**LETTERS To The Editor**

**More Fair Prizes.**  
Bath Road, April 21.—(To the Editor): And still they come. \$125 special prizes for cheese exhibited at the Kingston fair, Sept. 16-20, 1924.  
\$50—Given by the following citizens: Standard Bank, \$35; John Gibson, cheese buyer, \$5; L. W. Murphy, cheese buyer, \$5; and G. G. Publow, Eastern Ontario cheese inspector, \$5 (Open to the County of Frontenac only) \$75, given by the Kingston Industrial Agricultural Association, open to the whole dominion. The Kingston Industrial Agricultural Association has been successful in the past few years in securing these valued prizes the directors feel that by offering those substantial prizes that stimulus might be given the cheese makers, creating greater energies whereby not only Ontario, but the County of Frontenac might take front rank in the cheese industry of the world. The directors of the Kingston Industrial Agricultural Association feel that they have been fully recompensed when they were advised last year that the Frontenac cheese makers were awarded the first prize at the World's Exhibition. It is to be hoped that the much coveted honors will not be allowed to slip from the cheese makers of County of Frontenac this fall at the Kingston Fair.  
Moral: "Frontenac cheese makers be busy."  
I remain,  
Respectfully yours,  
—R. J. BUSHELL,  
Secretary-treasurer and manager.

THE LATE MARIE CORELLI  
The noted British novelist, who died on Monday.

**CONDEMN THE TURKS FOR CALIPH'S FALL**

**Mustapha Kemal and Ismet Pasha Chief Targets of Indian Moslems' Attack.**  
Delhi, April 22.—The abolition of the caliphate by the Turkish republic has been condemned by all shades of thought represented among the Moslems of India. Their attacks have been levelled principally at Mustapha Kemal and Ismet Pasha, who are regarded in India as desirous of usurping the highest religious office. The Indian leaders have protested to Angora, claiming that the action has dealt a severe blow to Islam and cannot be recognized by Indians, as it was taken without their sanction.  
The Turks themselves have lost the powerful influence given them by Indian Moslems who have upheld the Turkish cause because they believed the caliphate in danger. As a result of the disintegration of Turkey after the war, many leading Indian Moslems even refused to co-operate with the English government because they held England responsible for the condition of the Turk, and they felt Lloyd George's pro-Greek policy constituted a grave menace to their religion.  
Among some of the Indians the action of Angora is even taken as an insult.  
The proclamation of King Hussein assuming the Caliphate in Mesopotamia, Trans-Jordan, and the Hedjaz is not likely to be accepted by Indian Moslems, according to many leaders in the faith.

**HOLDS NO ILLUSIONS.**

Mary Pickford to Retire Until the Going is Good.  
London, April 22.—Mary Pickford says she is going to retire from the films after another three, or, at the most, four, pictures.  
"It is no use pretending I am a Duse or Bernhardt and go on acting forever," she said.  
"I created a certain type, which has been worked out now. It is finished. It is possible to do another type, of course, but the public wants me only in one character—Mary Pickford. Now, I have done that, and I think it is time to quit."

**Coffin for 700-Pound Woman.**

Tulsa, Okla., April 22.—Local undertakers were confronted with a perplexing problem in supplying a casket for Mrs. Pearl Gardner, 38 years of age, who weighs 700 pounds. A special coffin, only two feet longer than it is wide, had to be constructed for her.  
Mrs. Gardner died Friday at her home at Jenks. She was said to have been the biggest woman in the world. She measured 33 1/2 inches from shoulder to shoulder.

The only person who can borrow money is the person who does not need to borrow. To him that hath shall be given.

