KINGSTON WOMAN ABLE TO EAT NOW

Had Lost Her Appetite But Found Genuine Relief From This And Other Ailments In Dreco. Two Bottles Proved Beneficial.

When a woman reaches the age of 48, her health becomes precarious unless the utmost care is taken. Mrs. Charles Cunningham, well known to Kingston women as a hair dresser and masseuse, found herself in an unsettled state of health, suffering from stomach trouble, indigestion, biliousness, constipation and loss of appetite. She is one of the many who have responded to advertisements of Dreco, which have told of the benefit this herb and root remedy has brought to others and now that she has taken two bottles of this medicine, she, too, is loud in her praises of it.

Mrs. Cunningham says: "I have suffered a long time with my stomach. Food would sour and form gas, which made me so miserable I could hardly attend to my work. I would get headaches and bilious spells. My appetite was poor and I was continually troubled with constipation. I have taken two bottles of Dreco and am feeling fine. I can eat most anything now without any after effects. I am not troubled with headaches or those awful bilious spells and feel that Dreco has done me so much good in every way. I have greater energy to do my work, my appetite is good and my bowels are regular."

"My daughter, who is also taking Dreco, is having even better results than I had myself. She was in a badly run-down condition, and it is building her up fine. I gladly recommend Dreco to anyone in need of a good digestive and system tonic."

Here are two members of a family who have found health and renewed energy in Dreco. The story of these two women is the same as that of thousands of others—the story you can tell if you try Dreco to tone up your digestion and general condition.

There are no habit forming drugs, such as mercury or potash, in Dreco. It consists entirely of herbs and roots of the health producing body-building type.

Dreco is being specially introduced in Kingston by Ma-hood's Drug Store. Go there to-day and ask for Mr. Vaughan, the Dreco expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly if he believes Dreco will benefit you. Dreco is also sold in Napanee by Wallace & Co., in Gananoque by W. E. Austin, and by a good druggist everywhere.

RUSSIA FEARS TO END PEACE WITH GERMANY

Soviet Realizes Coup Would Involve Poland, France and Other Nations.

Moscow, Sept. 27.—Berlin dispatches indicating the further readiness of the German government to capitulate have strengthened the realization here that, not since the soviet decided to sign the peace of Brest-Litovsk has the cause of the proletarian revolution faced such a difficult problem.

Told by the German communists who are here to plead their cause personally that the iron is hot in Berlin and that it must be struck immediately before a fascist element snatches it from the forge and plunges it into the cold bath of reaction from which it may not emerge for years, Russia hesitates to let the hammer strike.

The hammer is busy at home forging the international reconstruction of the country. Furthermore, the hands that wield it are uncertain whether the German is strong enough to stand the blow or whether the capitalistic blacksmiths in Poland, France and elsewhere would not seize the iron, forge and sword with which they would attack Russia. The hammer is still poised in mid-air.

Result of Conferences.

No official information whatsoever is available as to the conferences among the Russian and German communists in Moscow during the past few days. However, it may be deduced from the printed speeches and guarded editorials that the situation is this:

The German communists foresee a reactionary settlement of the Ruhr problems, bringing the possibility of temporary tranquility in Germany and hence lessening the chance of an immediate proletarian revolution which they are confident would otherwise come in a few weeks. Both the Germans and the Russians know of the Italian, Bulgarian and Spanish fascist success. A fascist Germany would be not only a menace to German communist hopes, but also to Russian; hence the Germans want to accept the immediate opportunity, believing it would be possible to succeed although realizing that probably Poland, France and other nations would attack from the outside.

The Germans here assert that the Berlin and Bavarian fascists would not mind letting the communists overthrow the present German government and then dealing with the communists later. The latter, too, are undecided whether to strike first or to take advantage of any fascist movement.

However the Germans act, the Russians realize the almost impossibility of Russia's neutrality, especially in the event of interference by Poland. They also realize what a new war would mean to the slow reconstruction process in Russia which is emerging from a civil war. The army is organized, but what is behind it is an unknown quantity. Above all, the Russians hesitate to risk any decision to break that peace which is essential to the adjustment of their internal problems.

All these issues are being weighed in day and night conferences and what the ultimate decision will be is as yet unknown. One view expressed to the correspondent is that the Germans will be advised not to begin an attack but perhaps to await natural developments and any attempted coup by the fascists. If outside capitalist nations do not interfere, then Russia also will take no active part other than to assist in feeding Germany which she knows she would have to do even under difficulties.

