BOTH GET JUDGMENT

But Defendant's Counter-Claim Amounts to \$421.50 More Than Plaintiff Gets.

Judgment for the plaintiff of \$1,281 and costs, and judgment for the defendant of \$1,702.50 on the counter-claim and costs of counter-claim were given by Justice Logie in the McNicholas-Eves case which was heard at the opening session on Wednesday afternoon of the non-jury Supreme Court here. One judgment is to be set off against the other and the balance paid.

In this case John McNicholas, a farmer living near Godfrey, was suing Joseph Eves, administrator of the estate of his brother, the late Mark Eves, of this city, for the keep of the deceased's horses and cows for several years and for board, lodging, laundry and mending supplied the deceased on visits to the plaintiff, whose wife was a sister of the deceased. There was also a claim for \$150 for cash advanced, bringing the total to \$2,712.50. His Lordship allowed for the keep of the horses and cows but disallowed the remainder.

Cunningham and Smith represented the plaintiff, Nickle and Farrell the defendant. The plaintiff, the first witness, described to Mr. Cunningham how his claim against the Eves' estate of over \$2,700 was made up. For several years, beginning in November, 1918, he had kept four horses and a colt belonging to Mark Eves. For these he was charging \$50 each for wintering and \$3 per month, or \$12 each, for the summer. He had worked none but the colt, which he broke in at Mark Eves' instruction, as he had half a dozen horses of his own. For two years he had also kept cows for which he was charging \$25 each for a year. One year he got no results from them. He was also putting in a bill for \$213, being a charge of \$1 each for trips which he had made on Eves' behalf from Godfrey to his home, a distance of four miles. There was also a bill for board when Mr. Eves visited him, six meals each time at 25 cents each, and for the room he slept in.

The witness said he had been sued by his mother for her keep, under the Parent's Maintenance Act and to protect himself had given Eves a chattel mortgage for \$1,500, the judgment in the action having gone against him to the extent of \$100 a year. His mother was 75. Eves had said that his property was to go by his will to the plaintiff's daughter, Eileen.

Three farmers of the county, J. Daley, of Bedford, Arthur Kenyon, of Godfrey, and John Challes, of Hinchinbrooke, who were called by Mr. Cunningham, said fair charges for keeping cows and horses ranged from \$30 to \$60 a year for a cow and \$100 a year for a horse.

Joseph Eves, the defendant, said Mark Eves' estate totalled about \$3,000. Mark did not visit the plaintiff more than eight or nine times in 1922. There were no more visits after Christmas, 1922.

John Conway, an employee of the plaintiff in 1921, said he worked Eves' horses at plowing while there. Fred Whitney, a horse dealer, said Eves' horses showed signs of having been worked when they were brought back from the plaintiff's farm last fall.

RICH, PURE BLOOD RESISTS DISEASE

Dr. Williams' Pink Pills Make Rich Blood and Restore Health.

Thin, pale people lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the direct result of thin blood. So is anaemia, indigestion, rheumatism and many other troubles. People suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For thirty-five years Dr. Williams' Pink Pills have been world-famous as a blood builder and nerve restorer. Not only do they purify and enrich the blood, but they make new, rich, red blood which imparts fresh vigor and life to all the organs of the body. Their first effect is usually to stimulate the appetite, then the spirits revive, and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness, digestive troubles, the after effects of acute diseases, mental or physical exhaustion, Dr. Williams' Pink Pills are a restorative of the utmost value. If you are weak or ailing give these pills a fair trial and the result is sure to be beneficial.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"ACCIDENTAL DROWNING."

Verdict Was Given in Case of William Keelley at Wolfe Island, Wolfe Island, June 5.—"Accidental drowning" was the verdict given by the jury empanelled to enquire into the death of William Keelley, who was drowned while crossing from Cape Vincent to Wolfe Island in a motor boat on May 27th. Coroner Dr. D. Phelan conducted the inquest. Messrs. Donald McRae and John D. Grant gave evidence. They were with deceased at the time of the fatality and their evidence gave the impression that the deceased had been standing up in the boat, and missed his footing and fell into the water. He disappeared before his companions had a chance to save him.

Peggy Married Again. New York, June 5.—Peggy Hopkings Joyce, actress, is married again. She is now the Countess Gosta of De Moreland.

She was married to the count, a handsome Swedish six-footer, Monday afternoon at the Swedish Lutheran church in Atlantic City.

It is Peggy's fourth—and, she says, final—adventure into matrimony. Really her third, she insists, because the first marriage was annulled some few hours after it was celebrated.

A MONSTER FISH CAUGHT AT CAPE

Sturgeon Is Landed by Robert Gault, Fisherman, Seven and Half Feet.

At Cape Vincent, a monster sturgeon, one of the largest ever seen, was caught by Robert Gault, when he hauled in his nets near the mouth of Mud Creek.