**WHY THE WEATHER?**

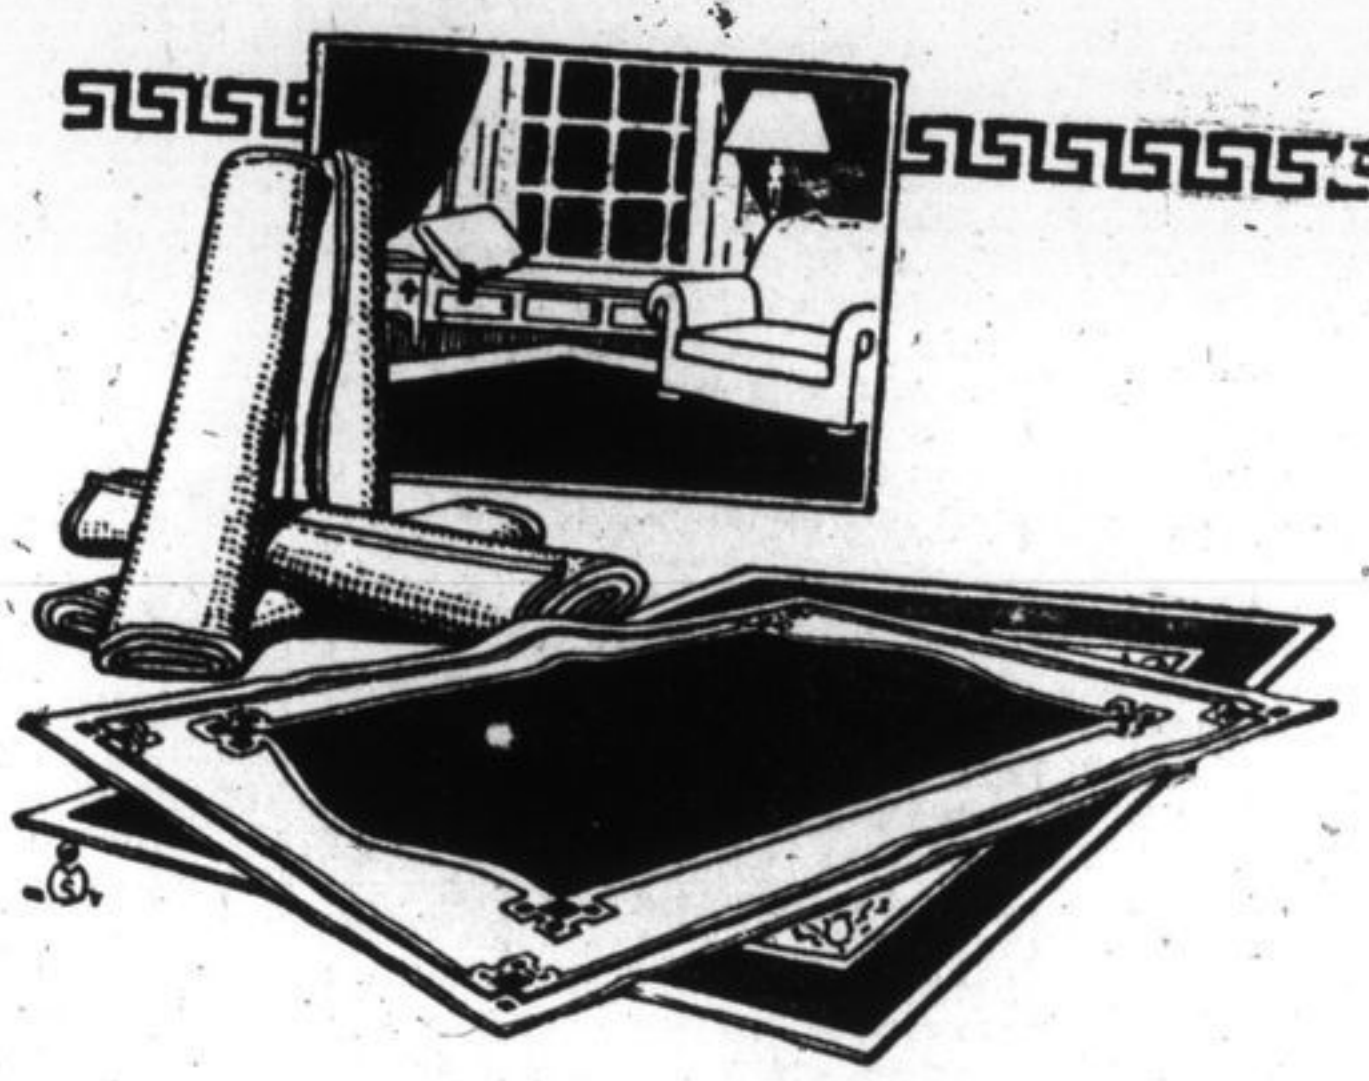

**DR. CHARLES F. BROOKS**  
Secretary, American Meteorological Society, Tells How.

**Sun-Warmed Houses.**  
Some of those who bewail the high cost of coal, would do well to consider the low cost of sunlight for heating purposes. Only sunlight cannot accomplish much if it is shut out by heavy window draperies and shades pulled down conventionally just half way. If you wish to enjoy the sunlight in the cool seasons it is well to use only deciduous trees that do not shade the house in winter. Houses facing in a southerly direction are more desirable than those facing north, as the living room rather than the kitchen will get the benefit of the sun's heating. Less snow and ice will accumulate on the porches and walks on the south side of a house. If the house faces southeast or southwest instead of directly south all the rooms may receive sunlight at some time during the day, except perhaps in midwinter.  
Some temperature observations in a house which had been vacant for a month may be cited by way of advertising the heating power of spring sunlight. During the period of vacancy the ground had been almost continually snow-covered and temperatures in general around freezing. When the house was opened about 3 p.m. on a clear day, the temperature outdoors was 46 degrees. The temperature in the unshaded cellar was 41 degrees, in the first floor rooms, somewhat sunny, 50 degrees; while in a small conservatory the temperature was comfortably high, about 70 degrees. Another house after two weeks' vacancy in winter was found, on a sunny afternoon, 12 to 18 degrees warmer than outside even though a strong wind was blowing.

**Marmora G.W.V.A.**
