DR. GOODWIN'S PORTRAIT IF UNVEILED AT QUEEN'S

Presentation on Behalf of the Graduates by R. O. Sweezy, Montreal.

The autumn convocation was held at Queen's University on Friday evening, and a pleasing feature of the event was the presentation to the university of a beautiful portrait of Dr. W. L. Goodwin, for thirty-six years dean of the science faculty, by R. O. Sweezy, B. Sc., Montreal, on behalf of the graduates. In addition to the conferring of degrees and scholarships awarded to graduates and students, the honorary degree of doctor of laws was conferred upon His Honor Judge Thomas Dickie Cumberland an arts graduate of Queen's in 1875.

Dr. R. Bruce Taylor, principal and vice-chancellor, presided, and though suffering from an affection of the knee that necessitated his walking with the aid of crutches, he displayed his wonted cheerfulness and keenness. In addition to the student body there was a large gathering of citizens and friends of the university. Rev. W. E. Kidd, officiated as chaplain.

Mr. Sweezy was introduced by the vice-chancellor, and after describing his admission to Queen's twenty years ago he told of his happy associations with Dr. Goodwin, a professor beloved by all who knew him. Dr. Goodwin was present.

In accepting the portrait on behalf of the trustees and staff of the university, Dr. Taylor paid a high tribute to Dr. Goodwin's fine qualities as a man and a scholar. He called upon Dr. Goodwin who said it was the greatest occasion of his life. He said he did not know that his students felt such a strong attachment to him, and he thought that the reason why Queen's was able to compete on even terms with the other strong universities of Canada, was the strong relationship that existed between the professors and students. The cordial spirit set free all the powers of each professor. He told of the beginning of the late self-government when the late Principal Grant put the management into the hands of the Alma Mater Society. He thanked Mr. Sweezy, and in conclusion said, "I wish to send out to my former students my heartfelt thanks for this touching expression of their feelings toward me."

Judge Cumberland was introduced by Dr. John Watson, vice-principal. Judge Cumberland was born in Dufferin county, Ont., and after graduating from Queen's studied law. He practiced in Winnipeg previous to his appointment as county court judge at Brandon, Man. After receiving his degree he gave a most interesting account of Queen's in his student days. He entered the Arts course in 1871 and the total number of students was twenty-seven. Dr. Snodgrass was the principal and there were five Arts professors. The medical college was on Princess street and had no connection with Queen's. The judge said he had vivid recollections of the events of that time. He failed then to visualize the Queen's of today and he esteemed it a great honor to have the degree of doctor of laws conferred upon him.

Dean Connell, Dean Clarke and Dr. McNeill presented the students for their degrees and scholarships.

Dr. Taylor introduced Hon. W. F. Nickle, K.C., M.P.P., chairman of the board of trustees, as the attorney-general of Ontario, and Mr. Nickle in responding told some of the interesting incidents of his student days at Queen's.

CONVICTS PICKED UP BY SOME RELATIVES

Who Drove to Glenburnie—Gave a False Impression at Toronto.

There now appears to be no doubt that the four convicts who made their escape from the Portsmouth penitentiary on the morning of September 10th were taken away from Glenburnie in an automobile furnished by relatives of the prisoners.

There have been rumors for some time that one of the relatives of the prisoners came from a western city for the purpose of getting the four convicts who were hiding. It would appear that the man in question knew exactly where he was going as the Glenburnie residents did not see any strange automobiles in that locality after the sensational escape.

There is a story in circulation to the effect that the man who drove the automobile, after arriving in Toronto on his way to Kingston, tried to cause the impression that he had left for a trip in the western part of the province, while in reality he came direct to Glenburnie and picked up the four convicts.

IN MARINE CIRCLES

A strong south westerly gale has forced the local coal fleet to take shelter either in the local harbor or at American ports. Several of the larger vessels have also been windbound owing to the storm.

The steamer Canadian arrived from Montreal on Saturday morning and cleared light for Fort William.

The steamer Edmonton arrived from Montreal on Friday night and cleared on Saturday morning for Fort William.

The steamer Britannic arrived from Montreal on Friday afternoon with passengers and freight.

An Amusing Combination. An amusing thing was witnessed on the streets on Saturday morning. A coal cart passed along with a card advertisement of the motion picture coming to Kingston next week, "If Winter Comes." The driver and his load caused much amusement.

PRESENTATIONS MADE BY P.W.O.R. OFFICERS

To Lieut.-Col. Pense, Major L. F. Goodwin and Lieut. W. Hawley.

