## MANY LEAKY TAPS; GREAT WATER WASTE

### Utilities Commission to Check Up and Seek Co-operation of Users.

That there are a great many leaky taps throughout the city and that they are responsible for a great waste in water was the report that Manager C. C. Folger made at a meeting held on Monday afternoon, and as a result of this report, it is the intention of the Commission to carry on a systematic campaign, in order to have all the leaky taps attended to, in an endeavor to check the great waste in water. An inspector will report in cases where leaky taps are discovered, and the users will be asked to co-operate with the members of the commission, in their endeavor to put a stop to the great waste of water.

Tenders were received by the commission for new street lighting equipment. The tenders will be tabulated by Manager Folger and presented to the commission. In a report to the commission on proposed changes to be made in the street lighting system, Manager Folger pointed out that the next year should show a net saving of \$1,500. The manager has in view a complete revision of the present street lighting system. In the last twenty years the arc lamp, or general street lighting has undergone a great change.

On motion of Mayor Angrove, the commission approved of the changes as recommended by the manager, and decided to proceed with the work.

On behalf of the Kingston Industrial Exhibition, R. J. Bushell asked that the commission grant free power and light required at the fair this year, but no action was taken.

In his letter, Mr. Bushell pointed out that the fair was a great asset to the city. This year it was the intention to increase the prize list and the directors would be up against it to make ends meet.

The free light asked for by Mr. Bushell covers the general illumination of the fair grounds, as the exhibitors are called upon to pay for their own lighting.

Commissioner H. W. Newman was inclined to favor the request, but did not pass a motion when he found it was the general opinion of the commissioners that it would not be right to make the city pay for the light required.

Commissioner H. C. Nickle said that similar reports might be received from other deserving bodies and it would be starting a precedent that could not be kept up.

Mayor Angrove stated that if any action was taken to help out the fair association he would rather give the association a rebate on their account for last year's fair.

R. J. Bushell also wrote asking for a water service for Kingston township school. The matter was referred to the manager for a report on the cost of said service.

An application was received from J. C. K. Munie, collector in the utilities office, for an increase in salary. Mr. Munie is at present receiving a salary of \$100 per month.

Commissioner Newman moved, seconded by Commissioner Harris, that Mr. Munie be given an increase of \$25 per month and the motion carried on the casting vote of the chairman.

Under the present regulations a consumer of gas or electric light is regarded as being in arrears if the bill is not paid within five days after the time allotted for discount. On motion of Commissioner Newman this time was extended to ten days.

The tenders of the Hoyte Metal Company, Toronto, for a supply of 4,000 pounds of lead at \$7.85 per hundred was accepted.

A purchase of transformers was confirmed on motion of Commissioner Harris.

The chairman, R. N. F. McFarlane, presided at the meeting and the other members present were Mayor Angrove, H. C. Nickle, H. W. Newman and James Harris.

### PROF. JOHN MacNAUGHTON.

Speaks Out on "Authors Who Have Riled Me."

Toronto Globe. "Authors Who Have Riled Me" was the subject of a breezy address by Prof. John MacNaughton at the annual meeting of the Toronto Branch of the Canadian Authors' Association at the Arts and Letters Club on Saturday night. In his usual outspoken, even Shavian, manner, Prof. MacNaughton discussed tendencies and men. He confessed his dislike for socialism and the O.T.A., and passed on to Bernard Shaw, H. G. Wells, Sir James Barrie and others.

Shaw was often an irritation, but he had done yeoman service in curing the English people of Pharisaeism. Wells had riled him because of his dabbling in science, his assumption of knowledge in every direction and his ventures into prophecy.

Yet Wells' early books were delightful. Barrie's "Peter Pan" was admirable, but he had shown too much sentimentality in later years. The self-complacency of the Americans riled the speaker, but he was grateful for the unmasking of it by Sinclair Lewis, one of their own writers.

"Carriage Sponges," Gibson's. Commencing to-morrow the store of A. Martin's Ltd., fresh meats and provisions, 272 Princess street will close Wednesday afternoons till the end of September.

The guilty are alarmed and turn pale at the slightest thunder.

"Phone 220," Gibson's Drugs.

### THE FIRE PUMP TESTS.

Made at the Causway on Monday Afternoon.

The Canadian Ahrens-Fox fire motor pump, which was recently purchased by the city, was officially tested by Prof. Arkley, of Queen's University engineering department, and James Hickey, chief engineer of the Queen's General Hospital power plant, at the La Salle causway on Monday afternoon. Both experts, who were appointed to make the test, stated that they had no statement to make as to the pump as they intended to send their finding in writing to the fire and light committee of the city council.

Hundreds of citizens visited the La Salle causway for the tests and the general opinion was that the city had purchased a machine that would give satisfaction.

The three tests which the engine underwent were very severe. The first was to run one hour and a half with a pressure power at the pump of 120 pounds. The nozzle tests

showed that there was a pressure from from 87 to 90 pounds. Ninety pounds pressure at the nozzle gave a flow of 1.128 cubic feet per minute. There were four lines of hose from the pump and all these were joined into one large piece of hose and the water passed through a nozzle which had a two-inch outlet.

There was also a test for forty-five minutes with the pressure at the motor registering two hundred pounds. The third and final test consisted of the engine pumping for forty-five minutes with a pressure of 250 pounds.

John B. Ahren, the head of firm, was present for all the tests. When speaking to the Whig he stated that the machine which his firm had sold the city was capable of doing more than it had done, but it had always been found wise to do a little better than the specifications called for, and then if the city saw fit to push the machine to the limit it would pump a great deal more water than 1,000 cubic feet a minute, nozzle pressure.

Concert Held at Cataract. In the Cataract town hall last Thursday the members of the A.Y. P.A. of Christ church again put on their play, "Cranberry Corners," by special request, one and all taking their parts equally well. Sixteen orchestra played lively selections between the acts. Home made candies were sold by the younger members. The arrangements were ably carried out by a small committee of Guild workers. After the performance, coffee and refreshments were served by members of the Woman's Guild and a social time was spent. A nice sum was realized.

One ought to remember favors received and forget those he has done. "Nelsons Bricks," Gibson's. Thunder showers and great men's favors are always partial. A countryman may be as warm in Jersey as a King in velvet. Great men's servants don't think little of themselves. The vile are only vain, the great are proud. "Nelsons Bricks," Gibson's.

### BETHEL SOCIAL EVENING.

The Young People's Society held a Novel Event. The Christian Endeavor Society of Bethel church held their quarterly social evening on Monday and enjoyed the programme provided immensely. It was called a "balloon social" and most of the games played had some balloon feature and caused much amusement. Indoor tennis played with balloons and fans caused much fun, as also did the different kind of races. Excitement reigned so high at one time that the participants in the game were up in the air as much as the forty or more balloons. During the evening, good-bye was said to Mr. and Mrs. James Lomax who are leaving shortly for England to take in the British Empire Exhibition. Mr. Lomax will also represent Bethel Sunday at the World's Sunday school convention, in Scotland in August. The members of the social committee provided refreshments, consisting of ice-cream and cake, and the members departed for home vowing it one of the best socials the society ever held.
