ACTION OF REEVES IS CLAIMED UNFAIR

Front Townships Pay Bulk of Assessment, Yet Held Up on Road Repairs.

A Frontenac rate payer, who has always kept in close touch with county matters, has the following remarks to make about the action of the county council, by a vote of nine to eight, in refusing to pass the appropriation for the work to be done on the good roads system this year: "About eighteen years ago there was a system of county roads introduced in Frontenac under the provisions of an Act of Parliament. At the present time the said government is paying from 40 to 50 per cent. on all money spent on the system. It approved by the government inspector according to the importance of the roads, making about 50 per cent. on all money spent.

"This county road system, as I see it, has given general satisfaction and the roads have been greatly improved, the system consists of 225 miles of the main roads running through six townships from Kingston north to the township of Bedford, as it does not take in the whole county, the system has been managed and controlled by a committee of the reeves of the six townships concerned, and all moneys expended on the system has been levied and collected from the six front townships and Portsmouth. As the government will not deal with a committee, the reports have to be passed by the council as a whole.

"Last year according to the report of the county road superintendent, there was \$109,609.80 expended on these roads. This year the committee reduced the rate for road purposes from 6 to 5 mills, and asked for an appropriation of \$79,700. This by-law was voted down at the January session but an appropriation of \$1,000 was passed to take care of the roads until the March session. Last week the by-law was laid over till the June session by a vote of 9 to 8, and without one dollar being voted to take care of the roads until that time, the most disastrous season of the year for the destruction of roads and the time of the year they should have close attention. Does it look like British fair play that the ratepayers who have built up these roads at a great expense to be told by the other part of the county that they will not be allowed to further improve or maintain them?

"Councilors Spinkie and Hamilton who seem to be the spokesmen in bringing about this condition of affairs, I think are in duty bound to give the public a full explanation why they advocated and voted for such a drastic motion.

"For the benefit of the rate payers of the county of Frontenac I give the following figures which appear in the proceedings of the municipal council for the county of Frontenac for 1923.

Municipality.	Assessment.
Kingston	\$1,430,000
Loughboro	600,000
Portland	850,000
Pittsburg	1,090,000
Storrington	865,000
Bedford	323,500
Portsmouth	126,400
Total	\$5,284,900

Wolfe Island	698,000
Palmerston-Canonto	83,000
Olden	180,000
Oso	114,600
Kennebec	95,000
Clarendon & Miller	63,100
Howe Island	120,000
Hinchinbrooke	226,700
Barrie	38,200

"It will be seen by the figures that of a total county assessment of \$5,284,900 the seven townships of the good roads system pay \$5,284,900 and yet are compelled by a vote of nine to eight to allow their roads to go in need of repair until the June session, because the reeves of the northern townships and Howe and Wolfe islands voted down the by-law."

LENINISM SUCCEEDS MARXISM

Michael Farberman in the April Yale Review.

The time for making a final estimate of Lenin's work has not yet come. Already, however, it may safely be said that he will go into history both as a revolutionist and as a statesman; as the leader of the most destructive and wasteful first proletarian revolution, and as the statesman who endeavored to arrest

RUB ON "NERVILINE"

No Liniment Gives Such Universal Satisfaction.

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and aches that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia and Colds. 35 cents at all dealers.

the forces of destruction, to unite again the country split by the civil war, and to reach a compromise with the west. When Lenin inaugurated the Dictatorship of the Proletariat he was obviously unhampered by the slightest doubt as to the efficacy of Marxian principles. But the longer he tested them as a practical revolutionist and statesman, the more he became aware of the impossibility of building up a society on an automatic and exclusively economic basis. When he had to adopt an agrarian policy totally at variance with his Marxian opinions, and when later he was compelled to make an appeal to the peasants' acquisitive instincts and to go back to what he styled "State Capitalism," he was not only conscious that something was wrong with his Marxian gospel, but frankly admitted that Marx had not foreseen all the realities of a complex situation. The greatest value of the Russian revolution to the world Labor movement lies in the fact that it has replaced Marxism by Leninism.

PRESENTED WITH GIFT.

Much Regret Over Transfer of Dr. Baugh to Brockville. Dr. F. H. C. Baugh, of the staff of Rockwood hospital, left Kingston last week to take an appointment on the staff of the Ontario hospital, at Brockville. Before his departure he was the recipient of a very handsome gift from his many friends at Rockwood hospital.