The huge fish, which weighed 187 pounds, and measured seven feet, six inches in length and had a girth of two feet, eleven and a quarter inches, became entangled in the nets and was unable to extricate himself before the fishermen pulled in the day's catch.

Gault, in describing the landing of the big fish, declared that it showed more fight than any with which he ever has come in contact. He and his brother wrapped the net about the sturgeon when it became apparent it was too large to drive into the traps and finally succeeded in pulling it over the side of the fishing boat after a long fight.

Anglers say it is the longest fish ever caught off this point.

Some years ago a sturgeon which weighed a few pounds more was caught, but the fish landed by Gault measured several more inches in length. It was placed on exhibition and scores of amateur photographers took snapshots of it.

The value of the sturgeon is placed at about \$100. Sturgeon at the present time is selling at fifty-five cents a pound on the New York market.

URGE COUNTY TO PAY BILL

(Continued from page 1). Two miles of provincial highway in the county which had to be paid for both by the province and the county.

He made reference to tourist traffic in the northern part of the county, and speaking to Councillor Drew reminded him that in California there was more money obtained from the tourist traffic than from the orange crop.

The deputy said that to his mind the highway game is the most important problem in the province and Hon. George Henry, minister of highways, has the biggest job to do in the province. He urged upon the members of council the necessity of getting behind him and making his load easier to carry.

He stated that during the past seven years 144 millions of dollars had been spent in highway construction and this all had to be paid. He also reminded his hearers that the county of Frontenac had been dealt with very generously and he urged them not to step aside from their obligation but to pay their part of the great expenditure.

In closing he said that in the county there was \$673,000 invested in the county road system in Frontenac and he urged the councillors to protect their investment by keeping the roads in good state of repair.

Hon. G. S. Henry.

Hon. George Henry spoke of the county unit of road building as the proper one. He also told of some changes in the road system which will likely be introduced in the near future. The commission, which was appointed by the government at the last session, will visit all parts of the province and make a very careful survey of the way the road work is being carried on and then many changes will likely be adopted.

He told the council that there was a bill of \$32,000 against the northern townships, not included in the good road system and he had not power to vary the bill and it had to be paid. He said that he would suggest a survey to the grants so as to make more equality for those back townships. He gave the Reeves of the back townships the assurance that the government would give them some relief.

The minister of highways took occasion to speaking of the excellent manner in which Dr. William Spankie had presented the case of the island township, and said he thought the island should be in the good roads system and he was willing that it should come in, and the portion of the cost of the ferry should be paid the same as maintaining a good road.

He told the council that since 1918, \$1,176,000 had been spent on provincial highways in the county of Frontenac, and he thought that this was a very large sum with a county assessment of six millions. It was more than the amount spent in his own county. He said that there was to be no work done in Frontenac this year. The bill must be paid and the statutes require it and it could be paid by the end of the year. This would mean that it would not have to be included in this year's tax rate. Mr. Henry closed by stating that if the council gave the assurance that the bill would be paid, he would give every assurance that grants for the back townships would be more equitable.

Slay It With Slang.

By Joseph L. Fell.
 Do you dance? Then you're a "lizard." Do things well, and you're a "wizard." Are you nervous? You're a "wiggler." In the "slanguage" of the day. If you drink you are a "guzzler." Got a "line?" Then you're a "puzzler." If you laugh, you are a "giggler." And as such, you are "passe."

"Get my drift?" means understand me. "Loose that half-Nelson," unhand me. He "picks a wicked wallop." Means he's quite a hitter, son. I got this "info" from a "necker." Who's a "vamp," also a "wrecker." She "threw me to the bow-wow's." After "giving me a run."

Stand on custom? You're a "quibbler." Fond of cake? A "cookie nibbler." A "bum-duster," a "cake-eater." Or whichever one you will. Shall I "dish the dirt" still deeper? No, I think I'll "shut my peeper." Or some playful "little bimbo." May "massage me with a pill."

 I was standing at the rim of the Grand Canyon of the Colorado, writes Elizabeth M. Norris, and trying my best to get some idea of the greatness of the chasm before me. An old lady, standing near me, interrupted my musings with the remark:
 "They told me it was a mile wide and a mile deep and it 'aint either." Turning away in disgust, she added:
 "Huh! I bet the railroad company dug this thing just to get people to come out here."

His Mirror Told Him of Exhausted Condition

Mr. R. Paulin, Tontes Aides, Man., writes:
 "I became so run down and weak that my heart became affected, and I would sometimes have to remain in bed for several days.
 Some one advised me to use Dr. Chase's Nerve Food, so I did, and soon began to gain in weight and feel better. I have taken a great many boxes of these wonderful pills, and am feeling ten years younger. Dr. Chase's Medicines, as well as his Receipt Book, are a great help to us, for we live 40 miles from doctors and railroads."
