THE LABOR SITUATION

Is Good in Kingston—Immigrants Cannot Easily Be Placed, However.

The weekly report issued by the Ontario Department of Labor shows that labor conditions in Kingston are a great deal better than in most places in the province. The fact that there is so much construction work underway in this city means that hundreds of men are being given employment. The Canadian Locomotive Works is now running at about full strength. There are over five hundred men on the pay roll and there is steady work for some time to come.

At the present time, there is so much building work under way in the city that there are not enough stone masons and brick layers and for that reason it has been found necessary to bring expert mechanics in this line in from other side points, like Toronto and Montreal. Roddy & Monk, stone cutters, who are furnishing all of the stone for the new clinic building at the General Hospital, found that they could get enough stone cutters to do the work, and asked the local representative of the Ontario Government Labor employment bureau to get them twenty expert stone cutters. The agent at Montreal was able to pick up the class of help required, and forwarded them to Kingston where they got immediate employment. Stone masons have also been brought in.

On Friday morning, A. Anderson, painter, informed the Whig that on Monday morning he would leave the city with two gangs of men to paint all the C.P.R. stations between Kingston and Renfrew. One gang will start at Verona and the other at Titchborne. After this work is completed, he expects to get a contract on the main line of the C.P.R. Last year Mr. Anderson had about thirty-seven men busy painting the stations on another section of the C.P.R. line.

During the past few weeks a large number of immigrants have arrived in the city and it is a very difficult thing for the employment agent to place these men as the feeling is that the local men who are paying the taxes of the city should be first looked after. Mr. Stroud, when asked how many immigrants have applied for work, stated that he thought about seventy-five at least. On Thursday night five Finlanders who are unable to speak a word of English, reached the city in search of employment.

WATER PRESSURE FINE

The New Fire Motor Pump Tried Out at Albert and Brock Streets.

A couple of thousand citizens were on hand on Thursday evening when the new Ahern-Fox fire motor pump, which was recently purchased by the city, was given a try-out at the corner of Albert and Brock streets. On Monday, when the pump was given the official inspection at the La Salle causeway, the water was pumped out of the lake, but on Thursday evening the engine was attached to the street hydrant at the north west corner of the intersection.

It is safe to say that many citizens who visited the scene of the inspection for the purpose of seeing how quickly the water mains would be dried up, went home satisfied that their idea of the motor pump was altogether wrong. It was simply wonderful the force of water which the pump pushed out of the ends of the hose.

The first test made was to run four lines of hose from the pump for a distance of two hundred feet, with a pressure at the pump of 120 pounds. There was 65 pounds pressure on each line of hose, and the amount of water passing out of the end of each nozzle was 299 cubic feet per minute, which is practically a total of 1,200 feet. The machine is guaranteed to pump 1,000 cubic feet per minute, so it will be clearly seen that the machine overstepped her amount. While the pump was forcing this amount of water out of the nozzles, the register showed that the hydrant was not being used to its full capacity. A number of other tests were made, and they were all considered of a fine order. One of the last tests to be tried was two lines from the pump with a 1½ inch nozzle, and there was a nozzle pressure of 140 pounds.

The lines of hose were stretched from Brock to Johnson street along Albert street, and it is needless to say that the dwelling houses along that block, especially those on the west side, got a real good wetting. The citizens who had the pleasure of seeing the machine in action, went home satisfied that the city council

WALTER HARPER DEAD.

Racing and Baseball Man Passed Away at Rochester.

At Rochester, Minn., on May 8th, Walter A. Harper, Chicago, sportsman, widely known on tracks in Eastern Canada, New York and California, died at a hospital.

Walter Harper was well known in racing and baseball circles in Montreal. He has been one of the outstanding calculators in the mutual plants on the Quebec race courses for a number of years. Previous to coming to Canada to work he made books on the metropolitan tracks.

In baseball he was identified with the Canadians, being one of the owners of the franchise during last season, and only on Wednesday was chosen as one of the directors of the Ottawa-Hull club. He had many friends in Montreal, who will learn with deep regret of his death.

had made no mistake in purchasing the machine, as there was such a difference in the pressure. Many remarked that it was too bad the machine had not been purchased long ago, and the Sydneyham hospital and the Harrison building might not have been so badly burned.

The main which supplied the water for the test is a six-inch pipe. Upon making some enquiries from people living on Albert street the Whig learned that the great quantity of water taken through the hydrant did not effect the force of water at the house taps in the slightest.

OBITUARY

Late Mrs. Daniel Gallagher.

The funeral of the late Mrs. Annie Gallagher took place from her late residence, Kingston Station, to the Church of the Holy Name, Cushe-dall, on Tuesday morning, at 9.30 o'clock, a solemn requiem mass being sung for the repose of her soul by the Rev. Dr. Kingsley. The pall-bearers were: John Shortell, Patrick McKenna, Michael O'Reilly, Peter McKenna, Edward Mallen, and Frank Mallen.

"TAG-DAY" ON SATURDAY.

To Help Along Good Work of Salvation Army.

Citizens will have a chance to help along the good work of the Salvation Army on Saturday, when the local corps will hold a "tag-day," the necessary permission having been granted by the council. The Army, as everyone will agree, is carrying on splendid work and it is hoped that the citizens will respond liberally to the appeal. "Taggers" will be on duty on the market and all the downtown streets. The tag to be sold will be in the form of a Maple Leaf with the Army crest, and "taggers" will wear pink badges.

Gift To Y.M.C.A. House Officer.

In Thursday's account of the presentation banquet, held in the Y. M. C. A., on Wednesday night, a presentation was inadvertently omitted, that of an emblem of the Y. H. Akerley, by members of the Five-Nine Athletic Club. S. T. Lilley, honorary president of the club, in making the presentation made mention of the appreciation of the boys of the ready and willing co-operation afforded them by the gentile house officer.

Too Small to be Useful?

W. E. N. Sinclair, M.P.P., Liberal leader in the legislature, told the Ontario Women's Liberal Association at dinner that it was a hopeless task for such a small group of Liberal members to attempt to block the Conservatives who had set out to fulfil pre-election promises irrespective of the opposition.
