

WHY SHOULD ONTARIO ASSOCIATION DO THIS? Seems as if Toronto Comes in for Everything That Is Going.

There is a proposal in Ontario Hockey Association circles to establish a scholarship at the provincial university as an Ontario Hockey Association Great War Memorial to be open to Canadian soldiers who served overseas or the sons and daughters of same.

The proposal itself is a very good one and it would be not only beneficial to some returned man or returned man's child, but also to the great winter sport and what is the greatest hockey body in the world.

But what we cannot swallow is that "provincial university" stuff. If a scholarship is to be established by the O.H.A., which is supported and maintained by towns and cities all over the province, then why should any person winning that scholarship be forced to attend University of Toronto? What happens to Queen's University or to Western, or other institutions of higher learning in the province?

When the delegates from the different clubs assemble at the annual meeting of the O.H.A., they want to watch for this matter. Let them see that a fair and square deal is given out of this proposed scholarship. Toronto naturally pulls for Toronto and if some O.H.A. player wins such a scholarship he will likely be a worth while hockey artist.

Therefore he is wanted in Toronto and by forcing him to attend University of Toronto if he wants his prize, they land him.

That's laying it on a little too thick. That scholarship should be open for any university or dropped altogether if it cannot be run in that way.

TURF NOTES

Tia Juana will undoubtedly be the mecca for most of the horsemen. Commander Ross is bending almost all of his string there this year and has designs on many of the rich purses that are going to be hung up. R. T. Wilson and Willis Sharpe Kilmer, the Swamp Root king, are pointing some of their stars for the Cothro Handicap. "Old Slim," better known as Exterminator, is scheduled to return to the races at the Lower California track. His underpinning is sound again. He is after no mark in particular now, and evidently is not going to earn that honorable retirement which his feats in the past have entitled him to.

Evidently half-mile tracks in the States make no better impression there than they do in Canada. The Marlboro meeting is said to have reeked with trickery and apparently the regulars were all soundly trimmed. That is as it should be as those who persist in patronizing the bull rings don't deserve a better fate.

O Henry, a horse that was somewhat of a sensation at Vancouver, Reno, and on the western bush circuit, is expected to be something of a sensation at New Orleans. He has one victory over the good horse Planet to his credit. Underground information says that O Henry is all slicked up for a killing.

Frank Menke, an astute and observant writer, who scribbles for an American syndicate, says Sande, while a good rider, is not in the same class as Ted Sloan. Menke points out that since Sande started he has had the cream of the thoroughbred pack to pick his mounts from. Usually he says Sande has an animal above the average under him. Sloan, he states, could make selling platters fly, bring home 50 to one shot, and handled bad horses with the same skill as good ones. Sande, he says, tops the field because jockeys in the main to-day are not in the same class as those who flourished when Isaac Murphy, Winnie O'Connor, McLaughlin, Snapper Garrison, Mahar and the old timers were booting them in.

Buddy Enson, one of the best riders that ever dropped a leg over a horse, was noticed at the Marlboro half-mile track last week. Buddy was just noticed. Three years ago he would have been given an ovation. Fondness for the foaming goblet made a tramp out of a boy who should have topped the American riding world.

Billy Bartschell, who has dropped away below his usual winnings, is expected to come to life at Bowie. Bartschell has had bad luck all year with his horses but it is stated that he has some that are likely to slip over at box car figures at the Bowie track.

MISS LEITCH'S PLAYING IMPRESSES THE CRITICS.

The British golf world has recently made much of the return of Miss Cecil Leitch, up to a year ago regarded as Britain's most famous woman golfer, to playing form after an enforced lay-off from the links due to an injury to her arm sustained during her visit to America two years ago. Miss Leitch made the Ladies' Fouromes at Ranelagh the occasion of her return to the game. She was partnered by Miss E. Grant-Subtle, another former British champion, and so well was the several times winner of the title playing that Brit-

ish golf critics failed to note a single mistake on her part for the first nine holes of the opening match and her only miscue during the entire round was a topped drive on one of the following holes. Miss Leitch and her partner, however, failed to win the event. The winners were Miss Joyce Wethered, present British champion, and her partner, Mrs. Olaf Hambro. For Miss Wethered, the victory marked the third big victory of the year for in addition to the British women's championship, she also annexed the English championship for the fourth successive year.

