CONSTANCE TALMADGE IN "DULCYO" IS BIG HIT AT ALLEN
 Constance Talmadge's latest First National comedy, "Dulcyo," now showing at the Allen theatre, is a scintillating picture based upon the successful New York stage play of the same name by George Kaufman and Marc Connelly.
 "Dulcyo" furnishes Constance with just the type of play the public demands of her. Much research and thought was given to selection of stories for her popular Joseph M. Schenck star because it was realized that close bond of sympathy exists between Miss Talmadge and her faithful followers.
 That the production is an excellent one in every way is indicated by the carefully chosen cast and the persons who produced it. Sidney Franklin directed "Dulcyo" from the continuity by Anita Loos and John Emerson. The entire resources of the Schenck organization were played at Mr. Franklin's disposal during the making of "Dulcyo" and no efforts were spared to make this comedy surpass Constance's past achievements. It is a First National picture.
 Others in the cast are Jack Mulhall, Claude Gillingwater, May Wilson, Johnny Harron, Anne Cornwall, Frederick Emreton, Andre de Beranger, Gilbert Douglass and Mills Davenport.

SPORTING NEWS

Toronto Globe Comment.
 Queen's seniors are the team to beat for the Intercollegiate Union title, and judging by the few performances to date the Tricolor should go right through to the Dominion championship.
 The McKelveys of Kingston are a great football family. "Red" started his senior career when 15 years of age, "Gib," who played for Queen's on Saturday, is 17, and there is a younger brother now at the Kingston Collegiate who is bigger than the other two, and promises to be one of the future stars. And in addition to being good "gridgers," the McKelveys always "play the game."
 Coach Billy Hughes is popular with the Tricolor players. He is getting results, and expects that the team will reach the top of its form in the next two weeks.

Queen's Athletes at Work.
 Some surprises will be sprung when the Queen's athletes visit the Varsity Stadium at the forthcoming Intercollegiate games day.
 Every afternoon now Coach Bawa entertains the track squad at his palatial quarters on "Cinder Boulevard," and his guests never number less than twenty! Sprinters, distance men, pumpers, discus throwers, shot put heavers, are all out in quantity and in quality! Among the first named the most prominent is Smith, "the medical express train," who is doing the century and the 220 in impressive time. He has been elected captain of this year's squad. In the high jump, Hunter, late of Hamilton, is the man on whom Queen's hopes rest. Some of his performances have been really amazing. Walli, "the Pride of Copper Cliff," who is excelling himself in the discus throwing and shot put. Campbell Maybee, the old reliable broad jumper, has never been in better form. In the pole vault F. Davidson of Ottawa, has been giving the onlookers something to talk about. There are two members of the famous Hamilton C. I. team out; they are going to make things interesting for their opponents in the sprints.

WHY THE WEST IS SMILING
 A scene on a prairie farm, which is repeated thousands of times throughout the west, showing the grain stooked and waiting for threshing. Canada this year has the largest crop in her history, 470,000,000 bushels, just thirty million short of the half billion mark. The bountiful harvest spells prosperity for the entire Dominion.

"THE LONELY ROAD"

Attraction at Strand
FIRST HALF OF WEEK.
 "The Lonely Road" is attractive in many ways. It certainly attracts the fair sex, who are anxious to see Katherine MacDonald in the marvelous gowns she wears in this strong film drama. They like to study Katherine for beauty hints, too. Orville Caldwell, the leading man, is another source of attraction, for he also is famed for good looks. Still, when all is said and done, the story is the thing. And "The Lonely Road" is a strong story. It is a study in contrasts, the contrasts being two different conceptions of life, cherished by different types of womanhood. The theme is worked out with naturalness and power, and the woman who treads "the lonely road" strengthens her hold on the audience as the tale unfolds. The production is beautiful, and its appeal to the artistic sense is not the least of its attractions. Married folks should all see it, for it deals with some of the most vital problems of modern wedded life, problems that confront twentieth century folks at every turn. The Strand comedy is Dorothy Devors in "Navy Blues," and at the risk of being criticized for punning we must affirm that it is a real cure for the "blues." The Perth review, as usual, has an appeal and charm of its own.