Dr. Baugh, who is a graduate of Queen's University, made many friends both inside and outside of the hospital during his stay in Kingston, and his leaving is deeply regretted. He carries with him to his new post the best wishes of all. Dr. Baugh is prominent in Masonic circles.

Bovril President on Advertising. Speaking at the 27th annual general meeting of shareholders of Bovril Ltd., in London recently, Sir George Lawson Johnston remarked on the considerable increase in the company's sales and its relation to advertising. "The importance," he said, "of all this extra trade is that it is from the last half-million or so of sales that you make an increased ratio of profit, the main sales having covered the overhead charges. Those who have not studied the subject carefully have sometimes suggested that the public have to pay for the advertising of an article, but far from this being the case it is only the enormously increased sales obtained by the assistance of advertising that can ensure large scale manufacture, economy in production, and rapid distribution."

Sir George Lawson Johnston also referred in his address to the immense Bovril ranches which, in the Argentine and in Australia, comprise ten million acres.

Sir James Crichton Brown, M.D., LL.D., F.R.S., the well-known physician, one of the directors, in his remarks, struck a new note in cattle-raising. He claimed that sunshine was as sure an antidote to tuberculosis for cattle as for human beings and that the 10,000,000 acres of Bovril pastures in the Argentine and in Australia produced cattle free from all taint, at least, partly due to the wonderful sunshine of the climate in those countries.

The cattle from which Bovril is derived—said Sir James Crichton Brown—living all their lives in the open on vast ranches, in sunshine and fresh air—are singularly robust and healthy and they are converted into Bovril under conditions of cleanliness and purity that do not always exist in the smaller slaughter houses in this country.

The gross trading profit of Bovril Limited for the year under review amounted to £571,491, and the net was £351,898.

Positively no "sinking feeling" about this report!

GANANOQUE

March 25.—The cup selected for the golf match on the King's birthday was received in Gananoque on Saturday last. This is the trophy that is to be presented by T. Chambers Reid, New York, and still awaits his approval. It is a very handsome and massive wine cooler, date 1815, of Sheffield plate, and has been very much admired by the few who have seen it. Mr. Reid is an old Gananoque boy who has gone forth and prospered, but still retains a very warm spot in his heart for his native town. Mr. Reid still owns a large amount of property in Gananoque.

McKim's Directory of Canadian Publications.

There are 1,499 newspapers and regularly published periodicals in Canada, against 1,553 a year ago. Daily newspapers have decreased from 121 to 114; semi-weeklies from 34 to 30; and weeklies from 1,022 to 975. On the other hand, a small increase has taken place during the year in the number of monthly and semi-monthly periodicals.

These facts are shown in McKim's Directory of Canadian publications, under which name the seventeenth edition of the Canadian Newspaper Directory has just been issued. It is the only complete directory of the publications of Canada and Newfoundland, giving accurate, physical and circulation details of each publication.

At the back of the book are several lists of publications arranged for convenient use by the advertiser, such as the condensed list arranged by provinces, the list of daily newspapers, the newspaper list arranged by counties, the classified list of general and special publications, and a list of publications in languages other than English or French, with statistics as to the populations they reach.

Information on the geography, population and industries of each province is given, as well as detailed facts about each city, town and village where a newspaper or other publication is issued. McKim's Directory thus is a valuable compendium of information commonly required by those whose business demands a general or specific knowledge of Canada.

A. McKim is the publisher. In the preface it modestly states that it is only because of the service it renders to advertisers that it has become and remained the largest advertising agency in Canada.

The price of McKim's Directory of Canadian Publications is \$3. Copies may be had from the McKim offices at Montreal, Toronto, Winnipeg, Hamilton and London, England, 6 Norfolk St. W.C. 2.

"Moving Day" is some weeks off yet, but quite a number of citizens are already making preparations to make a move.

March came in very lamb-like so look out for something lively the last few days of the month.

Hamilton police arrested a number of boys for playing marbles on the street for keeps. One would think that the "cops" there would be better employed working on some of the murder mysteries that city is noted for.

Despatch states that a farmer in Alberta was robbed of \$2,400 he had hidden in a well; showing that his money had not been well placed.

Sap's running and the children of Kingston are having a great time tapping the trees around the city.

The handsome sum of \$14,000 has already been raised for Johnny Brackenborough, the Hamilton hockey player, who lost an eye playing a game a few weeks ago. This is certainly showing a true sporting spirit on the part of the players and the fans.

APPLY SULPHUR TO HEAL UP YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Menthosulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The more you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentosulphur brings. Even fiery, itching eczema is dried right up.
