President Newman reported that the Canadian Canners had consented to pay as much of their sales tax in Picton as the county's production would amount to. A motion was carried to petition the minister of game and fisheries to prohibit the use of nets of every description in the inland water of the county. M. E. Knox, D. J. Goodwin and H. S. Collier, M.P.P., were appointed a committee to wait on the government in this connection. The Board also passed a resolution endorsing a publicity scheme for the county and appropriated \$50 to be used at the discretion of the committee to that end.

#### FOUND HIS SISTER.

Near Napanee.

Harry McKelvey, mechanic, residing at 489 Elliott street, Buffalo, had been searching for his sister, Rebecca, now eighteen, since she was taken from him to be placed in an orphanage fifteen years ago, upon the death of their mother in Scotland. When he enquired at the orphanage he learned she had been sent to Canada. In later years he crossed the ocean and told his story in a Buffalo paper. A correspondent wrote McKelvey to get in touch with the Fairknows Home at Brockville. He did so and got trace of his sister. Rebecca McKelvey was placed with a family at Napanee. Three years later her foster parents moved to Galt, and she made her home with them in that city until her marriage two years ago. She is now Mrs. Harry Mintz of 2709 West 24th street, Chicago. Harry will visit her soon.

### CHURCH UNION MEETING HELD

(Continued from Page 1.)

like our forefathers in the early days in this part of the country. In these western lands the people were lonely. There must be community centres.

**Great Saving By Union.**

The great United Church of Canada is national in its interests and world-wide. Union brought about a great saving in men and money. The movement was the will of God.

"The eggs have been scrambled, the thing is being done and it must go on. In many places now you will find Presbyterian ministers living in Methodist parsonages and preaching in Methodist churches, and you will also find Methodist ministers living in a Presbyterian manse and preaching in a Methodist church. The time has arrived when we must go forward and consummate this union. The legislature has nothing to do with church life. We simply go to the legislature regarding our church property. No refusal on the part of the legislature can prevent a United church. No action or refusal of action can prevent church union. Already between 3,000 and 4,000 congregations are union. We are seeking legislation that will confer to the United church, the power to administer its own property.

The Resolution.

In presenting the resolution, Rev. Dr. Macgillivray remarked that Chalmers church was already a union church, in that some few years ago, the members of the First Congregational church had united with Chalmers on a union basis.

"And we have been working together in a very happy and pleasant manner and with a very encouraging outlook," added Dr. Macgillivray.

"We are a united church."

In his address, seconding the resolution, Mr. Davis said that he felt sure that union of the three churches would be brought about. He said there was a wealth of history behind each of the three churches that one might well be proud of.

Miss Lillian Blakely, Belleville, and James W. Irving, Hollis, N.Y., were recently married.

**Our Own LOST AND FOUND Department.**

Christopher Moore—Will you kindly give me the rest of the poem starting:

Into each life some rain must fall,  
Dear Chris: We hate to dampen anybody's spirits with cloudy stuff like this, but here you are:  
Into each life some rain must fall;  
So curses on the pliers, Derr 'em!  
Who borrow our umbrellas and forget serenely to return 'em.

George Peele—There's a verse about "Little drops of water and little drops of sand" running through my head. Do you know what it is?

Dear George: It sounds like softening of the brain but here's the verse:

Little drops of water, little grains of sand,  
Make the mighty ocean and the ditto land;  
But why these drops of water and little grains of sand  
Are always served with spinach, I can't say off-hand.

Naturally.

Lois: "Jack" tried to kiss me last night."  
Hope: "What in the world did you do?"  
Lois: "Oh, I was up in arms in a minute."

—Samuel Hoffenstein.

Melville N. Rope, former president of the Merchants' and Bee Keepers' Nat'l. Bank, returned from a pleasant three months' stay in Canada yesterday, the indictment having been quashed.

Neighbors—The people who sympathize with your wife.

Reactions To Spring.  
"Oh, spring is here!" the poet cried,  
"Yes, May is on the way;  
I know, I know, that spring's at hand—  
A robin sang today!"

