COUNCIL TO EXPLAIN TWO MONEY BY-LAWS

Through Newspaper Advertising—Hickson Avenue Mail Delivery Question Again

The city council on Monday night made preparations for the municipal nominations and elections. It appointed the places of nomination and the deputy returning officers for Monday next and also the polling places and deputies for the elections on the 3rd of December. There was a discussion on the two by-laws to be placed before the ratepayers for their decision, and the fire and light and the industries committees were authorized to spend some money in giving information to the people through the two daily newspapers. Dr. W. W. Sands, industrial commissioner, read a statement with regard to the proposed chemical industry to be established here if the city grants a site and exemption. It was pointed out that the ratepayers are being asked to vote upon two by-laws in this regard. One is for the purchase by the city of a piece of waterfront and the other is for giving a site and exemption to the Attack company which has been incorporated. The city has advertised that it will give a free site to any good industry establishing here.

Company's Directors.

Two of the directors of the proposed chemical company are Daniel McLaughlin, Arnprior, a millionaire lumberman, and T. H. Wardlaw, Montreal, druggist. It was pointed out that this proposed Kingston chemical company would be the only one in Canada. This country imported dyes and chemicals to the amount of ten million dollars yearly. The company must have a waterfront property for its business, and the site on the lower harbor is the only one available. Hull, Que., will likely get the industry if Kingston fails to give the required site, it was intimated.

With regard to the by-law to purchase a motor pump for the fire department, Ald. O'Connor stated that he did not think the people would have been satisfied if the city council had not had the old Chatham engine repaired. The engine has been put in fair condition, but the people know that it is not satisfactory for tackling big fires, and that the city is not safe without a new pump. The other pump is not in good repair and the department really has only the old Chatham to depend upon. Further information would be given the ratepayers through the press during the next two weeks.

Hickson Avenue Mail Delivery.

Ald. Kelly declared that the post office department officials who reported that Montreal street and Hickson avenue were snowbound in winter should apologize to the council for reporting such a falsehood. Montreal street was travelled all winter to the C.N.R. station by automobiles, and Hickson avenue was always open. Ald. Boyd backed up Ald. Kelly in his statement about Hickson avenue, whose walks, he said, were as well cleared of snow as were places in the heart of the city. On motion of Ald. Kelly and Boyd the city clerk was instructed to inform the post office department that Hickson avenue was open the year round and to again press for a street mail delivery there.

Parking Question.

Ald. Price discussed the question of public parking places for automobiles and said that all cities were trying to solve this difficult question. Kingston would have to do something for the car owners. More parking spaces were needed downtown, and he suggested that the sidewalk on the south side of Brock street, between Bagot and Sydenham streets, should be moved in to the street line and the roadway widened by five feet. This would give additional parking space on that street.

Ald. Sargent pointed out that the block-in question was close to the Hotel Dieu hospital and it was not a good thing to park a lot of cars there. The noise of starting up late at night was bad for patients.

Board of Works.

That on the recommendation of the Board of Health a sewer be constructed on Park street from Macdonnell street westerly to serve the houses on said street, on sanitary grounds, under the Local Improvement Act.

The industries committee, on motion of Ald. Laturney and O'Connor, was authorized to spend \$109 in the local daily papers to advertise the chemical industry by-law.

On motion of Ald. Chown and Driscoll, it was decided to send a deputation to Ottawa to join with other municipalities in protesting against the Chicago drainage canal.

No action was taken with regard to sending a "Miss Kingston" to enter the International Beauty Contest to be held at Toronto in December.

KIWANIS CLUB LUNCHEON

Address by R. E. Burns With Regard to City's Water Supply.

The regular weekly luncheon of the Kiwanis Club was held in the dining hall at the House of Providence bazaar, and the occasion was marked by a record attendance, showing the high estimate in which the mother superior, the sisters, and their admirable institution, are held by the Kiwanians of Kingston. The meeting was enlivened by songs that were heartily sung under the leadership of Garnet Lockett, Dr. John Broom playing the accompaniment. At the conclusion of the programme a hearty vote of thanks was moved by Dr. L. J. Austin, and seconded by W. M. Nickle.

President H. C. Nickle occupied the chair, and during the roll call lines were levied upon the delinquent members and a tidy sum was thus raised and donated to the bazaar. F. A. Atkins, a new member, was introduced by H. W. Newman.

A feature of the dinner was an address by R. E. Burns, of the utilities commission, upon the subject of water, and he read from the report of Dr. J. R. Currie, formerly professor of preventive medicine at Queen's University, who made an investigation of the lake Ontario water and also that in Loughborough lake. Mr. Burns said that the report was a very valuable one and would prove of great use to the city when the question of water supply had to be taken up. In that event the commission would have to draw up proposals based upon the report for endorsement by the people. He could not say just when that would be, but in the meantime he felt that the methods being pursued were quite satisfactory and no radical modifications were required.

Mr. Burns also discussed sewage disposal and the water in Loughborough lake that was found to contain a high per centage of contamination; in fact it was worse than that of lake Ontario. Mr. Burns' term on the commission expires this year and he announced that he would not seek re-election.
