Had a Weak Heart Was Very Nervous For Three Years

Miss Jessie Peterson, Zealândia, Sask., writes:—"I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me.
For nearly three years I was very badly run down, had a weak heart, and was so nervous that sometimes I would almost faint away."
I heard of many people who had recommended your Heart and Nerve Pills, so I decided to give them a trial. After I had used two boxes I found they had done me good, and after having taken five boxes I was completely relieved.
I cannot recommend your Pills enough, and I would advise anyone having a weak heart or troubled with nervousness to use them."
Milburn's H. & N. Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Chapter of Accidents.
Summoned to North Gower by the news that his employer, John A.

Lawn Mowers Busy.
Despite what might be termed a period of excess moisture, characterized by cool days and nights, the grass on most lawns has been making rapid growth, and now the lawn mowers are being kept busy clipping it back to that "bobbed" state which is regarded as stylish.

Fractured Right Arm.
During the heavy wind storm Thursday afternoon, Miss Marshall, aunt of Mrs. Alex. Andrews, Prescott road, Brockville, ventured to the verandah of Mr. and Mrs. Andrews' cottage, where she resides. She was carried by the wind off the verandah and thrown heavily to the ground, sustaining a compound fracture of the right arm.

Sure, Some Tree!
W. J. Connell recently felled an Elm tree at the rear of his farm, near Prescott, which for size has many of them faded in this neck of the woods. The tree in question, which was green from root to top-most branches measured 20 ft. 4 inches circumference, 8 ft. 10 in. diameter and is estimated to contain between 30 and 35 cords of stove wood.

Too Much Rain.
Reports from country points indicate that the continuance of the wet spell is not relished by the farmers for there remains a considerable area to be seeded to spring grains, and the season is rapidly getting late. Fair and warm weather is what is needed now to finish the seeding and give the early crops the best start which will enable them to make the best grain. Reports indicate that the new seeding has come through the winter well, but that clover in second year meadows has suffered very much from winter-killing. High land pastures are coming on well despite the rain.