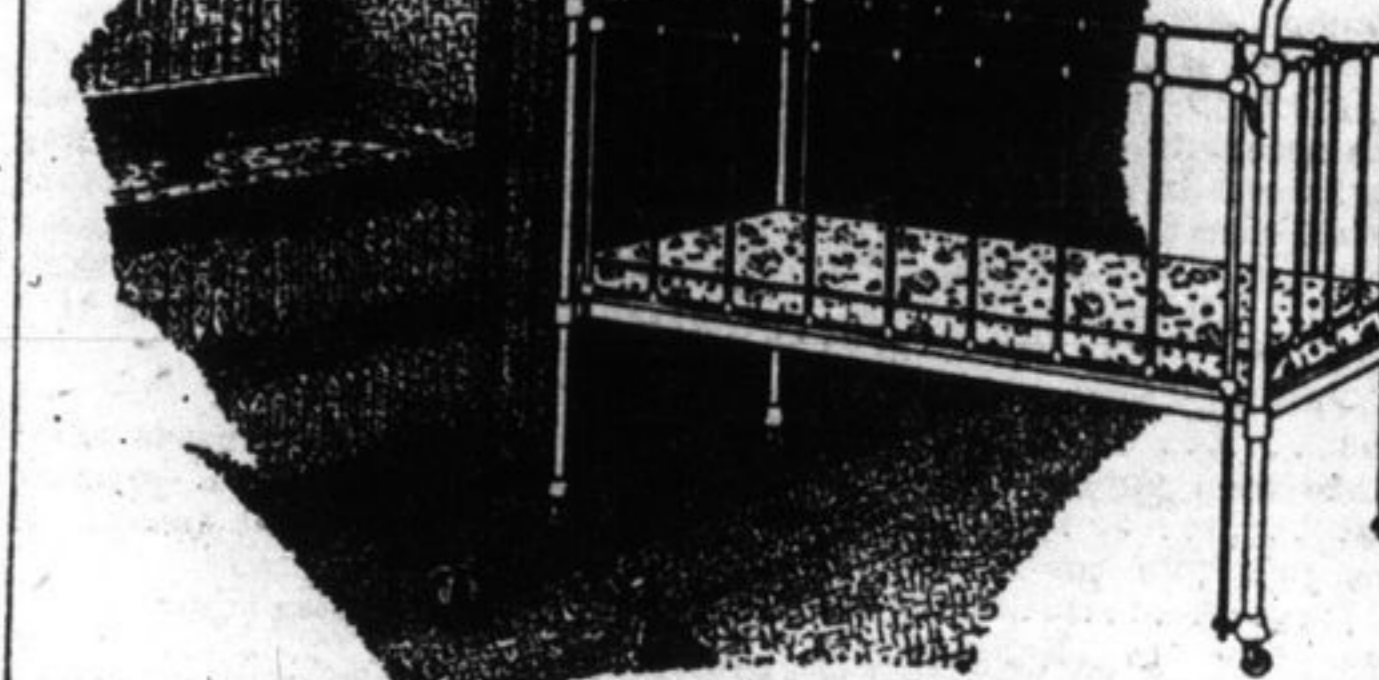

"It's spring," the busy housewife sighed,  
"Too busy to be gay,  
I cleaned my closets and, ah, me!  
I saw a moth today!"

—Roselle M. Montgomery.

FORM OF UNBORN BARE.

**Dead for Fifty-One Years Revealed By Operation.**

Toledo, O., April 21.—One of the most astounding discoveries in medical history was made in St. Vincent's Hospital here a few days ago when an operation for a "tumor" revealed that an aged Toledo woman had carried for fifty-one years the perfectly formed body of an unborn baby girl.

The mother died a few days after the operation. Her death was caused by a combination of diseases due to old age, physicians said. She was seventy-four years old.

The baby's body was in a shell, or capsule, of flesh. It resembled the body of any normal baby born dead at its scheduled time, instead of fifty-one years later.

Blood vessels feeding from the mother's body are said to have kept the flesh of the child from decaying or hardening. The heart and other organs, in the opinion of physicians, ceased functioning shortly after the scheduled time of the child's birth.

Mothers have been known previously to carry bodies of unborn children for a year or longer, but never before for half a century. In most instances on record the flesh of an unborn child carried past its birth-time becomes calcified.

**Shot In Eye By Arrow.**

George Hourigan, the twelve-year-old son of Mr. and Mrs. J. J. Hourigan, Almonte, met with an unfortunate accident as the result of which one of his eyes has had to be removed. George went out into the country for a walk with four other boys. One of them had a bow and arrow. In playing with the weapon he shot George Hourigan in the eye. The lad was rushed to Ottawa in the hope that under the care of a specialist his eye would be saved. However this was found impossible.

News is received of the marriage which will occur on May 1st of Glenn Ferrigo, Clayton, N.Y., boy, to Miss Electa Cartright, Utica, N.Y. Mr. Ferrigo is one of Clayton's popular young men and an athlete of note.

The body of Mrs. Barbara Hughes-Phillips, a former Belleville lady who died in Syracuse, N.Y., was buried at Belleville, on Wednesday.

John House, Atwood, Ont., is dead, aged sixty-four years. He was born in Perth and remained there until early manhood.