New York Clubs Seek To Change Series Rules

The New York Giants will ask the joint major league parley at Chicago next month to change world's series regulations whereby expenses of the annual classic will be deducted from the gross receipts and before any division among players, advisory council, or clubs is made.

This announcement was made today by J. J. Tierney, club secretary, who said the Giants had the support of the New York Yankees in the plan.

The suggestion is an outgrowth of the situation in 1922 when the two Gotham clubs lost money in conducting the five-game series won by the Giants. This was due chiefly to the distribution to charity by Commissioner Landis of about \$120,000 the receipts of the tie game.

Competing clubs now pay the series expenses out of their respective shares. Under the proposed method, expenses would be taken out first and the remainder of the money divided on a net instead of gross basis.

The Yankees and Giants also came to an agreement today not to play conflicting exhibition games in New York prior to the opening of the season.

SNOW AT HARROWSMITH.

Quite a Heavy Fall, but It Soon Disappeared.

Harrowsmith, Nov. 22.—There was quite a fall of snow Monday night but soon disappeared Tuesday. James Forsythe, who suffered a very severe stroke of paralysis last week, is not improving well as his numerous friends would like to see him.

A number of the young people of the village assembled at the homes of Archie McLean, Wednesday evening, of last week, and a general good time was enjoyed. H. P. Pyler, agent, spent Sunday at his home in Toronto.

A number of our local sports attended the raffle and dance at Yarker Monday night and all report a good time. S. Hagle, who has been spending the summer in B.C., was in the village Monday, calling on friends. W. A. Reid, M.P., has returned from his home in Etobicoke and is receiving congratulations. The hunters who went north deer hunting have returned, each bringing home his limited number of deer.

George Treadwell, F. Babcock, Wesley Babcock and W. Babcock, W. F. Woodcock, and R. E. Delina, attended the shrine meeting at Hamilton. Bert Hicks left Monday for Watertown, where he expects to receive a position, and we wish him success. Dr. Percy Day is taking a few holidays and has gone on a hunting trip. J. D. Shibley shipped a few cars of hogs today at \$7.75.

GAVE THEM A FAREWELL.