BOY'S FOOT FRACTURED WHEN JUMPING ON AUTO

Donald O'Brien, Victoria St., Victim of an Unfortunate Accident.

Donald O'Brien, son of Mr. and Mrs. O'Brien, who reside at 48 Victoria street, suffered a compound fracture of the foot when he attempted to jump on the automobile driven by Eugene Dennee, at the corner of Princess and Division street on Monday at noon.
 Mr. Dennee, who was driving up Princess street, stopped for the purpose of giving a couple of boys a drive home. The automobile had just started, when young O'Brien came running across the road and attempted to get on the running board of the car. It is thought that he must have struck his ankle on the edge of the board with such a force that the bone was broken. It was stated by people who were nearby that the auto did not pass over the boy's foot.
 The brother of the injured lad and a number of citizens, who were near when the accident occurred, stated that Mr. Dennee was in no way responsible for the accident. The automobile was hardly moving when the boy attempted to jump on the running board. The lad was taken to the Hotel Dieu hospital where he was attended to by Dr. Quigley.

GIANTS' VETERAN PITCHERS.

McGraw Grooming Scott, Watson, McQuillan and Nehf
 Four pitching veterans—all former members of the Boston Braves—are being groomed carefully by Manager McGraw, of the world's champion Giants, to match speed and curves with the all-star Yankee array in the world's series that begins next Wednesday. Upon them McGraw places much of his hope for a third successive world's championship.
 The quartette are Jack Scott, twirling hero of the Giant triumph last year; Silent John Watson, a 1922 addition to the staff; Hugh McQuillan, whose acquisition last season helped turn the pennant tide in favor of the Giants; and Art Nehf, diminutive southpaw star.
 Nehf, Scott, and McQuillan accounted for three of the 1922 series victories over the Yankees, while Nehf twirled the deciding victory for the McGrawmen in the eighth game of the 1922 classic.
 On paper, the Yankee mainstays—Jones, Hoyt, Bush, Penneck, and Shawkey—outclass the Giant moundmen, just as they did a year ago, but memories of the 1922 reversal, when the Giant staff came through with flying colors, while their rivals cracked, have prompted the belief that McGraw may again round his squad into winning condition.

 Cornwall, Oct. 8.—Navigators on the Lachine canal, blocked by the Ville St. Pierre bridge, which could not be raised to permit the passage of vessels was resumed yesterday at noon when the plans of the engineers to move the bridge bodily to the south shore was carried out.
 The bridge, of the bascule or jack-knife type, was put out of commission last week, when the 900-ton balance weight, used for raising and lowering it, tore out the rivets holding it in place and fell to the ground, rendering it immovable. Many grain boats bound for Montreal were held up by the accident, and the number increased daily, threatening to result in serious dislocation of traffic.

PREMIER KING SPEAKS AT THE EMPIRE FAIR

Would Have an Exhibition to Show Extent of Arts of Peace.

London, Oct. 8.—Speaking at the British Empire Exhibition at Wembley Park, Saturday afternoon, Premier Mackenzie King, of Canada, urged that the exhibition should represent the Empire in miniature. "All through the history of nations," said Mr. King, "two antagonistic types of activities have struggled for the ascendancy—militant and industrial. The world has had its great object lesson in the outcome of the former within the recent past. In this exhibition we would have an object lesson of the possibilities of the latter. We of the British Empire would have the world witness here the limitless possibilities for progress and plenty of the arts and peace. To develop the industrial type of organized society to its highest possibilities should be the aim of our combined British communities. As we achieve that end, and vast contribution toward it will be made by this exhibition, we shall make our contribution of permanent value not only to our Empire alone but to the well-being of mankind."
 The Duke of Devonshire, Secretary for the Colonies, who presided, said that the intention of the board of management was to make the Exhibition British in the widest sense of the word.
 In submitting a message of greeting to the Prince of Wales at Ottawa the Duke of Devonshire observed that he knew E. P. Ranch, Alberta, perhaps better than anyone present, dryly adding, "If I had my choice I should be there to-day."
