SHOULD HAVE SYMPATHY FOR THE NEWCOMERS

An Address by George A. Aylesworth, Inspector of Immigration Children.

"Have a heart of sympathy for the newcomers to this country," said George Anson Aylesworth, Newburgh, Inspector of British Immigrant children, addressing the members of the Kingston Rotary Club, at their noon-day luncheon, at the British-American hotel on Friday. "Our conditions and circumstances are quite different to what they have been used to. Their ways may seem outrageous to us while our ways may appear to be just as outrageous to the newcomers when they land in this country."

Mr. Aylesworth took as the subject of his address, "Some Humor of Immigration," and dealt with his subject in a very interesting manner, telling story after story relating to his work overseas.

"But there is a moral to it all," remarked Mr. Aylesworth, in summing up his address. "The supervisor of juvenile immigration at Ottawa reports that the records show that over 10,000 young fellows brought out to this country as home boys got into the war and that only three out of this large number waited for conscription, when you think of all this you can forgive a great deal. You will be ready to give way to all the misconceptions and misunderstandings and even wrong doing when these new people come to Canada."

Mr. Aylesworth told about his travels in the old land in the carrying on of his work, explaining the customs of the people, etc., and appealing to Canadians to give the newcomers every chance possible. With close on to sixteen years experience in this work, the speaker had ample time to give the matter a careful study, and as a result he was able to present it to the club in a most entertaining manner. His bits of humor provided a fine treat for the members of the club.

Secretary Roy Ward moved the vote of thanks to the speaker, stating that the question dealt with was one that everybody should be keenly interested in. We should be vitally interested in the type of men and women coming to Canada. It was indeed a pleasure to listen to an address from Mr. Aylesworth, who could see the serious as well as the humorous side of the question.

The Rotary Club will continue the good work this winter with the shoe and stocking fund. Members will contribute to the fund and needy cases will be looked after. Thanks to the Weather Man, there has not been any cases requiring attention thus far, but an opportunity for service along these lines will be soon forthcoming.

The president, Leman A. Guild, presided at the luncheon, and there was a good attendance of members. At roll call, F. F. Denyse and C. A. Edwards (Montreal) were included as guests.

Following the luncheon the directors of the club held a meeting at which Miss Lovick, school nurse, referred to a number of children who are in need of glasses, and whose parents were unable to provide them. The club will undertake to fit the children with the glasses.

Children's Letters To Santa Claus

Dear Santa Claus.—It was great to see you back with us again. I was on Princess street and waved my hand at you. If I try to be good will you please bring me a bicycle and a cart? Don't forget mother and daddy. Best wishes for a Merry Christmas. Willie Statham, 12 Ann street.

Dear Santa Claus.—Just a line to you. I hope you are well. I was so glad to see you the other Saturday, and I am sure you did look well. You don't seem to get any older. Well, Santa, I am not going to ask you for very much this Christmas, but I would like you to bring me a pair of boots, and a coat, and a middle and skirt, and that will be all this year. From your Christmas darling, Carrie Statham, 12 Ann street, Kingston, Ont.

Dear Santa Claus: Seeing that Christmas is drawing near, I thought I would write you a few lines to tell you what I would like. I will not ask you for very much this year, as I know you have lots of other boys and girls to bring toys to, and as I am getting to be a big boy, I will not want many toys, so if you think it is not asking too much, I would like a hockey stick and a magic lantern, so as I will be able to entertain my friends. Hoping you will have snow to come with your big load. Your little friend, George Sogaun, 257 Montreal street.

Dear Santa Claus: I am six years old. I go to school and also take music lessons. I practise every day. Please bring me a pair of goggles, a kimona, a pair of pullovers and a shovel to help daddy shovel snow, and put a stocking full of candies and nuts on our Christmas tree. That is enough for one little girl. Dear Santa give the rest to my little sister. I saw you in Stacey's window yesterday—Helen Moss, 54 Wellington street.

Dear Santa Claus: I am five. Hope you are in good health. I wish you would bring me a train and

tracks, a game, a sweater, candles, oranges and apples. I won't ask you for much as my brother "Teddy" is going to ask you for some things, and there are a lot of other boys and girls who will be looking for you to call at their homes. Hope you are not in the fashion this year and got bobbed whiskers. With loads of love and best wishes for a happy Christmas, I remain, your little friend, Henry Huard, aged 10 years.

Dear Santa—Could you bring me a mama doll and a doll's carriage. We have a baby girl. Will you bring her a white teddy bear? Please will you send me a pair of skates. And don't forget the poor little ones—Gladys Temple, 447 Division street.

PROF. BAKER'S LECTURE.

People Will Not Soon Forget His Instructive Message.

The Napanee Beaver comments favorably on Prof. M. B. Baker's lecture there on "Life Everlasting" and adds: "The days in which we are living are those of change and transition. It is possible to understand the present only as we understand the past and note the movements which have been in progress through the ages. And a lecture like that which Dr. Baker delivered, will do much to steady one's faith in the ultimate purpose of life, and in the gradual but consistent ascent of man. Popularizing the findings of science, bringing the results of long years of research to the great mass of people of this generation is a tremendous but most useful function of those who have the scientific spirit and training and who have not by it cut themselves off from 'the man on the street.' Dr. Baker is of this type and those who heard him will not long forget his interesting and instructive message."

One Week More For Christmas Buying

FURS!

Battled Posse of Men But Was Finally Slain

Draw, Miss., Dec. 15.—"Joe" Pullen, negro tenant farmer, died at two o'clock this morning from the effects of a score of machine gun bullets after he had battled a posse of several hundred men for seven hours, killing three and wounding nine other men, three fatally.

The trouble started about noon, yesterday, when Pullen shot and killed W. T. Saunders aged forty-two, whose farm he lived, after an argument over a debt owed by Pullen.