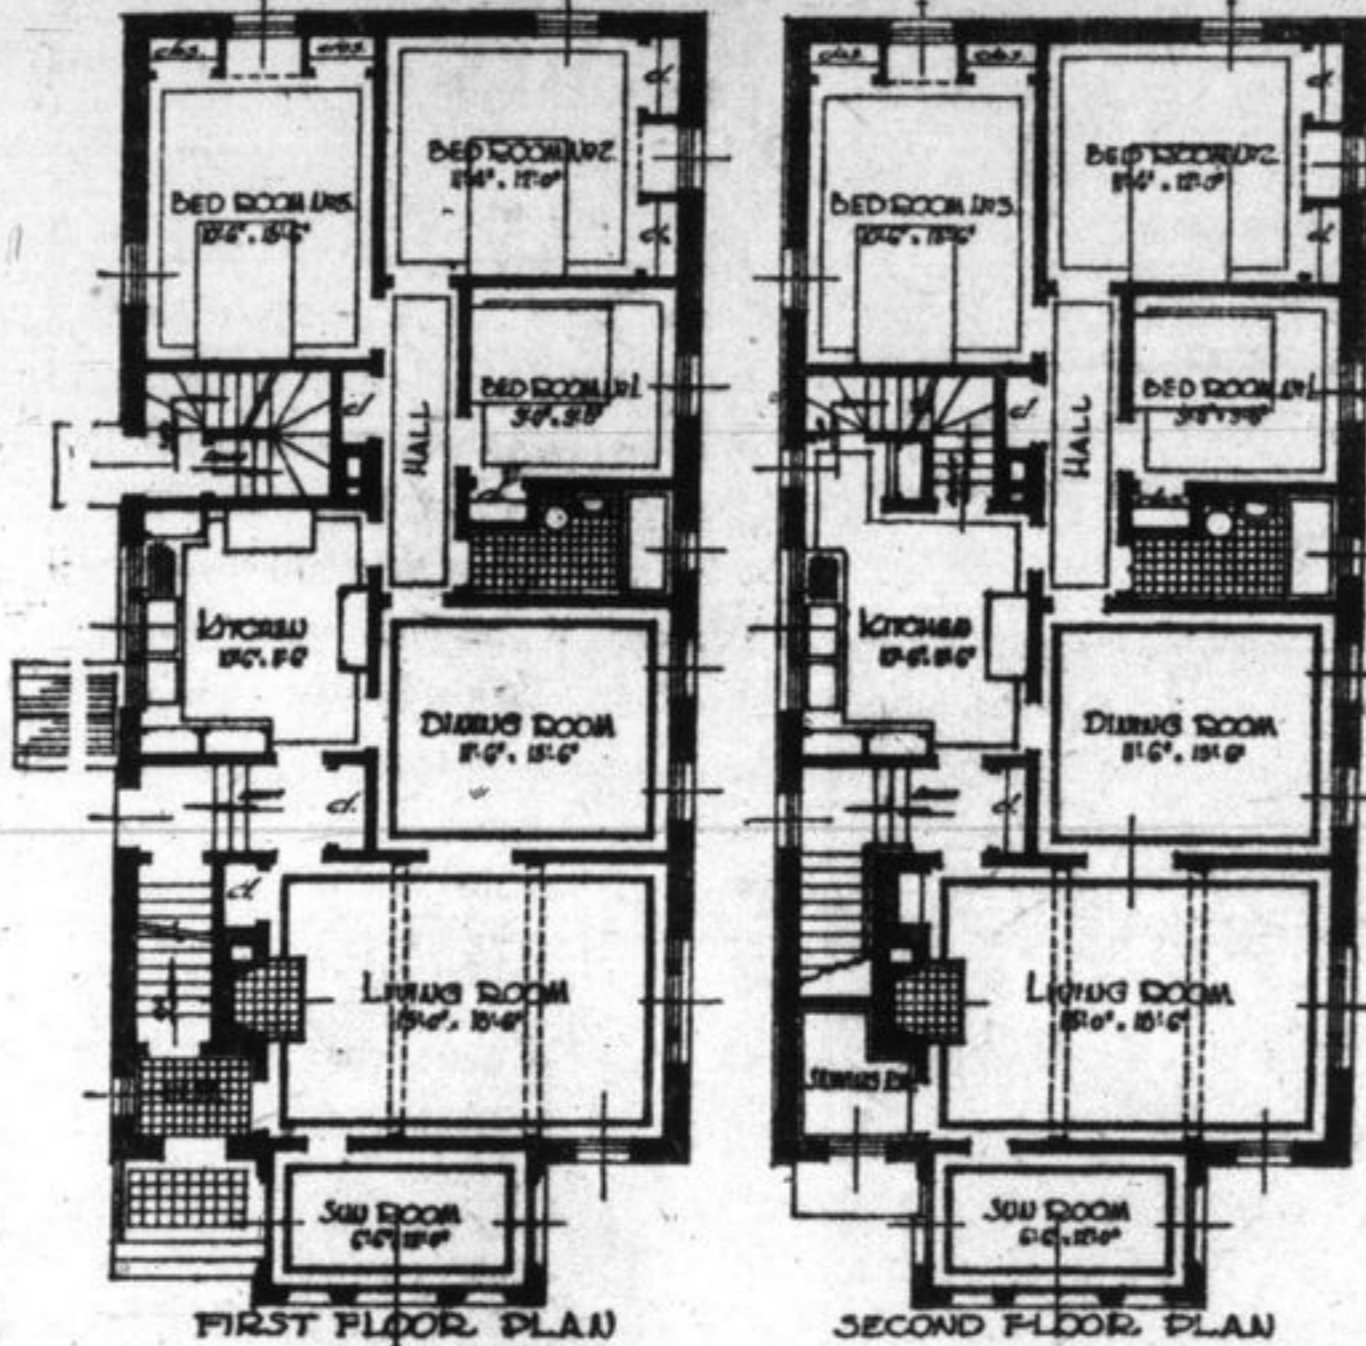

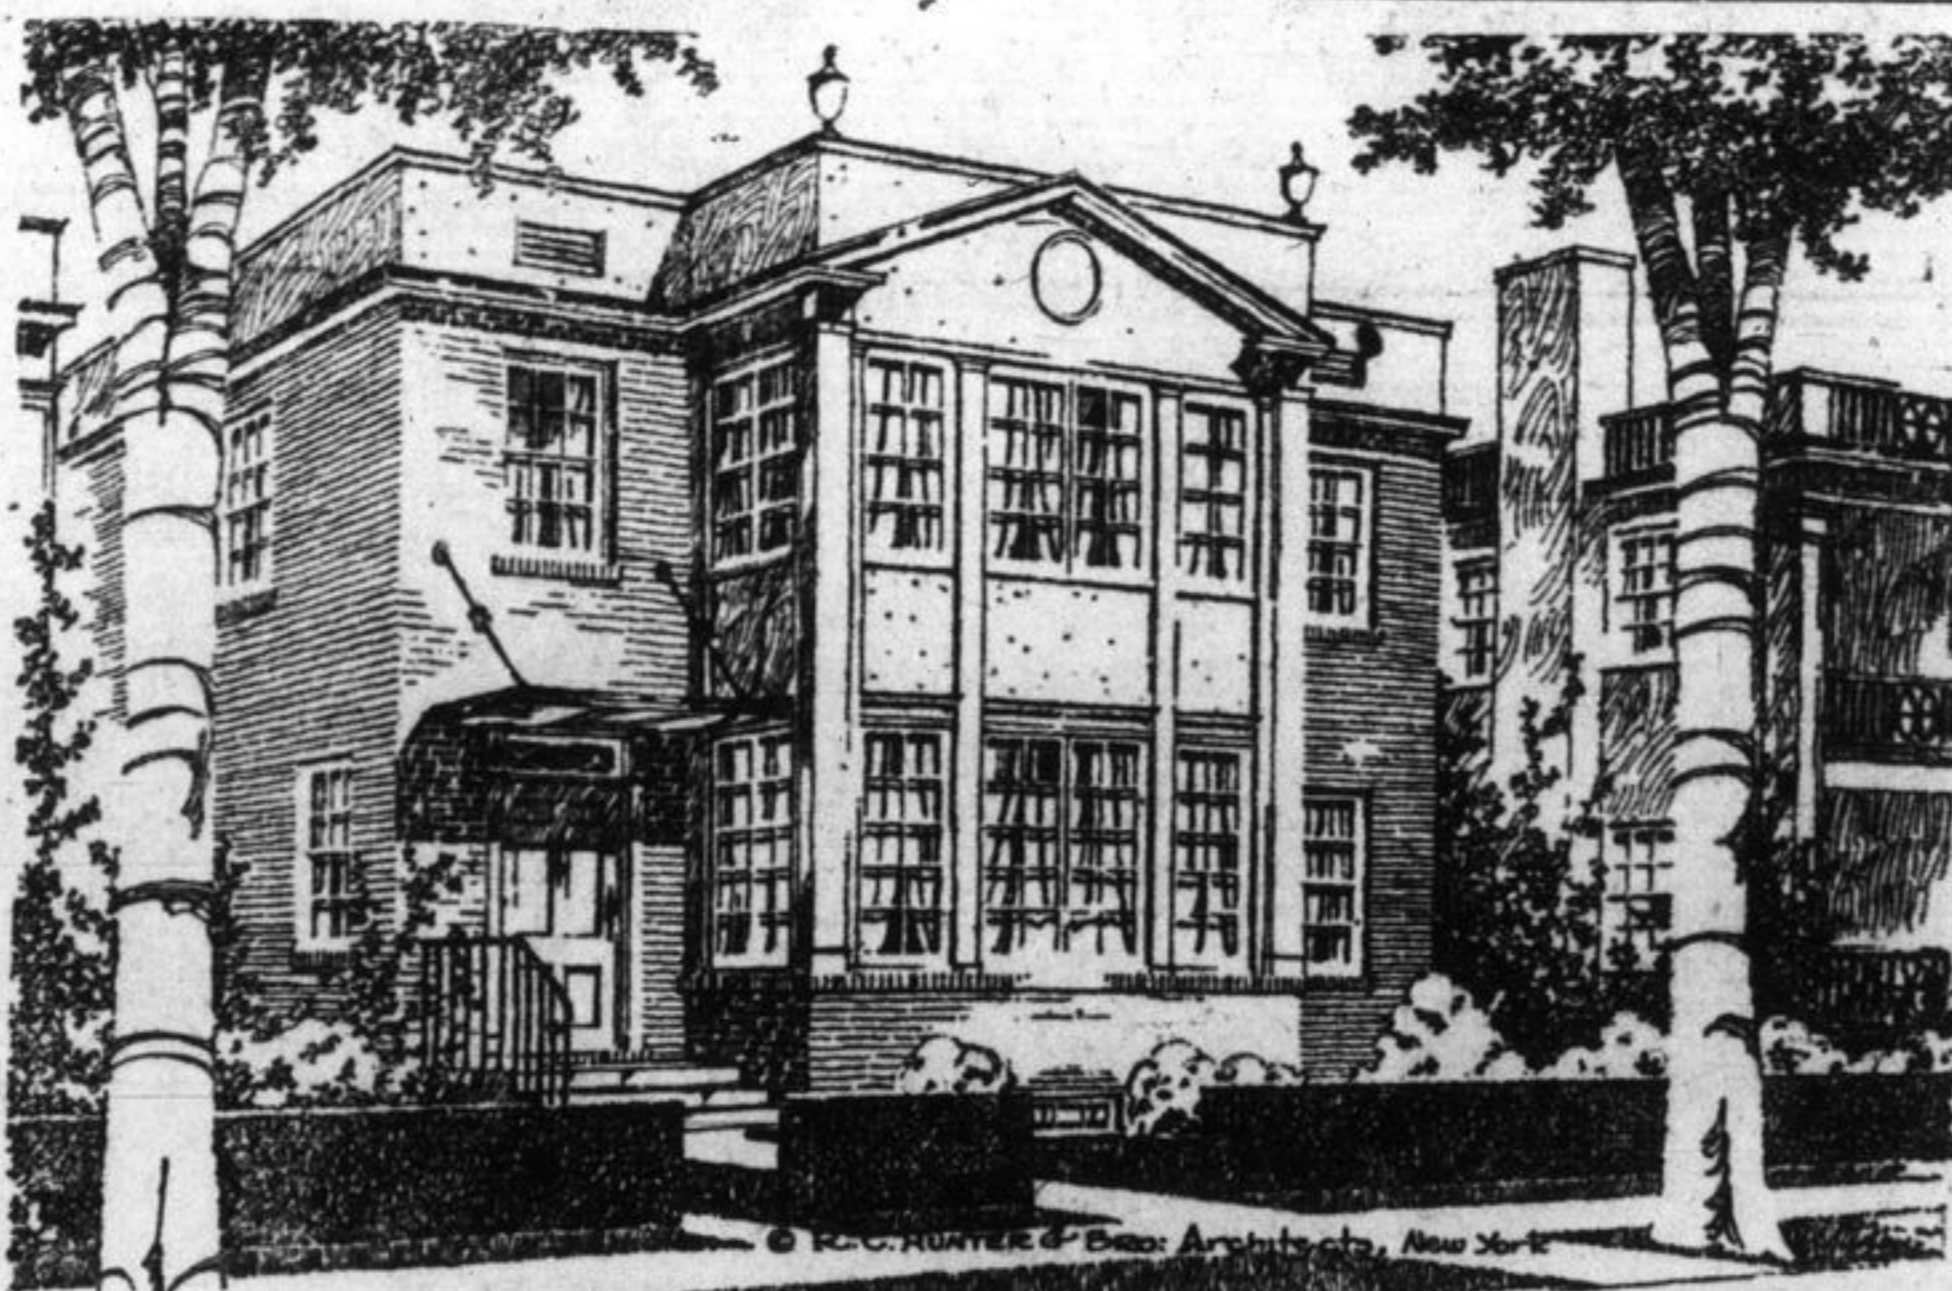

Mr. and Mrs. John Herbison, Junctown, are moving away. Junctown, Nov. 21.—About fifty friends and neighbors of Mr. and Mrs. John Herbison met at their home on Friday evening to bid them farewell before they left for their home in Watertown, N. Y. After a pleasant social hour they were presented with a clock and a purse of money, as a remembrance of their many friends here. Later a dainty luncheon was served.

