WOMEN SAW KOREANS ROB PEOPLE AND CUT THROATS

Conditions in the Earthquake Zone in Japan Show Improvement.

London, Sept. 10.—A despatch to the Daily Express from Shanghai says: "Among the stories from passengers on board the steamer Empress of Australia, which has arrived here from Yokohama, is one obtained from two women residents of Shanghai who were spending their holiday at Duzhi, twenty miles from Yokohama. They say they were rushing toward the outskirts of the city and saw Koreans rob people and then cut their throats. A party of Japanese firemen rounded up many of these ghouls and killed them. "A gruesome sight was witnessed in Yokohama. Passengers in a street car all were electrocuted and were sitting in the car in natural attitude. "Many Koreans have been killed by infuriated mobs since the earthquake. It is said that C. E. Morse, of the International Banking Corporation, and Manager Millison of the Hong Kong-Shanghai bank, were murdered.

Conditions Improve. Osaka, Sept. 10.—After a week of supreme effort, conditions in the earthquake zone show remarkable improvement. The food supply in Tokyo has been virtually assured, but clothing is wanted, especially in view of the approaching autumn season. The greatest problem is housing millions of homeless who at the present time are facing the usual autumn rainfall. The exodus from Tokyo by rail and sea aggregates thousands of persons daily. Reports show that order is being maintained in Tokyo and Yokohama. Tokyo will remain the formal capital of Japan, according to a formal statement, said to have been issued to-day by Premier Yamamoto.

RESTORE "PEAK" WAGES. Of Train Railway Engineers, Firemen, Switchmen. Chicago, Sept. 10.—Officials of railway firemen, engineers and switchmen announced they will open negotiations for a twelve and a half to thirteen per cent. wage increase. General chairman of the union, representing 132,000 men, voted at a meeting here to demand the salary advance in renewing contracts with the railways. The proposed scale would restore 1921 "peak" wages.

SIR DONALD MANN BACK FROM RUSSIA

He Says Russia Will Be First to Recover From the War.

Quebec, Sept. 10.—Sir Donald Mann, Toronto, returned from Russia on the steamship Montclare from Liverpool, said that he had been in Russia to get business, but did not get any. He could not say what the prospects for the future might be. He said of the railroads in Russia that the roads beds were good and if the service was not fast it was punctual. He predicts that Russia will be the first country to recover from the war. He travelled through a thousand miles of grain fields, mostly wheat.

Los Angeles Is Shocked By a Bedroom Comedy

Los Angeles, Cal., Sept. 10.—Los Angeles, capital of the screen, has been shocked by a New York bedroom farce. Members of the cast of "Getting Gertie's Garter" and the manager of the theatre where the show is running, will appear in Police Court to answer charges of City Prosecutor Jack Friedland that the show is "indecent and obscene." The cast includes Marjorie Penneet, a sister of Enid Bennett, film star, and many other motion picture actors who work nights here on the legitimate stage. The show had long runs in New York and other eastern cities.

TO GUARD AGAINST INCREASED PRICES

Harrisburg, Pa., Sept. 10.—Governor Pinchot, in a letter to President Coolidge last night, suggested that with an anthracite coal supply assured for the coming winter, as the result of the agreement reached by representatives of the operators and miners Saturday night, steps be taken to safeguard the consumer against increased prices.

THE DUTCH CELEBRATE ROYAL ANNIVERSARY

Queen Wilhelmina Has Been Their Ruler Twenty-five Years.

