A Quick Hitch For Opportunity

The old harness peg answers the purpose for the ordinary work horse—but it isn't a very efficient thing for a fire department to use!

To see a real quick hitch you must visit a fire station where they still have horse-drawn apparatus. There the harness is suspended with every part and piece in exactly the right position—ready at the sound of the alarm to drop automatically upon the horse. The hitch is made in the twinkling of an eye.

The A-B-C Classified Columns—with everything classified in exactly the right position—are rigged for a quick hitch to opportunity. You don't have to fuss around untangling a lot of words and straightening out a mess of offers. You can harness opportunity in the twinkling of an eye.

If you'll buckle down to business and read these offers daily, you'll acquire some strapping big profits!

BRANTFORD PROTESTS.

Liberal M.P. Fears Results of Further Tariff Changes.

Ottawa, Jan. 31.—W. G. Raymond, Liberal M.P. for Brantford, yesterday waited on the government to register a protest. It has been hinted

that agricultural implements would be placed on the free list in order to placate the west, and Mr. Raymond pointed out the injurious effect the last tariff changes had on the implement industry and the centres in Ontario depending on it.

These European squabbles remind us of a gamble in which no nation can quit while winning.
