In the matter of putting one style seems to be about as good as another. Likewise one type of putter as efficacious as another. A true, steady swing and a feeling of confidence in the implement, that is about all there is to putting.

Some golfers get the notion they are poor putters and never get over it. Tireless experiments with new

It was years before Chick Evans, dependable putting touch. A master of all other strokes, Evans was helpless on the greens and lost championship after championship.

As a putter the Ames' creation was no better or worse than the simple straight-faced blade so generally used; but Evans had the happy break to putt like a fiend the first time he used it. Faith whispered: "That's the club you have been wait-.589 ing for." It was. Evans has used .273 it ever since and is now accounted .236 one of the game's surest putters.

Walter Travis, champion in the . 215 days gone by, used a freak putterthe Schenectady-with great success. .099 He went abroad and won the British amateur championship, the first and .000 only American ever to win it.

The English, having never seen a 2 0 .167 Schenectady putter, attributed the American's unexpected success to the queer looking club, and took immediate action barring it from future tournaments. It was probably just as well that Evans' monstrosity didn't exist in those times.

is no great uniformity even among the topnotchers. Some of the champions use their own designs. Max Marston, king of the amateurs, for instance, makes his own putters.

#### Experience Certainly Tells in Making Tires You cannot go astray in your tire purchases if you buy this kind of experience:-

Thirty Years of Dunlop

Many a man is driving a motor today who was not born when Dunlop Tires first appeared on

the highways of Canada.

Thirty years is a long time in the Tire business. It is the very beginning of the industry. 1888 saw the world's first pneumatic tire; 1894 saw the industry taking hold in Canada.

Doesn't it stand to reason, in view of the above facts, that we must be better equipped and better qualified to serve the exacting demands of Tire users?

Knowing the past of the Tire Industry so well, we must have pretty good intuition regarding not only the needs of the present, but the possibilities of the future.
