Floating Specks Before The Eyes Means Liver Trouble

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly.
The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system.
Mr. Chas. Ayland, Frankville, Ont., writes:—"I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."
Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

USE A WANT AD
That is where a Want Ad shines.

KINGSTON AND VICINITY

A Curious Apple.
Lawrence Magee, Silsille, shows a curiosity in the apple line. It was two perfectly formed apples grown together like Siamese twins.

Purchased A Farm.
William Luffman, Wellington, has purchased the farm of James Battley, north of Wellington, and is planning to move there in the spring.

Have Left For Florida.
Father Hanley and his sister Miss Nellie Hanley have left for St. Petersburg, Florida, where they will spend some time.

John Bain Ill.
John Bain, secretary-treasurer of the Rockport Navigation Company, is confined to his home through illness. His many friends hope that he will soon be able to return to work.

Her Arm Badly Burned.
Mrs. George May, Sidney township, had the misfortune to burn her arm quite badly while their pipes were burning; the doctor had to dress it for her.

Country Roads Are Heavy.
On account of the heavy snow the stage drivers find it very difficult to use their motor stages. Most of the sideroads are banked with snow, and it is impossible to get through.

Marking Out Places.
Market Clerk and Harbor Master Charles Wilson and Eugene Sleeth, sanitary inspector, were busy yesterday marking out places where ice for domestic purposes is to be cut.

Will Run Again.
The London Free Press says: Hon. J. W. Edwards, former cabinet minister from Frontenac is paying a visit to London as past grand master of Ontario East Grand Lodge. He declared the King government doomed and he will run for the federal house in the next general election.

New House Surgeons.
Herbert Young, son of Dr. T. W. Young, and Donald Carmichael, son of Dr. D. N. Carmichael, Peterboro, have been appointed house surgeons in Kingston General Hospital. Four appointments were made, and Peterboro has thus gained two of them.

Cut Loaned to Us.
On Wednesday the Whig published a picture of an old pine tree on the Madawaska, near Calabogie. It was loaned by the Canadian Forest

and Outdoors Magazine, published at Ottawa. The tree has long been an object of admiration by summer tourists and travellers on the Kingston and Pembroke division of the Canadian Pacific railway.

Appeal Dismissed.
The appeal in the case of Bank of Montreal vs. Mitchell, Gananoque, has been dismissed with costs. The action was to recover \$2,024.11 on a promissory note. At the trial the action was dismissed with costs.

Hastings Boy Making Good.
George W. Rear, an old Hastings boy, is making good in California. Mr. Rear is general bridge engineer of the Southern Pacific system, with headquarters at Oakland, Cal. On Dec. 28th, 1923, Mr. Rear erected one of the largest bridges in the southern states.

Appointed Delegates.
At a meeting of the Brockville Board of Education Dr. J. L. Carroll, E. J. Smith, W. P. Carswell, W. J. Manshan and George Ross were appointed delegates to the meeting of the Urban School Trustees' Association in Kingston on Feb. 26th to 29th.

A Business Change.
An important business change and the establishment of a new industry in Belleville have been the result of the purchase by G. K. Graham from his father, R. J. Graham, of the cold storage plant and a section of the main warehouse in the Graham Block between Front and Pinnacle streets. An artificial ice plant will be added.

The Late Mrs. Margaret Carter
There passed away at her home in the ninth concession of Thurlow, Margaret Carter, wife of William H. Carter. Deceased, whose maiden name was Vance, was born in Elzevir township in 1852. On May 27th, 1876, she was married to Mr. Carter, in Cannifton church. Mr. Carter was then a cheesemaker and moved in turn to Marlbank, Howick, Quebec, Platon and Latta. Besides the husband there survive three daughters and two sons, Mrs. Pearsall, Holloway, Mrs. Ish, Roslin, Mrs. Holbert, Toronto; Charlie, Demorestville and William on the home farm.

Died in Florida.
The death of Mrs. Alisa R. Stebbins, wife of Dr. James Stebbins, Clayton, N.Y., one of the prominent citizens of the village, took place Sunday morning following an illness of several weeks. She passed away in Florida. Mrs. Stebbins was the daughter of Capt. and Mrs. Radcliffe, England, who settled in Kingston, Ont. Later they moved to Clayton and Mrs. Stebbins, then Alice Radcliffe, studied nursing at the House of the Good Shepherd in Syracuse and after graduating she became an army nurse and during the Spanish-American war she saw service in Florida and Cuba.

Celebrate Golden Wedding.
Mr. and Mrs. M. J. McCann, prominent residents of Eganville during practically its entire lifetime, have celebrated their golden wedding, amid the congratulations of a fam-

ily of seven children, twenty-five grandchildren and a host of friends. Mr. and Mrs. McCann were married in Pembroke on Feb. 2nd, 1874, and Mr. McCann is now seventy-three years of age and Mrs. McCann is seventy. Three sons present were Rev. A. D. McCann, Toronto; S. J. McCann, Eganville; Edwin McCann, North Bay; and two daughters, Mrs. A. Millmore, Sweetsburg, Que.; Miss Margaret McCann, at home. Two other sons, Frank McCann and P. B. McCann, of Western Canada, were unable to be present.

