To-Day's Blunder Corrected

(See Illustration on Page 14.) Carbon copies of letters over one page long, and intended for the files in an office, should be written on both sides of the paper so that the second page of the letter is on the reverse side of the first copy. This not only effects a saving in copy paper, but also cuts down on the bulk of material in the filing cabinet, and eliminates the possibility of one sheet being lost.

Convenience Is Service!

What a difference there is between an old-fashioned box trunk and an up-to-date wardrobe trunk!

Everything is jammed at random in the old box—but the modern wardrobe trunk is entirely different. It has hangers for garments, drawers for linen, pockets for shoes, a corner for an umbrella and a compartment for hats. It almost packs and unpacks itself.

You live in the great, modern age of System and Convenience. You want place for everything and demand that everything be in its place.

That is why you will appreciate the modern, systematic A-B-C Classified Section. It has a separate "compartment" for each group of opportunities—and they are all alphabetically indexed and numerically classified for your convenience in quick finding.

You'll pack all your troubles in your old kit bag—when you unpack all the opportunities in the A-B-C "compartments" whose labels interest you.

THE A-B-C CLASSIFIED ADS ALWAYS THE SAME—IN SERVICE ALWAYS DIFFERENT—IN OPPORTUNITY
