THE LIBRARY REPORT IS REFERRED BACK

(Continued from page 1).
Ald. Richardson stated that he was in favor of sending the matter back to the committee.

"I think there are one or two schemes that would be far more favorable than taking the building proposed, which will mean a very large expenditure in upkeep. We have a piece of land on Clarence street, between the post office and the customs house and I understand that for \$35,000 or \$40,000 we could build a nice one-story building there for a library and that our overhead expenses would not be so great and we would have a far nicer building."

Ald. Kent stated that there was no doubt that the land pointed out by Ald. Richardson, would make an admirable site for a library. This land he stated was under lease for 99 years from the government for park purposes and of course before a library could be constructed there, the city would have to secure the consent of the government for the use of the land.

The council without further discussion decided to send the report of the committee back "for further consideration."

Regulate Dance Halls.

The council passed a by-law fixing a fee of \$25 per year for "licensed dance halls" and also passed regulations governing the same. The by-law was framed by the board of police commissioners and the license fee was fixed by the council.

Ald. Peters asked for information regarding how many dance halls there were in the city and was informed by Chief of Police Robinson, that there were three.
Ald. Laturney wanted to know if Queen's University and the Collegiate Institute would come under this new by-law, but was informed that this by-law was only framed to cover "licensed dance halls." The license fee of \$25 per year was fixed, on motion of Ald. Chown and Ald. Boyd.

The by-law is being put through in order to give the police authority to regulate such places. A dance hall, according to the by-law passed, "includes a building, a room or other place where dancing is carried on for hire or gain or where an entrance fee is charged."

Every hall licensed shall be liable to be inspected at all times by the police. The by-law also contains these regulations:

"The licensee shall keep good order and maintain due cleanliness in his dance hall and the premises appertaining thereto or used or enjoyed therewith and at his own expense

shall keep a sufficient staff of servants for that purpose.

"No girl under sixteen years of age shall be admitted to the hall during dancing hours and no girl or woman shall be admitted who is not accompanied by an escort who shall remain with such girl or woman during her stay at the dance she may be attending; such escort must be one of her parents or guardian, or a male person.

"Dancing shall cease not later than forty-five minutes past eleven o'clock in the afternoon of each day and the dance hall shall be closed to the public by midnight and remain closed thereafter until 3 o'clock in the afternoon the following day.

"No person shall be admitted to a dance hall who, in the opinion of the chief constable, or of such inspector or supervisor as he may deput for such purposes if of an immoral character or conducts himself or herself in a loose, disorderly or improper manner."

"Tag Day" Discussed.

"That the application of the Kingston Humane Society, to hold 'tag day' on Sept. 6th, be not granted."

This report of the finance committee brought about a lively debate, with the result that the report of the committee was voted down and the request of the society granted. Ald. Laturney championed the interests of the society right off the bat.

"This looks like a step in the face for a respectable body of citizens," said Ald. Laturney, when the report was read. This society, carrying on philanthropic work and this is the first time I have known their application to be refused. Just the other day we granted permission to the Do Drop In to hold a tag day."

Ald. Chown remarked that the finance committee was "fed up" on requests for tag days. He pointed out that the Do Drop In and the G. W. V. A. granted permission to hold "tag days," had been doing good work. The Humane Society, he pointed out, were dealing with cats, dogs and other animals. In years passed this society had carried on good work in regard to the welfare of cart horses, but to-day conditions were changed. For the most part all the cart horses were in fine condition and the roads were also in far better condition. Besides, more motor trucks were being used. And why burden the city with a tag day for this cause?

Ald. Price stated that the Humane Society had been doing splendid work. He admitted that there were too many tag days, but it was a question to know just what to do until the council had some system of dealing with the question of "tag days" for various purposes under the head-

MEN! TAKE THIS HOME TREATMENT; REGAIN STRENGTH

Stop Worrying and Create Red Blood, Nourish Your Nerves and Be Strong Again.

Remember how strong you used to be; how steady your nerves were; how your vitality responded to every call you made upon it? Then do not be discouraged even though you are now weak in body and your nerve power seems exhausted. You know that you can pull through to success and happiness just as soon as you can win back your old time vigor and confidence in yourself.

If your body has failed you and you have sacrificed your vitality by overwork or nervous strain, stop worrying and build yourself up again. There is a safe home treatment waiting for you. In twelve days you will feel returning strength.

Start to create red blood that will go pulsing through your veins with the throbbing life power. Nourish your nerves which are the driving force of body vitality. Give to your system the elements it must have in abundance to restore you—extracts of beef and malt for strength; iron and manganese to form red blood; glycerophosphates to aid nerve restoration.

Get from your druggist to-day a generous size bottle of Wincarnis, the restorative that contains these blood, nerve and tissue building elements. This Wincarnis home treatment costs less than ten cents a day. Take it for two weeks and you will be done with worrying. You know what it will mean to you when you regain your old time strength.

ing of "community service" like in Montreal.

"This is only a question of asking for permission to have a tag day," said Ald. Laturney, "and why pick on the Humane Society? Citizens do not have to give if they do not want to."

