TENDERS FOR SUPPLIES FOR BOARD OF WORKS

Were Awarded at a Meeting Held on Wednesday Afternoon.

Tenders for supplies were awarded at a meeting of the Board of Works held on Wednesday afternoon. At a meeting held two weeks ago, a batch of tenders were received and given to Engineer Dick to tabulate. The awarding of tenders for supplies is a big item with the works committee. It is estimated that close on to \$50,000 is expended. Tenders were awarded as follows: Supply of sand, R. J. McClelland; lumber, S. Anglin & Co.; cement, W. B. Dalton & Sons; road oil, Texas Company, New York; asphalt, Imperial Oil Company; castings, Thomas Bishop; hardware, W. H. Cockburn & Co.; sewer pipe, Clap Products Agency.

The contract for street watering was awarded to J. Lemmon. W. Reid asked for permission to install a gasoline pump at 823 Montreal street, opposite the Canadian National Railway station.

On motion of Ald. Godwin, the application was granted, subject to the approval of the city engineer. George J. C. Hanson asked for permission to erect a verandah at his home at the corner of Bagot and Corrigan streets, said verandah to encroach one foot on city property. There are other verandahs which have been erected under similar conditions and the board agreed, on motion of Ald. Johnston, to grant the necessary permission, subject to the approval of the city engineer.

Ald. Godwin drew the attention of the board to a very bad walk on North street, from Rideau street to the C.P.R. round house. The city engineer stated that this section would be provided with a cement walk next summer, provided the necessary by-law was passed by the council. He said that considerable money had been expended on repairs to this piece of walk and that he had decided on a new walk.

The chairman, Ald. Peters, presided at the meeting, and the other members present were Ald. Joyce, Ald. Godwin, Ald. J. B. Holder, Ald. Johnston and Ald. Kidd.

LARGER CHURCH NEEDED

To Accommodate the Crowds Attending the Christian Alliance Services.

Hundreds were turned away on Wednesday evening from the meeting of the Christian and Missionary Alliance in Bethel church, while the vestry and halls were crowded to capacity with those who desired to hear.

The Alliance Colored Quintette are giving to the people the message of the gospel in song, and last evening sang, "What Did He Do?" "My Soul Is A Witness For God." "The Preacher on the Fence." "The Hallelujah Side," and "Elijah's God Still Lives Today."

Miss Nellie Jones, returned missionary from China, was the first speaker and told of her work in that country. "China is called the land of idols because of the number of different idols that they worship, and I have seen one temple that contained as many as 500 idols. To these they bow down to and worship, expecting their god of thunder to give them rain, and their god of war to give them peace. One old lady walked for three years the distance of fifteen miles to pray her god that he might heal her daughter who was sick. The Chinese will never accuse their god of not answering prayer, but always say that the fault is in them and not in the god. That is more than some Christians do, who are only too ready to blame God for anything that may go wrong. Chinese never plant grain without first praying to their god to favor their seed. Once after a long draught a proclamation was made that the Christians would pray to their God on a certain day for rain. The Christians gathered and prayed and that night it rained and the next day it came down in torrents, so that many came to the missionaries to enquire about the God of heaven who was able to send rain and save the crops. And when they came they were told that He was not only able to save crops but was also able to save them."

Rev. Oswald J. Smith was the next speaker, and gave his third discourse on "Eternal Life." "There are many ways that men and women are trying to obtain eternal life, and I want to tell some of them," he said, "Christian religion will not save us, for those in the heathen lands have all forms of religion and yet are unsaved. Unless our religion takes in Jesus Christ we cannot have eternal life. Church membership will not save for you can be long to all the churches in the land and still be unsaved. You may join a church, but you cannot join the Church, the invisible family of Christ; you have to be born into it. It is by this second birth that you obtain eternal life. Ordinances such as the Lord's Supper and baptism will not save, as they are but symbols of a belief, and unless we believe and accept Christ we are lost. Keeping the commandments will not save as they are all negative. They say 'Thou shalt not' but it is the things that we do that keep us away from God and eternal life. Saying prayers and Bible reading will not save, because even the Pharisees did this, yet they were sinners. You may go to the Bible, but what you must do to obtain eternal life is go to the Christ of the Bible. Philanthropy will not save, for we cannot buy our way into heaven. You may give away a million dollars to the needy but it will not get you into heaven, although it may attain for mercy." That old saying "I'm doing the best I can" will not save, for if we fall in doing our best in one instance the ground is cut from under our feet and we are lost. Salvation can only be obtained through Jesus Christ and the second birth.

Sermon on Thursday evening the services will be held in Cooke's church, as a larger building is needed to hold crowds who desire to attend.

SAID ON THE SIDE

Kingston post office is doing big business, according to the annual report. Kingstonians must be good letter writers.

Man in Ireland, aged 100 years, jumped over a fence and threatened his neighbor with a black thorn. Owing to his "tender" years, the magistrate dismissed the charge lodged against him.

If Mayor Angrove and his colleagues in the city council succeed in keeping the tax rate as low as last year, they will be able to give the fruit growers some pointers on how to use the pruning knife.

They claim that a hole has been found in the Atlantic. Must be some truth in that old song the students sing, "There's a Hole in the Bottom of the Sea."