But if the capitalistic nations intervened actively, then Russia, in the opinion of this person, could only make a counter move for the safety of the proletarian revolution.

Experienced Russian revolutionaries feel, if guarded press comment can be taken as a criterion that the German communists are not so well organized as they themselves think.

BULGARIANS FIGHT RED REBELLION TO LAST DITCH

Bolsheviks Aim to Win Balkan States and Then to Sweep Westward.

Sofia, Sept. 27.—"Bulgaria will fight to the last ounce of her strength not only her own battle but the world's struggle against communism," said Premier Zankoff in an interview with The Associated Press correspondent.

The premier asserted that communism, after shattering civilization in Russia, was trying to do Bulgaria a similar injury.

"The third internationale," he said, "plans to extend sovietism to the other Balkan states and then to sweep westward. In spite of our weakness we are determined to win the struggle or die in the attempt."

The premier then referred to the limitation placed on the strength of the Bulgarian army by the treaty of Neuilly, and continued:

"Bulgaria is a firm believer in international disarmament, but with all her neighbors and the other European nations armed to the teeth, the experiment of disarming Bulgaria alone proved the falsity of the theory of leaving a helpless nation in the centre of an armed camp."

Fighting Continues.

Premier Kankoff then told the correspondent that the allied governments, through the commission of military control by the Neuilly treaty has authorized Bulgarian government to increase the military forces to such extent as would enable them to cope with the trouble internally.

The citizens are being armed rapidly. Fighting between the government and communists, acting in conjunction with agrarians continued throughout Monday.

Prisoners taken by the Bulgarian troops carry improved rifles of Russian design, while the tactics employed by the rebel officers strongly recall the methods used in the original Bolshevik uprising in Russia.

A band of armed men, one of whom carried a red flag, held up an express train in the vicinity of Sarambey in southern Bulgaria. The passengers were robbed and all their money and papers were taken. Telegraph and telephone wires have been cut at many points in the southern part of the country. The work has been done in such a businesslike manner that the complexity of government employees is evident. The minister of telegraphs and posts accordingly has decided to remove from those services all persons suspected of communism.

Sofia in Armed Camp.

