"Eczema on My Face Completely Relieved"

Miss Winifred Ernest, Box 46, Blockhouse, N. S., writes:

"Ever since I was a little child, I suffered with eczema on my face. At times my face was completely covered with large sores, and I tried nearly every kind of medicine that I heard of with no results. This lasted for over twenty years, until one day I asked the advice of my druggist, who bade me give Dr. Chase's Ointment a trial. After using the Ointment for a few days, the sores began to heal, and soon I was completely relieved of the disease."

Two cartons, 25 cents

Wax-Wrapped

The New Quaker Corn Flakes come to you in the wax-wrapped carton which preserves their crisp freshness and delicious flavour under all conditions. You get them just as they leave the "toasters" in the mill.

In selecting the flavouring to be used in the New Quaker Corn Flakes, we submitted no less than sixty different samples to a number of experienced cereal men.

No. 53 was their unanimous choice. It called for the highest quality ingredients—special crystal table salt that would not attract moisture—the finest malt—highest grade pure cane sugar. It was the most expensive flavouring of the sixty. It is the flavour we offer you now.

The new flavour is winning thousands to Quaker Corn Flakes as their regular cereal. When you taste them, you, too, will realize that they are better. Tell your grocer to include a carton in your next order.

Grocers

The New Quaker Corn Flakes are already a leading seller in many communities. There is an increased demand among your customers. Be sure you have Quaker Corn Flakes always in stock. Your jobber has them.