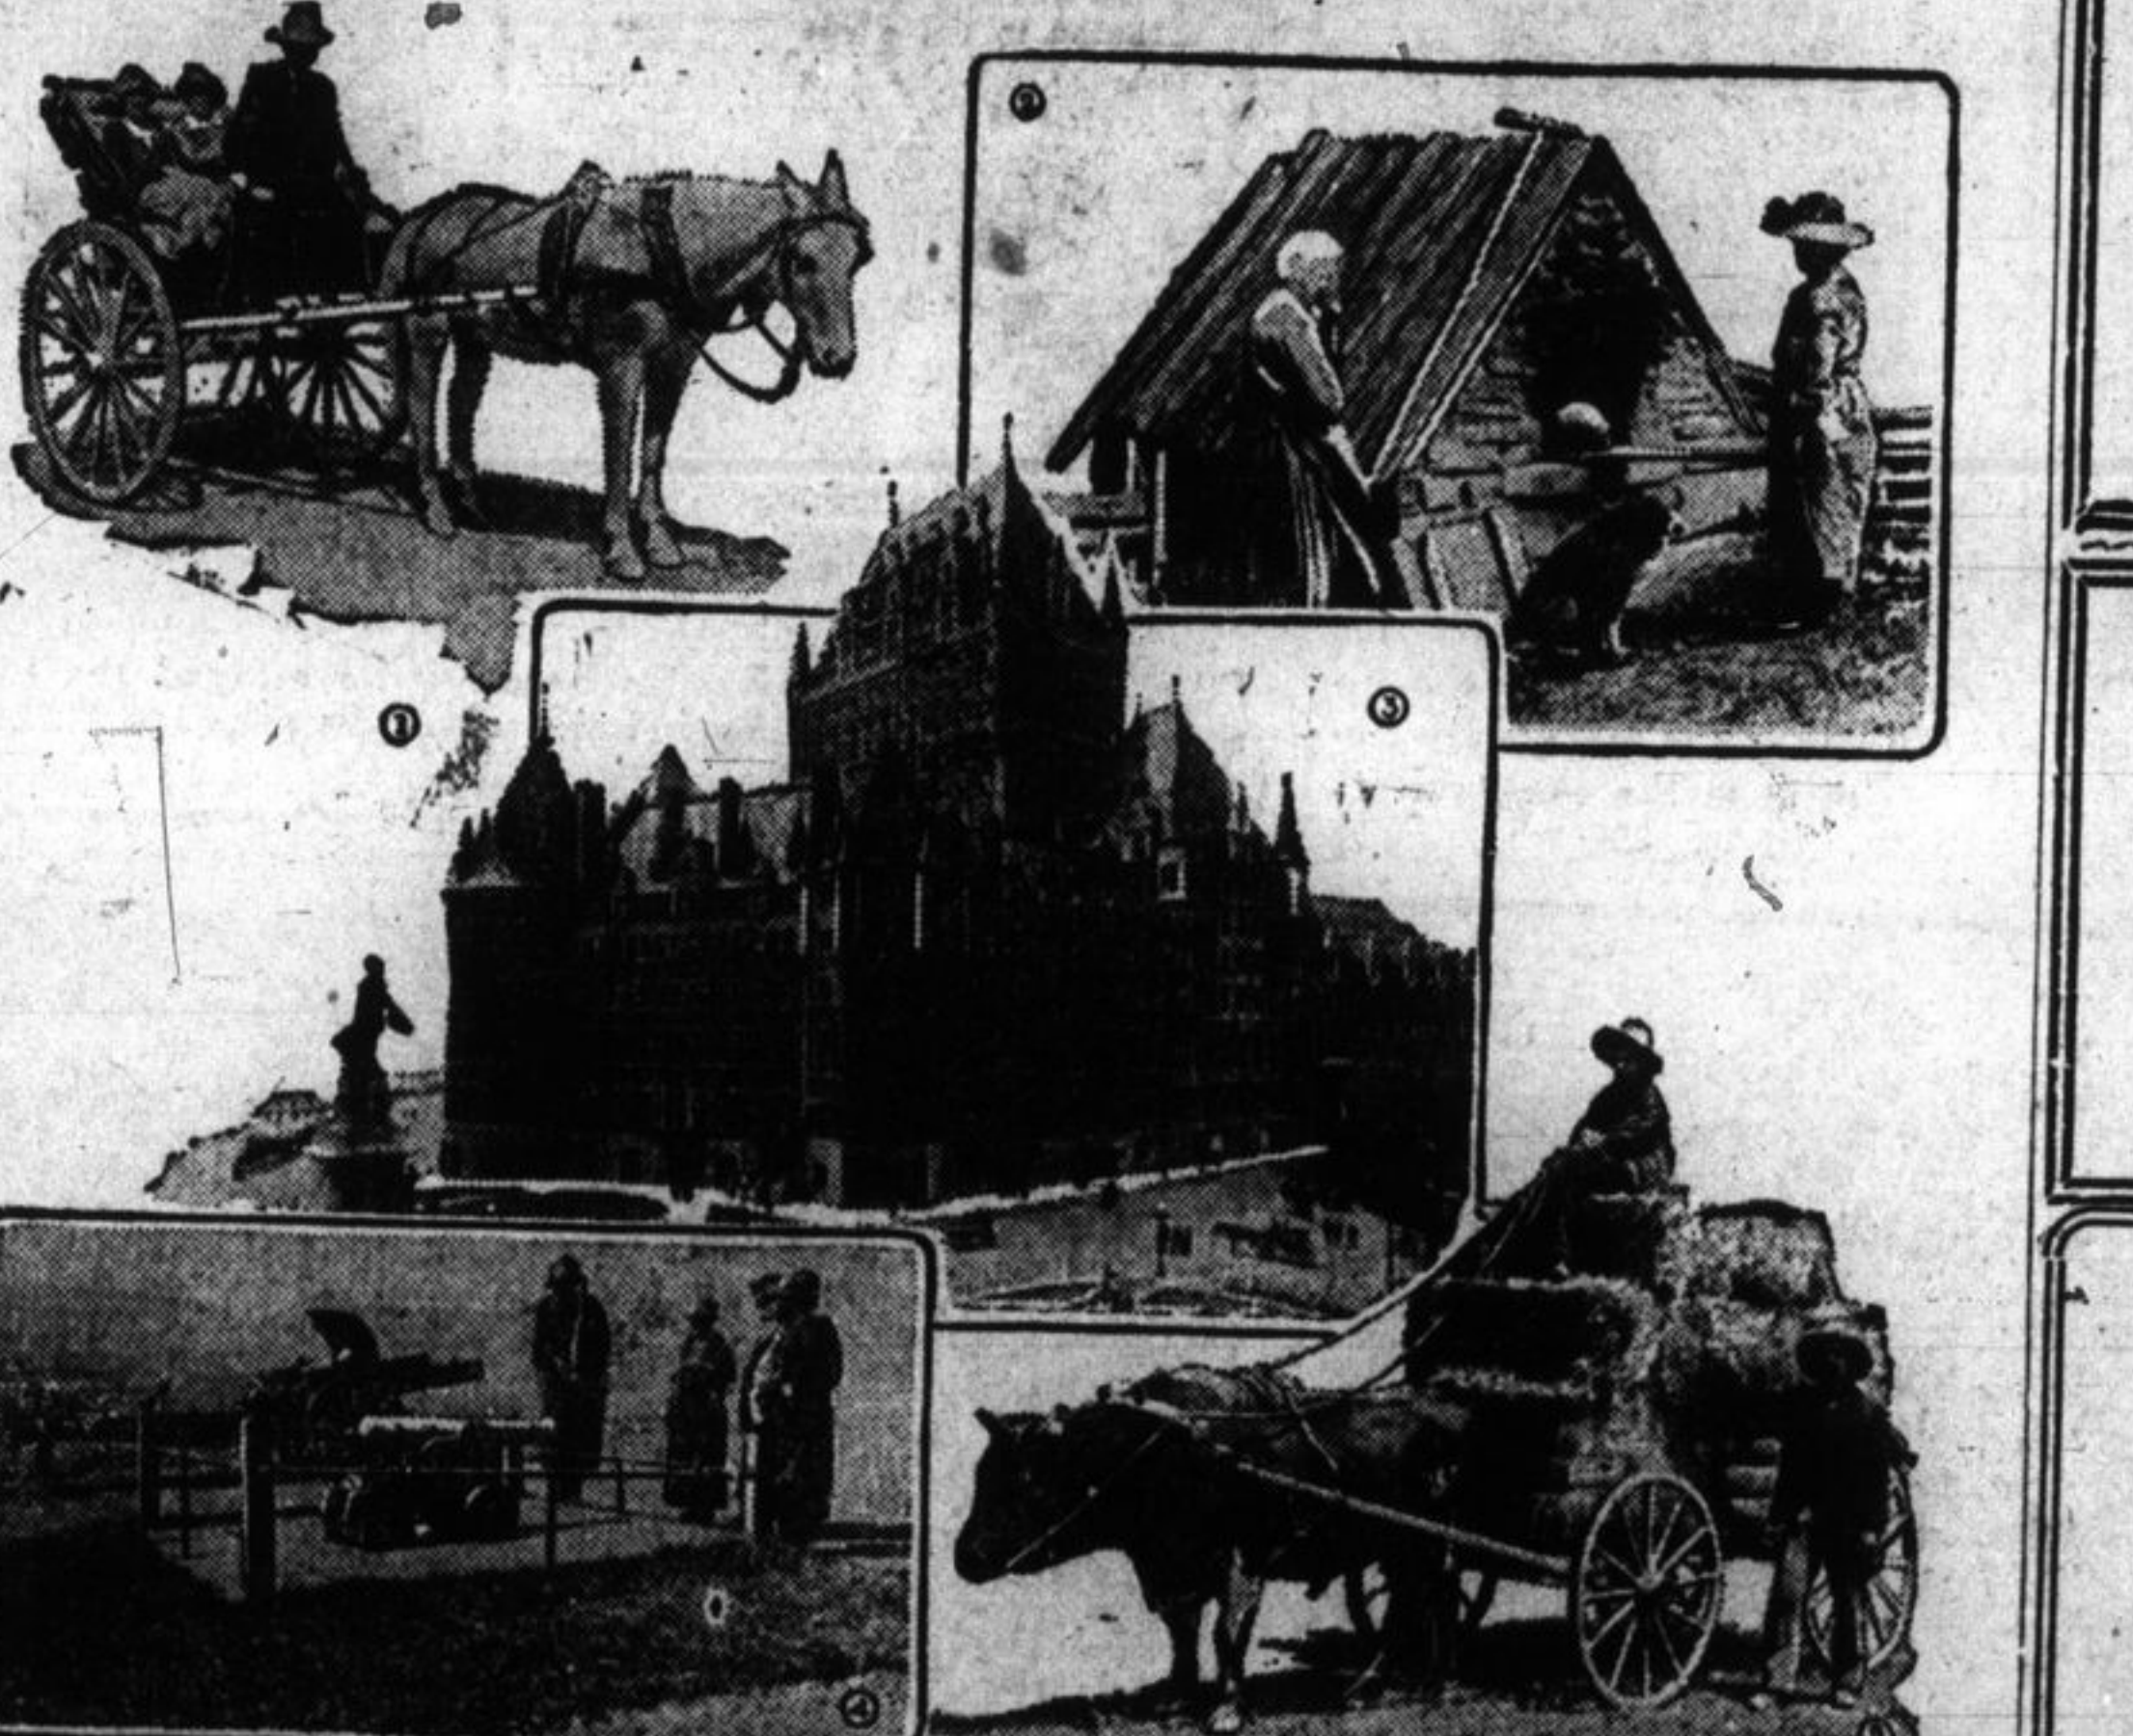

Amsterdam, Sept. 10.—The whole of Holland is singing and cheering and dancing in celebration of the twenty-fifth anniversary of Queen Wilhelmina's accession to the throne. The celebration now is at its height, and Amsterdam is crowded with foreigners and Netherlanders from all parts of the country. Visitors have been charmed by the natural enthusiasm of the Dutch people in their expressions of love for their queen—the only woman of the world who is actually ruling over an independent people. The Netherlands-American Chamber of Commerce sent to the palace a delegation which presented the queen with a book of memoirs relating the history of the Dutch settlements in America. The Amsterdam festivities are of a really brilliant character. The whole city—being splendidly decorated and illuminated. Demonstrations follow each other in great variety. The culmination will be a canticle sung by a choir of twelve thousand persons in front of the Royal Palace.

Finished Threshing.

Elginburg, Sept. 10.—The farmers have nearly completed their harvesting and very good yields of grain are reported but there is practically no corn. The Stover Bros. have finished their threshing. It will be remembered the first attempt to thresh resulted in the loss of their barn by fire. They greatly appreciated the loan of hose by the Kingston firemen which saved a large quantity of grain and helped save a few surrounding buildings. Miss Edna Fitzpatrick, Russell, is visiting friends here. John Porter is ill, suffering from high blood pressure. Mrs. Daugherty's sale, on Friday, was well attended and very good prices were realized for the goods. The Methodist church shed is being shingled with corrugated shingles. The bridge on the cross road between Shannon's corners and Elginburg has been repaired.

