A JAIL SENTENCE FOR AN AUTO DRIVER

Who Was Under Influence of Liquor—His Companion Was Fined.

Another case of a young man driving an automobile while under the influence of liquor came before Magistrate Farrell in the police court on Wednesday morning, and the accused was sentenced to seven days in jail. For having liquor in a place other than a private dwelling, he was fined \$200 and costs or three months in jail. He was placed under arrest on Tuesday afternoon by Constables Fred Clark and Thomas Garrity.

Another young man who was driving with him in the car was fined \$10 and costs or one month in jail, for being intoxicated.

A citizen was on the carpet for making the wrong turn at a street intersection. Constable Beaupre made the charge and stated that on Saturday last he had noticed the accused make a wrong turn on two occasions.

The accused swore that he did not make the wrong turn on the occasions mentioned by the constable, and as the latter did not have a witness to corroborate his evidence, the magistrate dismissed the case.

NOTED SCENIC ARTIST ERECTS NEW CURTAIN

Capitol Is Fortunate in Securing Work From Hand of Jack Kline.

The Capitol patrons will be delighted to observe at the big theatre a new stage curtain which has just been erected by special representatives of the Royal Art Studios, of Guelph. This curtain has a field of rich purple into which are blended butterfly designs of gold and silver with myriad tints of other colors here and there. It is a splendid piece of work and is from the hand of Jack Kline, one of the most famous scene painters of New York, who plied his profession on Broadway for over twenty years. Mr. Kline is in the city at present and supervised the work of erection. Messrs. Wolfe and Wrigglesworth of the Capitol Theatres headquarters worked with Mr. Kline in the erection of the new attraction at the local house. Mr. Smithies and the visiting gentlemen are to be congratulated on its excellence.

OSO MEMORIAL HALL.

To Receive German Machine Gun And Ten Rifles.

The committee in charge of the Osso memorial hall at Sharbot Lake announced on Wednesday morning that a machine gun and ten rifles, which were used by the Germans during the great war and were captured by the Canadian troops, would be presented by the Dominion Government.

The machine gun and the rifles are very much appreciated by the people of Osso who contributed so liberally toward the erection of a memorial that is considered one of the best in this part of the province.

When the memorial to the men of Osso township who served during the great war, was first talked of, Fred Shibley of New York City, who spends the summer months at Sharbot Lake, gave a large contribution toward the erection of the hall, and from that time the fund continued to grow.

Radio Wonders Grow.

The wonders of radio never seem to stop. Two Nelson street residents took home a new outfit the other night, and being anxious to break in on the invisible music floating in the air, but having yet no aerial, they connected on the clothesline in the backyard. It proved to be more than a "clothesline cable," for they were able to hear stations quite far down in the south. The town says everything would be all right if there was no "wash-out" on the line.

At A Standstill.

The work on the farms of the county is at a stand still as the result of the heavy rain during the past couple of weeks. Some of the farmers who have high land have been able to get in a little seed, but the men who have low land have to be content to stay in their homes until the land dries up. In some localities the land is actually flooded, and it will be a week or ten days before any work can be commenced.

STATION S-P-H-I-N-X CAN'T BROADCAST

One of the triumphs of the ancient meets a triumph of the moderns and the result is a picture of interesting contrasts. However, the sphinx appears unimpressed. The moderns seem to have a little the best of it for their square box with its metal horn can talk, whereas the sphinx has never revealed its secret. Could one of the sphinx-builders return, he doubtless would sign up the radio programme for the nearest oracle.
