

"The Meaning of Semi-ready"

Quality Talks First

With the Good Merchant the first and the last thought is of Quality—and with us we make well-tailored clothes at a fair price—letting the cost value be a secondary consideration.

Frankly, we could sell cheaper clothes and make a bigger margin of profit—as many do—but we could not smile in the eye of the customer after, did we do it.

Semi-ready Tailoring was founded on the belief that men wanted "something better" in clothes ready to get quickly—and one must not compare "Semi-ready" with ready-made clothes—for they are utterly different. There is twice the inside work in a Semi-ready coat—that is why we can guarantee each garment to stand up and give satisfaction.

Quality Clothes are cheapest—they really cost less, and their wearer looks as prosperous as the clothes are.

May we show you what we mean—in Suits and Overcoats at \$25, or \$35, or \$45—the value is there. Always look for the plain price label in the pocket—if it's not there, it's not a "Semi-ready."

HARDSHIPS CAUSED BY NEW YORK LANDLORDS

Parents Ask That Laws Be Extended to Protect Their Children.

New York, Oct. 18.—A dark picture of the suffering of many thousands through abuses of the rent laws by New York city landlords was painted by witnesses before the state commission on regional planning and housing yesterday.

Forced to drastic economies by the demands of ever-mounting rents, witnesses said, children had to go without proper food or clothing, others told the commission that top-heavy rents had compelled them to take their children from school, that their earnings might be added to the family income.

Mingled with these tales, mostly from poorly dressed mothers, were recommendations from lawyers and housing officials that the emergency rent laws be extended at least two years. Some urged that they be made more stringent. Two city building superintendents, Charles Brady of Manhattan, and Patrick J. Reville of the Bronx, told the commissioners that lapse of the rent laws would result in wholesale evictions by landlords demanding yet higher rents.

New York city couldn't get enough marshals to attend to the flood of evictions, Mr. Brady said. Mr. Reville said, while there were ample homes for persons who could afford to pay high rentals, nothing was being done to create houses for the average wage earner.

"As a result," he said, "the higher class mechanics are leaving New York for places where they can bring up their families decently."

Another witness, chairman of a tenant league, declared his belief that the tenants of the city would take violent steps against the landlords if the rent laws were not extended.

Frank Mann, tenement house commissioner, said a department census showed that of every 1,000 apartments in the city, only four were vacant. He also insisted that nothing was being done for the housing relief of the small wage earners.

Manila, Oct. 18.—The Philippine Islands will not be disturbed with an immigration problem for some years to come if the present rate of immigration is continued.

A total of less than 4,000 immigrants came to the islands during the first six months of the present year, according to reports obtained from the customs service.

Chinese comprised the bulk of immigrants, 3,341 out of a total of 3,830 of those seeking permanent residence in the islands being Chinese. Of these 1,185 were minors under 14 years of age.

How to Keep a Child Healthy

A GENERATION ago parents thought that sickness was a part of a child's life, but we know better now. The secret is in the food the mother allows the child to eat, and in watching that elimination occurs regularly two or three times a day. Mrs. W. E. Marquess, Centerville, N. S., and Mrs. Pratt, 45 Gilson Ave., Runcyville, Toronto, always keep a bottle of Dr. Caldwell's Laxative Syrup Pepsin in the house, ready for use, and avoid many of the ills to which children are subject.

A Substitute for Physics Dr. Caldwell's Laxative Syrup Pepsin is a scientific compound of Egyptianenna with pepsin and suitable aromatics. The formula is on every package. You will find you do not have to force children to take it, and it is much better for them than castor oil, calomel or coal-tar drugs like phenolphthalein even if covered with sugar or chocolate.