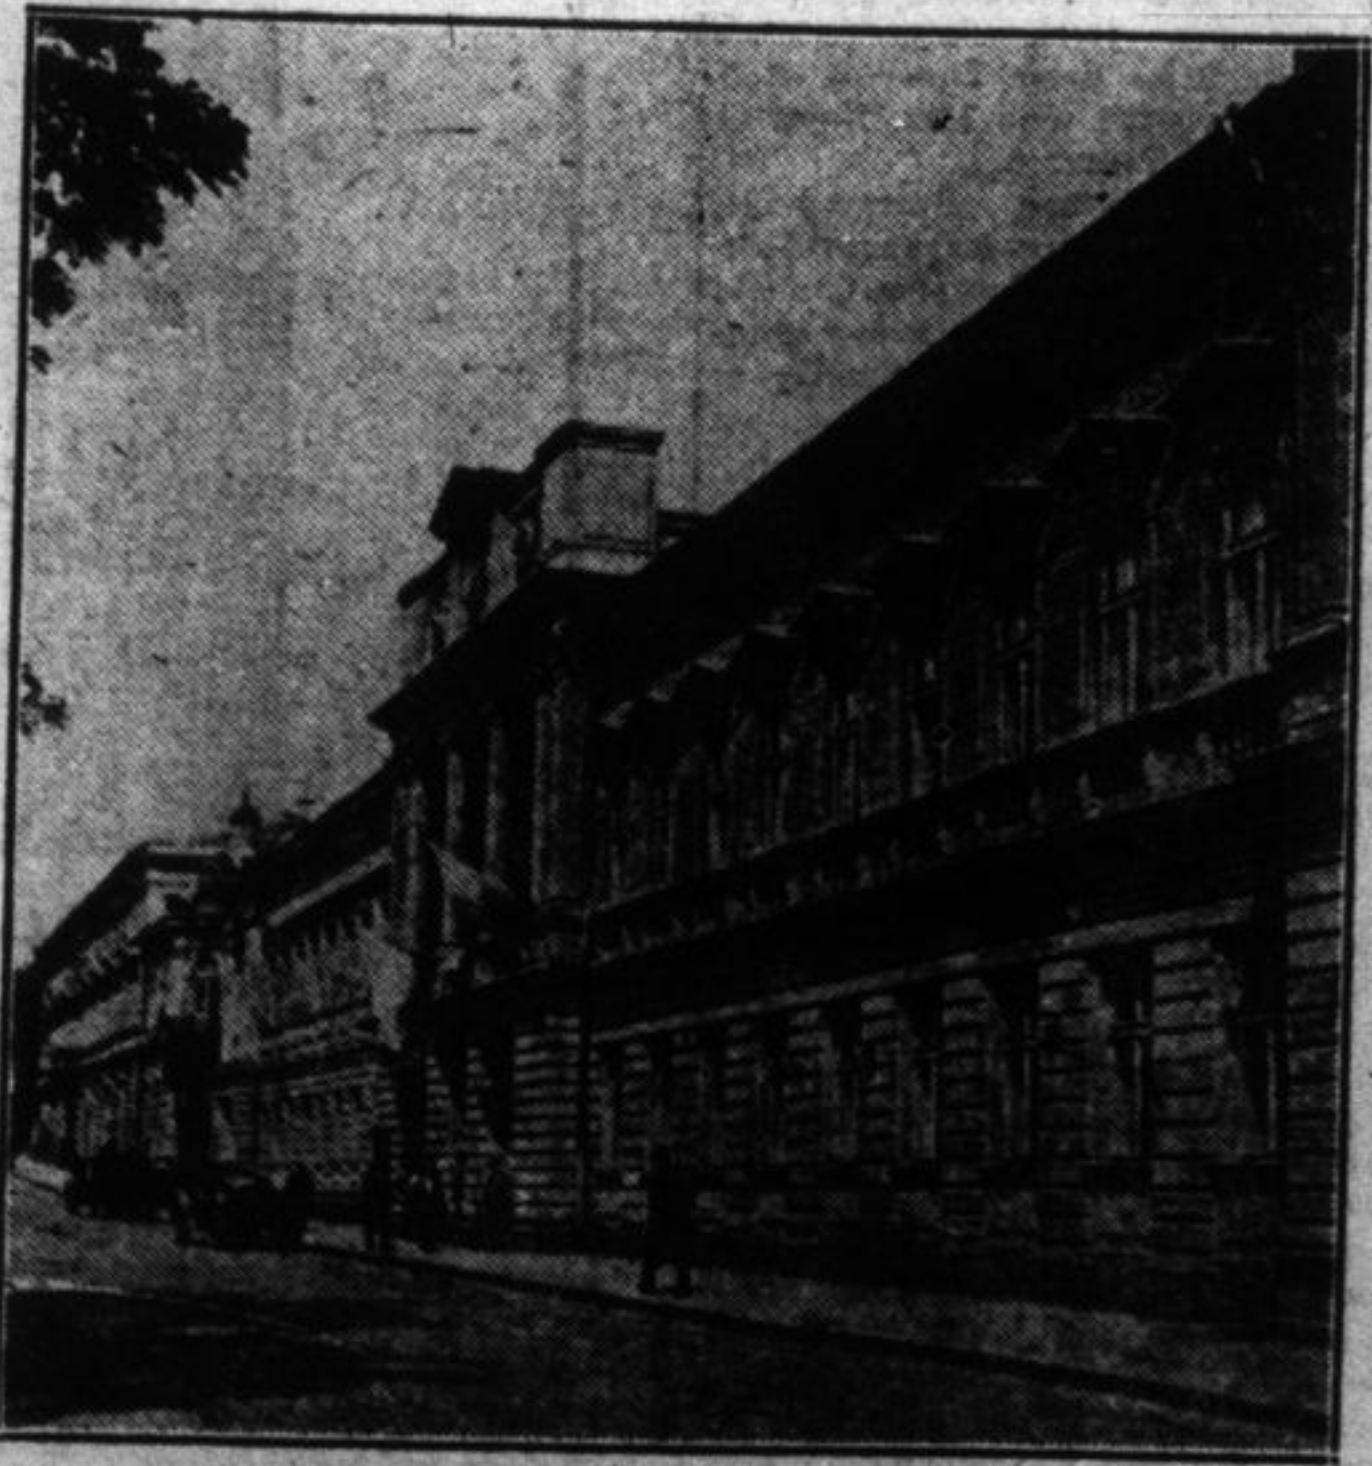

Sofia resembles a city occupied by an invading army, for soldiers wearing steel helmets and carrying fixed bayonets stand guard over all public buildings.

