

NEWS AND VIEWS FOR WOMEN READERS

LIFE'S SOCIAL SIDE

Editor of Women's Page, Telephone 2612. Private phone 837w.

The last meeting of the Mother's Club of St. George's parish was held in the hall on Thursday evening and took the form of a social gathering.

Miss Gwen Lazier, courier to Washington, was on Wednesday met on the Lowville-Copenhagen highway by Constant W. Noble, president of Lowville, N.Y., Glenn W. Smith, president of the Chamber of Commerce and State Troopers Deming and Gilson, who escorted her to the home of Mr. and Mrs. R. J. Green, Shady avenue, where she was entertained during her stay.

Miss Edith Allen, University avenue, was the hostess of a pleasant party which took the form of a kitchen shower in honor of Miss Doris Hartrick, one of this week's brides.

Finally found health in Kellogg's Bran after suffering long with constipation

Mr. Patch writes that Kellogg's Bran "solved his problem." It has solved the problem of constipation—mild and chronic—for thousands of others.

Dear Sirs: I have been a constant sufferer from constipation and have wondered what was the cause of it. I have tried about all the cereals I could think of and finally tried Kellogg's Bran. This solved my problem. I feel like a new man today and I owe it to your Bran. Thanking you very kindly for the great cereal, I am Very respectfully, Chester C. Patch. (Address on Request.)

MOTHERS And Their Children

A Time Saver. One Mother Says: In making sleeves with turn-back cuffs on my little girl's summer dresses, I save myself time by not cutting out separate cuffs. I simply cut the sleeves long enough to make a wide hem and turn this back for the cuff.

Provincial I.O.D.E. Annual. Inspiring and comprehensive was the report of the warm memorial pictures subcommittee, as presented by Miss Gordon, of Kingston. At the provincial meeting in Windsor, after the welcome news had been received that the provincial government would frame the war memorial pictures for Ontario schools, the subcommittee of which Miss Gordon is convener was appointed to arrange the details of the distribution. Miss Gordon outlined the history of the war memorial work, and read a few of the letters of appreciation received from teachers in schools in small and obscure communities. "When you look upon these pictures," said Miss Gordon, "you will remember the noble deeds of Canadians who served their King and country in the army, navy or air force, or as chaplains, doctors, nurses, railwaymen or lumbermen in the great war. These pictures, copied from the originals in the National gallery, Ottawa, have been framed by the Ontario government, and are presented by the Imperial Order, Daughters of the Empire, Hamilton Spectator.

Truly Economical

"SALADA" TEA

draws so richly in the teapot. The flavor is superb - Try it.

Mabel Russell, noted actress, who in private life is Mrs. Hilton Phillipson, woman member of parliament, has resolved to resign in order to devote all her time to the care of her three children. Her husband is likely to succeed her in the House of Commons

The Editor Hears

That nearly all the church organizations have had their annual Easter tea. The next outbreak of such festivities will be the June strawberry festivals.

That the Roanok Times says: "A man is judged by the company he keeps; a family by its Mah Jongs set."

That the parasol will be revived this year and will be as much a part of the costume as the hat and gloves which it will match.

That in answer to the question, "Why are the clever intellectual girls less likely to marry," a college woman gives the answer: "A stupid woman has all the stupid men in the world from which to select a husband but a clever girl will marry only her intellectual equal. Therefore her possible choice is narrowed to three or four of her men friends."

That three hundred delegates and provincial officers of the I.O.D.E. are met together in Hamilton to decide important issues in connection with the work of their order. Many letters of thanks from teachers who had received the war pictures were read and some were most touching in their gratitude and delight at the vision opened up to children in the far corners of our province.

That Sophia Kerr, the American novelist, declares: "I have always believed there would be no unhappy marriages, or almost none, if every day the husband would tell his wife that he loved her; if she would say to him, some time within the twenty-four hours, 'You know, dear, I do care for you!'"

That the Catarqui Golf and Country Club is already open and several gaieties which will take place there are planned for next week.

HOLDS A MAN'S JOB. The Toronto Star says of a recent visitor to the city: "Miss Helen Sutton, efficiency expert on pneumatic tube systems, is one of the five women in America who are experts in her present calling. She began at a salary of ten dollars a week, and she now makes \$4,500 a year, exclusive of living and travelling expenses. So that her value to her firm is some \$7,000 a year. Miss Sutton's job is to go from department store to department store across the face of America tuning up the various pneumatic systems. She can disarticulate the mechanism at any point and put it together again; she can play on a set of vacuum tubes as though they were a pipe organ; she can read a blue print like a first-grade printer. She is a most uncommon young woman.

"She sees it that the compression is adjusted so that the carriers containing money and bills flow from the various parts of the store with the maximum of speed and smoothness, and that the employees who are handling change do it with the minimum of time and motion. Her business is really to analyze the whole income-receiving mechanism of the store, and to work it up to that dizzy peak of perfection which modern commercial establishments demand. "Do you find that executives are willing to take advice from a woman

and so young a woman?" she was asked. "Why, yes, I have very little difficulty," she replied. "One doesn't have to be assertive and to pound the table to convey one's ideas." And she added, with immense sagacity: "You let them think the idea comes from them."

AUNT HET

"I never was kissed by Pa until we was married, but I was by two other boys he didn't know about."

If you can't solve the problem of life, go to your druggist. He can always give you some kind of solution. A farce comedy that fails to make a hit is no laughing matter. It's easy for a woman to fool a man who thinks he can fool her.

You'll Get Rid of Blackheads Sure

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dirt and dust and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.
