THE PREVENTING OF FIRES

Subject of Timely Address Before Rotary Club by Dominion Fire Commissioner.

"What we need more than any thing else in Canada to-day is a leader in every city, town, village and hamlet who will bring the matter forcibly before the people and impress upon them the necessity for carefulness so as to prevent fires," said J. Grove Smith, Dominion fire commissioner, Ottawa, addressing the members of the Kingston Rotary Club, at their noon-day luncheon in the British-American hotel on Friday noon, at which the president, Leman A. Guild presided.

Next week is being observed as "Fire Prevention Week," when people are expected to clean up and do all they can to prevent fires, and it was most fitting that the Rotary Club, which has as its motto. vice Above Self," should have special speaker on this all-important matter. In a forceful manner, Mr. Smith set forth the great need for every citizen to take special care to prevent fires, and his address was a rost timely one and very interesting.

"In this question of fire prevention we need leadership," said Mr. Smith. in summing up his address. "All our problems come to us because we have act had leaders. We need men to take up the leadership and give the undertaking a proper guidance. Fire protection afforts a wonderful opportunity for leadersbip.

Mr. Smith stated that the question of fire protection was one of great importance. It was a public question and one that should appeal to the Rotarians, who had "He Profits Most Who serves Best," as one of their mottoes. Fire protection was service for the good of the community. Within the past ten years we had heard a great deal about service. Within this space of time a great many service clubs had been organized. People were not only serving themselves but their fellowmen. Men were beginning to realize that the main thing in life was not that the cup should be drained, but in a measure filled, and that it was not a question as to how much we can get out of life, but rather what we can put into it.

The speaker, going into statistics. stated that in Canada last year property had been destroyed valued at \$54,390,600 or \$6.20 per capita of the population, while the total cost for waterworks, maintenance of fire departments, for fighting fires, protection for property owners and for incidentals thereto, the amount reached \$104,370,000. This was a very large sam, and would be sufficient to pay off the entire national debt. The fire loss in the United States amounted to \$4.90 per capita; in England, 91 cents; France, 60 cents; Italy, 35 cents; Switzerland. 14 cents; the Netherlands, 14 cents.

People Pay For It. Fire loss in Canada had a great effect on Canada, as this country is producing country. Canada had to compete with other countries and production is so great. The cost of Kingston on Thursday. fires was reflected in everything the country produced, and the cost had to be borne by the men, women and on a two weeks' vacation.

children in the country. Every person had to bear a share of the burden. The question was not only a attend the McGill-Queen's game national problem, but it was also one that came very close to the in-

called upon to clean up their prop- INCOME TAX EXEMPTIONS erty and look after a number of INCOME TAX EXEMPTIONS minor details which are often neglected, and which when neglected, are liable to cause a fire, and include defective stove pipes, chimneys, etc."

Mr. Smith also stated that he had paid a visit to the Davis tannery but he would not like to make any comment as to what had been the cause of the fire there.

Turning again to the question of fire prevention, the speaker stated annual report following his survey that the special week had been set of the realty property of the city, and aside as "Fire Prevention Week," in from indications reaching the Britorder to carry the idea into the ish Whig, it is likely that despite the schools so that the boys and girls heavy loss in revenue, due to the new could be appealed to and so every exemptions under the income tax effort possible could be made to have passed at the last session of the a country free from fire

But then there are many odd jobs they can do, and the club is making an appeal on behalf of these war heroes.

During the luncheon. President Guild took occasion to thank Rotarian and Mrs. F. W. Coates, on behalf of the club, for their kind hospitality on Friday evening last, in opening their home for the entertainment of District Governor Weeks, Mrs. Weeks and Rotarian J. Ballard and Mrs. Ballard. Mr. Guild stated that the visitors were greatly pleased with their visit to Kingston and the entertainment provided.

Among the guests present at the uncheon were Rev. A. E. Cooke, Warden J. S. Sibbitt, Ald. Percy B. Chown, Ald. Jack Johnston, Ald. R. E. Kent and Fire Chief Armstrong. Secretary Roy Ward received not!-

fication that Rotarian "Al." Davis had attended a meeting of the Hamilton Rotary Club on Thursday. "Al" is making a tour of western Ontario.

D. Wightman moved the value of Kingston real estate.

There would have been much more building but for the high costs, according to builders who have for many years found it profitable to erect a few residences every season. Values are maintained, and rents stable and on a profitable basis. Many looked for a considerable drop Secretary Roy Ward read a letter in values but the drop did not oc-

SYMPTOMS OF ANAEMIA

An Inherited Tendency to Anaemia May be Overcome

Some people have a tendency to become thin-blooded just as others have an inherited tendency to rheumatism, or to nervous disorders. The condition in which the blood becomes so thin that the whole body suffers comes on so gradually and stealthfly that anyone with a natural disposition in that direction should watch the symptoms carefully. Bloodlessness. or anaemia, as the medical term is, can be corrected much more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale, and breathlessness on slight exertion, such as going up stairs, is noticed.

Dr. Williams' Pink Pills are home remedy that has been successful in the treatment of diseases caused by thin blood. With pure air and wholesome food these blood-making pills afford the correct treatment when the symptoms described are noticed.

You can get these pills through any dealer in medicine or by mail, postpaid, at 50c. a box from The Dr. Williams' Medicine Co., Brockville
