board to guard a shipment of \$2,500,000 in silver bullion.

Washington, Sept. 10.—A message received at the navy department to-day from Admiral Robinson, commanding the United States Pacific fleet, said no movable material could be salvaged from the seven destroyers stranded on the Californian coast until the heavy surf abated.
