**MOUNTAIN GROVE.**  
May 12.—Mothers' Day was very suitably observed in the church here. E. Youmans spent the week-end at Harrowmith. R. Beverly has moved to Elmdale and will live at T. Stinchcomb's. Mr. and Mrs. D. H. Cox motored to Kingston last week. W. Uens visited friends at Deseronto recently. Mr. and Mrs. DeClair are visiting friends at Eldorado. Mrs. William Barr has returned from Kingston. E. Godfrey and family visited friends in the north on Sunday.

Poltiness will ease the jolts of life journey.

**BETTER THAN A VACUUM TANK**

REMINGTON AUXILIARY mounts over the carburetor (like a vacuum tank) and will feed on any hill. It's an automatic reserve (better than a vacuum tank) that stays there till you need it.

It's the only thing that will bring you home on an empty gas tank. Isn't it worth \$8.50 to be sure you'll never get stuck?

The Mark of Quality

**Why Gum Dipping Increases Tire Life**

A tire in use is being constantly bent backwards and forwards by road action. Such movement generates friction and heat that has a deteriorating effect unless the tire is built to withstand it.

Gum dipping puts a coating of new live rubber around each separate cord that keeps it from rubbing against the cords that lie next to it.

In the carcass of a Gum-Dipped Cord there is less friction to generate heat. It stays cooler and therefore lasts longer. Gum-Dipping, with air bag curing, rubber tempering and other special Firestone processes, produces a tire that is stronger, more resilient and easier riding.

Travel on Firestone Gum-Dipped Cords. They add to your enjoyment of motoring and their extra mileage without extra cost is the true source of economy. Ask for Firestone Steam-welded Tubes. They help tires give more mileage because they are leak-proof.

**The Vital Things in a Car**

WHEN you go to look at a Gray-Dort there will be no attempt to side-track you from the vital things in a car. There will be no side-stepping when motor, chassis, axle, clutch, transmission come up for discussion. There are no trick selling points in the Gray-Dort.

And any Gray-Dort salesman can prove it by the car itself. He'll prove it by the smooth, quiet, never-failing flow of power from the motor; by the gentle, positive, new Gray-Dort disc clutch; by the over-strength new Gray-Dort rear axle. He'll prove it by the wonderfully careful workmanship in every part of the car.

The new management of Gray-Dort Motors stands or falls on the quality of the Gray-Dort and on that alone. Not one car will be permitted to leave the factory until it is absolutely right in every detail. You can see this kind of car at the Gray-Dort showroom now.