Mayor G. A. Wenige, of London, announced that savings effected in the management of the fire department will make possible the completion of the motorization of all equipment before the end of the year. You and I have no moral right to repeat street gossip and by doing so lead people who have faith in our integrity to accept what we say as truth.

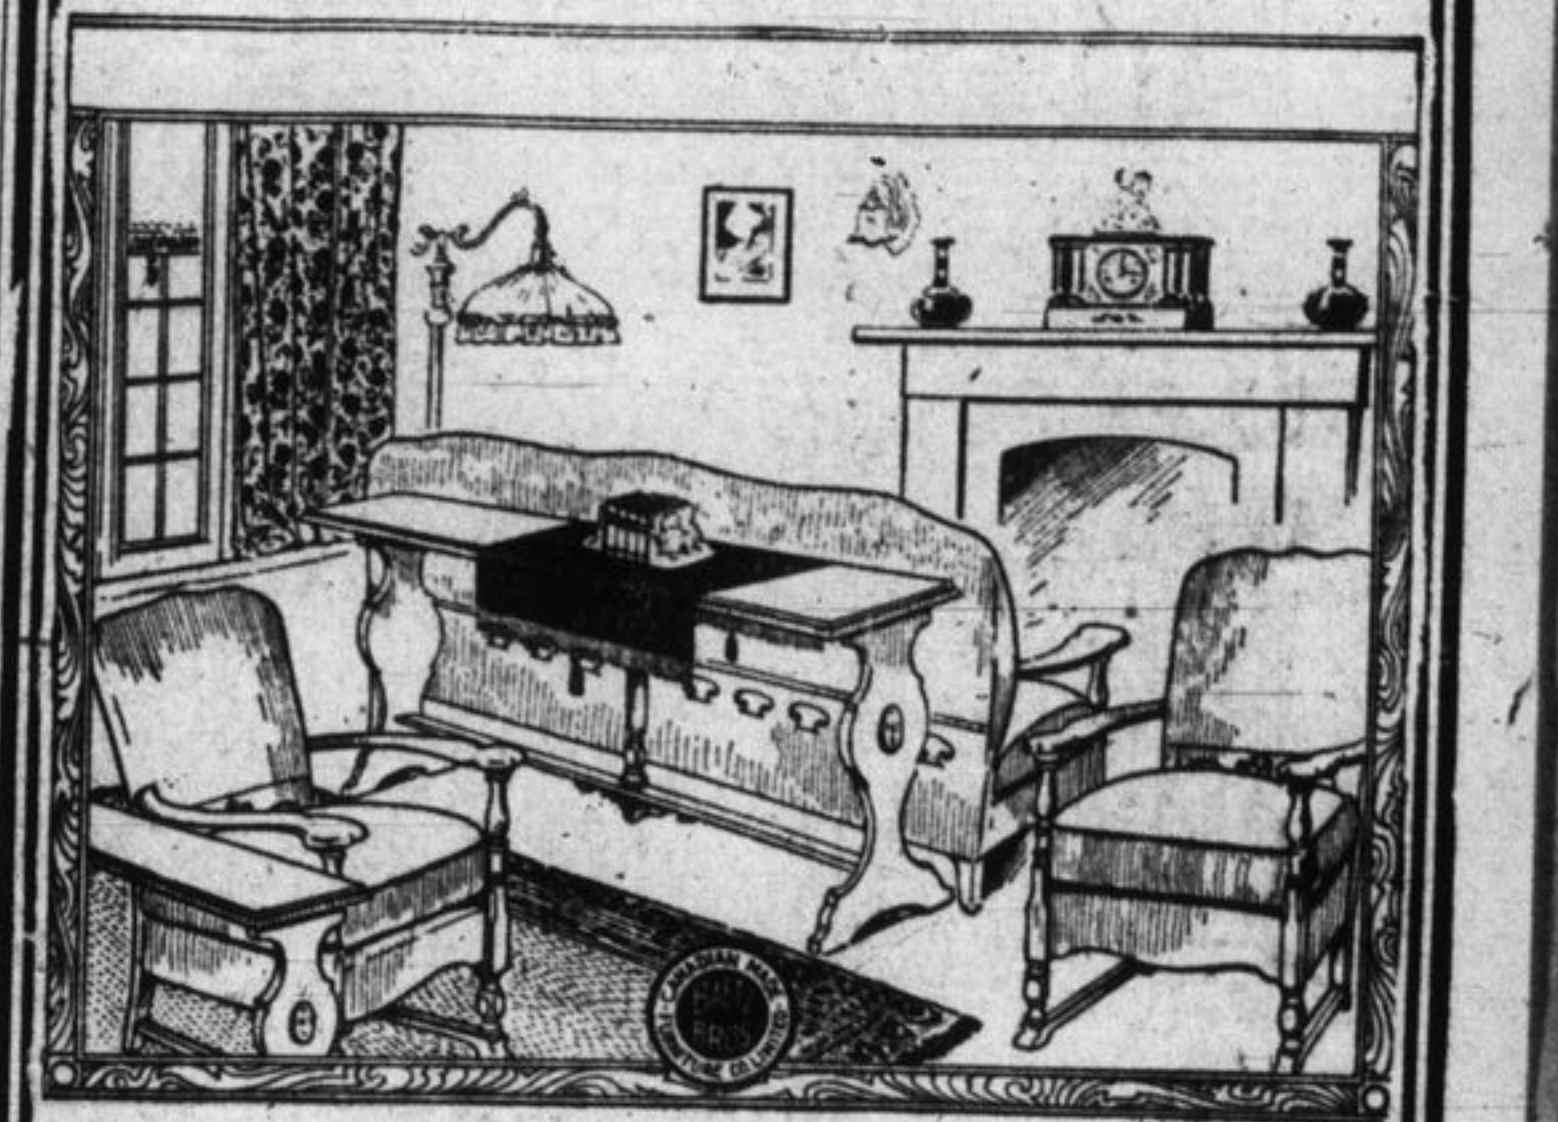

Quebec, the Old World Province

1. The Calèche, a means of conveyance much favoured by visitors to Quebec. 2. An old brick oven, the like of which was used in France four centuries ago. 3. Chateau Frontenac, Quebec, the most modern hostelry on the continent, from a glorious height looks down on old Quebec and on the early battle fields. 4. Ancient and modern. The little cannon captured by the British at Dunken Hill, rests near the Quebec Citadel by the side of a howitzer which fell to the Canadians in the Great War. 5. Though their farms are modern, some farmers still use the ox as beast of burden in the back country.

THESE are just a few pictures taken in Quebec. It is not without reason that this province is becoming the tourist resort of the continent, for here is a country of utmost fascination and intrigue. Quebec has an atmosphere all its own and, if it can be said, more of an old-world atmosphere than has the old-world of today. Quebec is the eighteenth century keeping pace with the twentieth, yet retaining its identity. One stops at little wayside shrines. The wooden cross, the patron saint in entry, the nurtured flowers, the woman at her distaff, the white-walled houses close at hand transport