Miss Marie Purvis, Brockville, was a recent guest at her home here. Mrs. Eliza Franklin has returned after a week's visit with friends in Brockville. Mr. and Mrs. John Herbison left Monday for Watertown, N. Y. Mr. and Mrs. Newton Scott have rented Mr. Herbison's farm for the coming year.

Mr. and Mrs. Abel Cughan and family attended the funeral of her mother, Mrs. B. Kavanaugh, at Athens, on Monday last. Several from here attended the chicken supper at Escott on Monday evening. Mrs. M. Summers, Lansdowne, and Mrs. A. E. Summers, Mallorytown, and Miss Laura Ferguson, Youngs' Mills, spent last week at J. A. Herbison's.

Mr. and Mrs. George Green and family visited their daughter, Mrs. Gardiner, at Hard Island, on Sunday last. The many friends of Master Avery are sorry to hear he is confined to his home with scarlet fever. Mr. and Mrs. R. Mulvaugh, were in Athens on Friday last. D. Morris made cheese in Caintown factory on Tuesday, owing to the injured ankle of his brother, C. Morris, maker at Caintown.

An Excellent Two-Family Design

The building of a two-family house is somewhat different than single dwellings. Two-family houses are erected as a home and investment of purely an investment. It is therefore very important that they be well designed and well constructed so that they will hold their own and need few repairs for years to come. This type of house always brings the better tenants and higher rents for the longest period, consequently the better investment.

As a home and investment it has very often been possible to meet all carrying charges on the entire house with rents received from one apartment. While this cannot be done in all cases, it greatly reduces the owner's rent.

The plans of the house pictured above show two apartments of six rooms each and run room. All the rooms are compactly and conveniently arranged. There is a separate service stair to each apartment leading to the cellar, with a door at the ground level.

The living rooms are of good size and each have an open fireplace. The enclosed sun porch with three exposed sides, makes a very cheerful retreat.

The kitchens are complete in every respect, double sinks, built in space for refrigerator, plenty of cupboard space, and they are well lighted.

While the exterior of the house is simple and straightforward, there is just enough detail about the sun porch bay to give character and dignity that will hold for some time to come.

The house has a frontage of twenty-six feet six inches and would fit well on a lot having a frontage of fifty feet. If a garage is wanted, the drive should be on the left side.

Cost about \$12,800. Complete working plans and specifications of this house may be obtained for a nominal sum from the Building Editor. Refer to House A-101.

SAVE YOUR FACE—and your time 78 Seconds from Lather to Towel

Speedofram On several tracks in Europe and America, new speed records have been made by racing autos. The record for a stock chassis by a leading automobile made on this continent is 103.55 miles per hour. For the World's Fastest Shave, use the Valet AutoStrop Razor.

DR. O. C. Stackhouse, the well known skin specialist, says. "Many men feel they are getting old before their time. They come to me for advice—they want to stay young." "I have seen thousands of such men—men who at twenty-one had the smooth and unwrinkled skin of youth. And at thirty-five, a coarse rough skin with well-pronounced wrinkles." "Wrong shaving causes much of this. A dull blade, slowly pulling and scraping each hair from the face, enlarges the tiny pores and coarsens the skin. Wrinkles result."

TO KEEP THE FACE YOUNG

"I have for many years studied correct shaving. A fast shave, once over the face, with a keen blade, acts as a stimulant to the skin. It is like a daily massage—it keeps the face young." "Wrong shaving harms and ages the skin. I have investigated all razors and unqualifiedly recommend the Valet AutoStrop Razor to men who desire to shave correctly."

Buy More Than One Have one in your bathroom. Keep another in your travelling kit. Leave a third at the club or in the office. Provide a spare one for your guest.

The World's Fastest Shave Left side of face 30 seconds Right side of face 30 seconds

Valet Auto-Strop Razor

Dr. Stackhouse's advice is authoritative, as men everywhere are discovering. The world's fastest shave—78 seconds from lather to towel—is fast becoming the national favorite. Sales have grown enormously. Men are abandoning slow harsh razors. Until you adopt a Valet AutoStrop Razor you'll never appreciate how comfort and speed have been combined.

\$1.00 to \$25.00 according to finish, case and number of blades. Any set you choose will give that smooth, velvet, 78-second shave.