County Orange Lodge.
Orangemen of the county of Hastings south, at their annual meeting on Tuesday in Belleville, elected their officers for the ensuing year as follows:
Master—G. W. Henderson, Foxboro.
Deputy grand master—G. D. McCullough, Foxboro.
Chaplain—Rev. A. L. Geen, Belleville.
Recording secretary—W. J. Hall, Belleville.
Treasurer—G. F. Reed, Corbyville.
Director of ceremonies—W. J. Wood, Foxboro.
Lecturer—H. Marvin, Bayside.
Auditors—George A. Reid, Belleville and G. M. Campbell, Deseronto.
Deputy lecturers—James Donaldson, Bayside, Cephas Johnson, Belleville.
Grand secretary F. M. Clarke, of Ontario East, was the installing officer.

There will be no county celebration this year. It is thought that possibly in 1925 there will be a big Orange "walk" in Belleville.

SPLENDID SURPLUS GAIN FOR EXCELSION LIFE
Whose Kingston Agency is in Charge of H. D. Wightman.

Statements submitted at the annual meeting of the Excelsior Life Insurance Company, presided over by Alex. Fasken, K.C., show that in 1923 a splendid gain of \$184,141.88 was made in the unallotted surplus, bringing surplus on policyholders' account up to nearly \$1,500,000. Interest earned on investments again exceeded 7-1/2 per cent. The favorable mortality, always experienced by this company, has continued even more so, being only 40 per cent. of the expected in 1923.

Premium income, together with receipts for interest, etc., were \$2,197,051, an increase of \$212,918.76, the largest in the company's history. To policyholders was paid during the year, or set aside for their protection the sum of \$1,657,963.14. Assets for security of policyholders, which include nearly \$2,400,000 of government and municipal bonds, total \$9,339,995.64. Including in the report is the announcement that mortality experienced on lives accepted without medical examination has been extremely favorable, notwithstanding the fact that male lives from ages fifteen to forty-five are accepted up to \$2,000 on this plan. In Kingston the Excelsior's interests are ably handled by H. D. Wightman, 151 Wellington street.

What the World Is Doing
AS SEEN BY POPULAR MECHANICS MAGAZINE

Germs to Help Run Engines by Producing Gas Fuel
Methane, one of the gases used for motor fuel, is being produced in commercial quantities in India with the aid of germs that convert a mixture of sewer sludge and sawdust into various compounds of which the gas forms an important part. The tiny creatures are cultivated in airtight tanks kept at a warm temperature. They multiply rapidly and by working on the mixture produce acetic acid and carbon gas as well as methane. Marsh gas, frequently found in stagnant pools, is largely the result of their presence and causes decay and fermentation of vegetable matter. Banana stems and skins have been found to yield as much as 81 per cent methane when acted upon by certain kinds of germs.

"Sand Shoes" of Wire End Strain of Travel
Made of stiff wire, and larger than the soles of the boots to which they are strapped, "sand shoes" are used by the military forces in Syria, in making long marches over the shifting deserts. These meshed foot protectors distribute the weight over a greater area and give the wearer a better purchase in walking, thus doing away with much fatigue and strain. They operate on the principle of the snowshoe of the cold regions.

Five Thousand Fed at Once at Electric Barbecue
Four steers weighing about 2,000 pounds each were roasted in an electrically heated pit in the West recently, the meat being served to 5,000 persons. With the temperature automatically controlled, it required 24 hours to cook the beef thoroughly. The improvised oven was 32 feet long, 4 feet wide and 6 feet deep.

A Folding Kitchen Table
In a small kitchen, where space is at a premium, a folding table of the type shown in the drawing will be greatly appreciated. The table top is 1 by 30 by 48 in. in dimensions, and is supported by two braces of 1 by 2-in. stock. Two 4-ft. lengths of 1 by 2-in. material are screwed together at right angles and fastened to the wall by long screws driven into the studs. The table top is then hinged to the lower member as shown. The braces are 2 3/4 in. long, and are cut and hinged so that they will fall into place automatically when the table top is lifted.

To fold this handy table it is only necessary to strike the joints of the braces with the knee or hand, while holding the table top to prevent it from "slamming." There are no legs to sweep around with a table of this type, and the braces do not prevent a chair from being drawn up close to the table.

Raised Chair for Children Fits Theater Seats
Shaped to fit snugly into a theater chair, a raised seat for children has been constructed, enabling the child to look at the performance without standing up or

climbing upon its mother's lap. The front side of the lower frame is extended so that it provides a foot rest, and the top is wide enough to allow the small occupant to curl up when reclining. The contrivance is easily adjusted or removed by an usher and does not mar the theater seat.

Radio "Dot" Spans Ocean at Speed of Light
Recent experiments show that radio messages can be acknowledged and checked almost simultaneously with the sending. The tests were conducted over the aerial loop between New York and Warsaw, Poland, a circuit of 8,500 miles. The operator at the control center in America instructed the European representative to tie up his receiving station with the transmitting station. A "dot" was then sent out and made the complete circuit from New York to Warsaw and return while the foreign operator was manipulating his key. The Polish operator was then instructed to leave his key and the "dot" raced twenty times around the circuit at a speed of 186,000 miles per second before dying away because of electrical disturbances.

Preventing Pump from Freezing
As an ordinary pitcher pump in good condition does not allow the water in the suction pipe to run down, the water is subject to freezing during winter. To pre-