Fire and light committee has plan for complete motorization of the local fire department this summer. The old grey mare is certainly not what she used to be.

Oshawa is now "The Baby City," having been taken into the fold this week. Kingston extends congratulations. We would suggest that the new baby be named "The Automobile City."

Why do people applaud at a "movie" show? Do they really expect an encore?

A great doctor has just announced that too much washing of the skin is dangerous. All the "kids" will agree on this point.

Bedtime story—To avoid a day of trouble, never get in or out of bed on the wrong side.

The spring rush is now on for auto licenses. And the drivers will continue the big rush with their cars.

City council is to strike on Monday night—the tax rate for the year.

And here's hoping the taxpayers will not be hard hit.

LOUISE HOME AND SCHOOL CLUB

Will Raise Funds To Purchase Piano For the Club.

Louise Home and School Club held its regular monthly meeting Tuesday at 8 p.m. The meeting was chiefly a business one. The school authorities feel they need a piano and the club is anxious to procure one. With this object in view they decided to have a sale and tea with the homemade table in charge of Mrs. Norton, candy table, Mrs. Turner; apron table, Mrs. McGill; touch and take table, Winnifred Kieley.

Mrs. McGill gave her report from the Central Council. After business was completed Mrs. Langdon and Mrs. Armstrong, assisted by Mrs. Norton and Mrs. Turner, served dainty refreshments and a social hour was spent.

ICE IN THE HARBOR BECOMING WEAKER

Islander Drawing Hay Has Narrow Escape—Mild Weather Honeycombed Ice.

The mild weather is playing havoc with the ice in the harbor. On Wednesday, John I. Murphy, a Wolfe Island resident, who was drawing hay to the city with a team of horses, had the misfortune to break through the ice. The quick work of Mr. Murphy resulted in neither the horses nor the hay going under. When he felt the ice giving way, he got the horses to give a quick pull, which resulted in the load of hay being pulled onto solid ice. The hay was owned by Arthur Henderson, and Mr. Murphy and a number of islanders were helping him bring it to the city.

The sun during the past few days has honeycombed the ice. On Wednesday afternoon when it came time for the Wolfe Island residents to return to their homes, a number of them took no chance of driving two horses abreast, so allowed one to draw the sleigh and let the other follow. The islanders kept close to each other so that in case any broke through the others would be close enough to give assistance.

The cold weather on Wednesday night resulted in the ice tightening a little and about ten o'clock a number of islanders had reached the city and were loading freight.

TRANS-ATLANTIC RADIO TEST

Will Be Made To-night Between Six and Nine O'clock.

On Wednesday evening WEAF, New York, issued the important announcement that a Trans-Atlantic radio test will be made between the hours of 6 and 9 p.m. Thursday.

The programme will be in the nature of dance music played by an orchestra, in the Savoy Hotel, London, Eng.

Several American broadcasting stations will remain silent during this test.

Any who hear this test successfully are asked to either write or cable British Broadcasting Station 2LO, Savoy Hotel, London, Eng., or phone 973w.

On Wednesday evening many radio fans had the pleasure of hearing for the first time over the radio since last Friday with pneumonia. She was a daughter of William Grey, Trenton, and was born in Ameliasburg, in 1874.

MILLINERY OPENING

Inspection Invited Parisian Shop 322 BROCK STREET

BRISK HAY BUSINESS.

One Dealer Ships 190 Carloads From Kingston.

Owing to the shortage of hay in the United States, the residents of Wolfe Island and Kingston district are finding no difficulty in getting rid of great quantities of hay.

Eugene Dennee, hay merchant, when speaking to the Whig on Thursday, stated that since October he had shipped one hundred and ninety carloads of hay out of Kingston, and the most of it had gone across the border.

Before hay can enter the United States the shipper must pay duty at the rate of \$4 a ton of 2,240 pounds. A great quantity of the hay which is being shipped is mixed, but it finds ready market as feed for cattle. There is also a quantity of No. 2 grade being purchased. No. 1 quality, which is clear timothy hay, is very scarce.

The freight cars which are being used to ship the hay are capable of carrying about twenty tons.

Motor Traffic Easier.

Although there is a little snow on the provincial highway between Kingston and Napanee, the motor cars are travelling along without difficulty. For the past few years the department of public highways tried to keep the roads open for motor traffic during the winter months, but this last winter nothing was done toward removing the snow. The motor trucks, which are used in carrying freight from Kingston to Napanee, have been making regular trips during the past few days. The Kingston-Gananogue road is also open for motor traffic.

Passed Away at Cape Vincent, N.Y. Charles R. Gardner, aged eighty-three years, died at Cape Vincent on Monday night. Deceased was a civil war veteran and deputy collector for Cape Vincent for years. He suffered from pneumonia. One son, Arthur C. Gardner, survives.

Sarah Elizabeth Belnap, wife of Walter Belnap, died at Rednersville early on Wednesday, having been ill since last Friday with pneumonia.

Mr. and Mrs. Norman Alexander, Moneybags, are moving to Roslin. Neighbors gave them a farewell gift, a pair of oak rocking chairs and jardiniere stands.

The ice in the river at Gananogue and Brockville is breaking up.