Ald. Laturney moved an amendment to grant the Humane Society permission to hold the "tag day" on the date mentioned and his amendment carried by a vote of 15 to 6 as follows:

Yeas—Alds. Boyd, Godwin, J. B. Holder, W. Holder, Johnston, Joyce, Kelly, Kidd, Laturney, Lawler, Milne, O'Connor, Price, Richardson, Sargent—15.

Nays—Alds. Chown, Driscoll, Kent, McCartney, Nash and Peters—6.

GANANOQUE

April 1.—Fred Williams, Murray, Ont., is visiting friends here for a few days.

Edward Taylor, Gerald Keys, Edwin Delaney and Frank LaQue, students at Queen's, were at their homes over Sunday.

Miss Gillian Sampson, who has spent the winter with Mr. and Mrs. Douglas Matthew at Alberquerque New Mexico, will return home about the fifth instant.

Donald Duggan, Queen's, was the guest of Mr. and Mrs. W. V. Bullock over the week-end.

Mr. Dolron, of the Canadian National Railways, was in town yesterday.

Canvassers are out soliciting subscriptions among the Anglican congregation in connection with the new parsonage and meeting with splendid success. Mr. Allaster, architect, Brockville, was in town Saturday looking over the ground, and it has been decided that the best site would be fronting Church street in the space between the church and Mrs. Richardson's line.

The special eighty-eighth anniversary services in the Methodist church on Sunday were very largely attended despite rather unfavorable weather. Rev. Basil Thompson of Trinity church, Toronto, was the speaker and delighted the congregation with his sermons at both morning and evening services. There was special music by the choir, assisted by Donald LaFrance, violinist.

Miss Blythe Battams has returned after visiting friends in Kingston for a few days.

W. J. Wing, Dr. Stedman, W. Belle and William Battams had a pleasant week-end at the Wing cottage on Cut Island.

Rev. Basil Thompson is the guest of Mr. and Mrs. Clifford Sine during his stay in town.

O. Macdonnell returned to Montreal today after attending the funeral of his grandmother, Mrs. James Willis.

Miss Nellie Kirke, Kingston, spent the week-end with her parents.

WHY THE WEATHER?

DR. CHARLES F. BROOKS
Secretary, American Meteorological Society, Tells How.

Average April Weather.
Throughout much of the central and eastern United States, April is, on the average, about 10 degrees Fahrenheit warmer than March. It may be noticed at once, though, that the temperature contrasts between the northern and southern portions of the country are considerably less than in March. March average temperatures range from 60 degrees Fahrenheit in the southern part of the Gulf States to 20 degrees Fahrenheit in northern North Dakota, Minnesota and Maine, making an average difference of 40 degrees; in April this contrast dwindles to 25 degrees. The northern region has warmed 20 degrees Fahrenheit to an average temperature of 40 degrees

MR. G. FARLEY.

On His Feet Again After 37 Years Suffering

Draco Helps Mr. Farley's Weakened System Despite His 39 Years and the Long Standing Nature of His Troubles.

Mr. G. Farley, of 423 Gunns Road, Toronto, had scarcely known a well day for thirty-seven years. To-day he is a different man, thanks to Draco.

"For the past 37 years," says Mr. Farley, "I have suffered from the effects of pleurisy. This trouble has kept my system run down. I tried many remedies right along, but the best I ever received from them was temporary benefit. I always felt weak and tired out and my rest at night never seemed to refresh me.

"Draco has benefited me wonderfully. My system in general is much stronger. I sleep better and feel greatly refreshed in the mornings. I no longer have that tired out feeling and feel more energetic than for years. Draco is the best general builder for the system I have ever heard of and I do not hesitate to recommend it."

Draco regulates and restores the weakened organs so that they properly digest the food, retaining all the nourishing values to up-build the body. Draco also purifies the blood. It contains no mercury, potash or habit forming drugs, being a thoroughly reliable remedy of purely vegetable content.

Draco is being specially introduced in Kingston by Wood's Drug Store. It is also sold as follows: Nananee, Wallace & Co.; Gananoque, W. E. Austin; and by a good druggist everywhere.

Members of the Montreal and Toronto Stock Exchanges.

Fahrenheit, while the rise in the lower Gulf States has been only 5 degrees. This increase in temperature contrasts is significant; it means that April is much less stormy and windy than March.

In April, killing frosts still occur pretty generally except in the Gulf States and parts of California and Arizona. In the eastern and central portions of the United States some snow usually falls during April.

Precipitation in April is slightly less than in March in the eastern and southern United States and on the Pacific Coast. The spring showers of the Great Plains, however, make the April rainfall of that region often nearly double the precipitation of March.

Tomorrow: Winter's Closing Blasts.

Stubbornness, a great many times, goes by the name of independence, rises with it desire to help others.

After Influenza—SCOTT'S EMULSION to build you up

Learned English Quickly.

One of the most recent arrivals in the city is a young man who came from Denmark. Although he has been in Canada only three months and was unable to speak a word of English, he is now able to talk quite well. He is in Kingston in search of a position.

Mrs. J. Wiltse, having disposed of her house and lot on Mill street, Athens, to Heber Prince, left for Los Angeles on Thursday.

Your creed is all right if it carries by the name of independence, rises with it desire to help others.

"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwistle, Alta., writes:

"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

Dr. Chase's Ointment