While order apparently has been restored in northern Bulgaria, the defeated communists show great recuperative powers in the southern part of the country and although scattered in the evening are able to marshal their forces over night and resume hostilities in the morning.

Ivan Gueschoff, the veteran statesman and premier of Bulgaria in the first Balkan war, has issued an appeal to his countrymen to cease the shedding brothers' blood and devote their energies to rebuilding the country.

Jugo-Slavs at Frontier.

The correspondent learned from government sources that the heads of all diplomatic missions in Sofia, including the Jugo-Slav minister, have been given assurance that they will refrain from any action pending the efforts of the government to restore order. It is understood the minister of Jugo-Slavia explained the presence of 50,000 of his nation's troops on the northern frontier by saying that such a show of force was kept there for the purpose of maintaining peace in Macedonia. These troops are within reach of the coal mines of Pershek and within an hour's march from Sofia.

THE BULGARIAN WAR OFFICE AT SOFIA

Revolution is raging in Bulgaria again and all the government forces are being exerted to suppress the rebels who are believed to be financed and directed from Moscow. Latest reports say that Roumania has offered part of its army to Bulgaria to assist in putting down the revolution.

New Issue

Dominion of Canada Refunding Loan 1923

The new Dominion Government 5% five year and twenty year bonds are offered to investors and those now holding 1923 Victory Bonds on a basis which establishes them as the most desirable Canadian Government security marketed for several years. The issue is available in two maturities:

5 Year Bonds due October 15, 1928
Price: 99 yielding 5.23%
20 Year Bonds due October 15, 1943
Price: 98.25 yielding 5.14%

Holders of 1923 Victory Bonds are urged to take immediate advantage of the conversion privilege through which they obtain a bonus of fifteen days' interest in addition to a substantial cash payment for every \$100 converted into bonds of the new loan.

Bonds sold for cash or exchanges made at my office or by phone free of charge.

Rockefeller Gives \$10,000 To Spread Use of Insulin

Philadelphia, Sept. 28.—Provost Josiah H. Pennington of the University of Pennsylvania announced that John D. Rockefeller, Jr., has given to the university \$10,000 to be used for the purpose of treating with insulin a larger number of public ward and dispensary patients suffering from diabetes, and to teach physicians in general practice the proper method of employing insulin in the treatment of the disease.

Since the announcement of the discovery of this new means of combating the disease the medical staff of the University hospital has been studying the treatment and has had under its care a limited number of patients.

Arrangements are being made to give instructions to physicians, and announcement of the courses will shortly be made to physicians.

From trivial things great contests sometimes arise.

DR. CHASE'S OINTMENT

Farmers Lose Heavily.

Brookville, Sept. 28.—Fire of unknown origin destroyed the barns in South Crosby township, near Elgin, of C. R. Taylor, together with his machinery, grain, a quantity of hay and some 100 chickens. Insurance will not cover the loss, which will be heavy. All the outbuildings on the farm of Alfred Ireland, Kitley township, were destroyed by fire, with a loss of \$10,000, to meet which insurance of only \$1,800 is carried. The contents of the buildings, consisting of the season's crops, machinery, etc., were also lost. Live stock were saved.

Suspicion is not less an enemy to virtue than to happiness; he that is already corrupt is naturally suspicious, and he that becomes suspicious will quickly be corrupt.

The long-familiar colored globes in chemist's windows were first displayed by the Moorish druggists of Arabia and Spain.

Duties extend beyond obligations, and direct the affections, desires and intentions, as well as the actions.

CANADIAN NATIONAL RAILWAYS

A change will be made in passenger train schedule on Sunday, September 30th, 1923.

For particulars apply to J. P. HANLEY, C.P. and T.A., C.N. Railways. Office: Corner Johnson and Ontario Streets, Kingston, Ont. Phone 39 or 1433.

Pulling Autos Out of Mud.

A Renfrew citizen was told last week that in the Martin's Corners section of Adamston township a farmer had made \$27 by hauling automobiles out of the mud. Good roads construction is in progress in that locality, but as yet all the bogs have not been converted into modern highways.

The fault is as great as the that commits it.