A very happy event took place, after dinner, in their mess at the armouries on Friday evening, when the officers of the Princess of Wales' Own Regiment marked the occasion of the marriage of two of their number and the retirement from the command of Lieut.-Col. H. E. Pense, D.S.O., M.C. Among the guests were Major-General Sir A. C. Macdonell, K.C.B., C.M.G., D.S.O., commandant of the Royal Military College and the following ex-commanding officers: Brig-General W. S. Hughes, D.S.O., Lieut.-Col. H. J. Dawson, C.M.G., D.S.O., Lieut.-Col. J. S. Skinner and Lieut.-Col. W. Y. Mills. During the course of the dinner an excellent programme was played by the regimental band, under Bandmaster W. J. Christmas.

Major H. D. Wightman, M.C., mess president, called upon Col. Pense to make the presentation to Major L. F. Goodwin. The time-honored gift of the officers to those of their number who join the ranks of the married is a clock. In a brief speech Col. Pense referred in most complimentary terms to the work of Major Goodwin for the past thirteen years, of their appreciation of his contribution to the life of the mess, and, on behalf of his brother officers, asked the second-in-command to accept the gift, with the best wishes for long life and happiness for Mrs. Goodwin and himself. Major Goodwin replied in a very fitting speech. The second presentation of this nature was made to Lieut.-W. Hawley, Lieut.-Col. E. B. Sparks, the present commanding officer, extended the best wishes of the officers to Mrs. Hawley and their brother officer, Mr. Hawley expressed his appreciation.

Col. Dawson, the commander of the 7th Canadian Infantry Brigade, was requested to make a presentation to Col. Pense, who has retired from the command of the local infantry battalion, after seventeen years of service with it and the C. E. F. He traced the service of the retiring C. O., since the days of his enthusiastic work as a private, non-commissioned officer and subaltern officer, to his appointment to the 21st Battalion, C. E. F., his ultimate command of that unit, and the task of re-organizing the Kingston regiment upon his return from overseas in 1919. He declared as decidedly fitting that the enthusiastic and consistent work of such an officer should be suitably marked, and asked Colonel Pense to accept from his brother officers a handsome silver tray, suitably engraved, as a token of their appreciation of his work for the regiment and of their regard.

The retiring commanding officer very warmly thanked those with whom he had been associated in military work, whom he had considered as friends, and without whose co-operation his efforts in Kingston's historic old regiment would have availed little. To Colonel Dawson's words of praise of his work in the local militia and the C. E. F. he replied that it had given him a great deal of pleasure to assist in building up the records of the units with which he had been associated at the front and at home, and expressed his assurance of the future success of the local battalion, under Col. Sparks.

Sir Archibald Macdonell was called upon and, in the course of his remarks, congratulated Col. Pense on his record with the Canadian Corps, and paid a tribute to him for carrying out the re-organization of the P.W.O.R. upon his return, when an officer who had been so long in strenuous work at the front might have preferred to be relieved of all military responsibility.

General Hughes, the first commanding officer of the 21st, and whose many years of work in the old 14th Regiment are so well known, paid a glowing tribute to the efforts of the recipient of the gift of the officers, and in a very interesting manner, touched upon events in connection with the history of the local corps. General Hughes spoke very highly of the present C. O., Col. Sparks, whom he had recruited when a boy.

Colonel Skinner, the "daddy" of the ex-commanding officers, who guided the destinies of the regiment from 1898 to 1903, was given a most hearty reception. During the war he served with the British army, but has returned to Kingston to reside, a fact over which he is very happy. His brief speech, chiefly in regard to the views of the nineties in the local unit, was very interesting. He voiced his deep appreciation of having been so warmly received by the present officers.

TEACHERS' INSTITUTE
Interesting Lectures By Prof. Roy and Dr. Miller
The Kingston Teachers' Institute held their concluding session on Friday afternoon when two interesting lectures were delivered by Prof. J. A. Roy and Prof. James Miller, of Queen's University. The business meeting earlier in the day brought out a number of discussions on the work of the institute. Miss C. Lovick was one of the prominent speakers of the resolutions committee.
Prof. Roy lectured on "The Development of Literary Criticism," in which he dealt with the idealism of literature and the various viewpoints of the critics. The address of Prof. Miller dealt with the protection of children from communicable diseases. The members of the teaching staff of Robert Meek school served refreshments to the delegates at the conclusion of the convention business.

Something Racy Coming.
The Picton Cheese Board is of the opinion that the Dairymen's Association of Eastern Ontario is influenced or controlled largely by the butter interest. It is writing cheese people to rally at the convention in Kingston on Jan. 10th and 11th to call a halt. At the Brockville cheese board R. G. Leggett stated that the inference that the association is dominated by the butter interests is unjust. The creamery men had formed an association because they felt they did not get a fair show at the E. O. D. H. J. A. Sanderson said the government officials dominated the convention.