you to the distant land from whence the original settlers came. Yet, over there, beyond that little hedge or cedar fence the farmer gathers in his crop with up-to-date machinery, and stores it in a modern barn. Behind, the hum of the telegraph wire reminds you that you are not living in a by-gone day and, if that is not enough, through the not too distant fields, a huge train thunders. Near the white walls the lady of the house draws water from the old-fashioned well and bakes her bread in an old brick oven, the like of which was used by her ancestors in France four centuries ago. She spins her own wool and shares with her husband a faith, which though not old-fashioned, is almost as old as the Christian era. A kindly hospitable soul is she, nor is she always backward in learning, for she probably attended the convent of the Ursulines at Quebec, or la petite école at Louisville. And her husband—He may be content to wear the homespun, to sit around the fire, or on the threshold at night, to smoke his "Rouge Quessel" and to drive five miles to church early on all holidays in his buggy or in the straw lined cart that is used about the farm, but he "knows his letters" and, better still, he knows how to farm. The Quebec farm is usually up-to-date. Your "habitant" gets all that can be got from the soil, and if you sit with him and talk you will see that he retires

To Demolish Ross Rifle-Factory. Quebec, Sept. 10.—The former Ross rifle factory, located on the heights of Quebec, where thousands of rifles were turned out for the Canadian expeditionary force in the great war, is soon to be torn down.
