Duofold's Over-size barrel ends Writer's Cramp

Big and Easy to hold, with fingers and mind relaxed

Its super-smooth tip costs you \$2.34 a pound—Guaranteed 25 years

START the New Year with this fine tool of hand and brain and do bigger things with less exertion. For the Duofold's Over-size Barrel not only holds an extra large supply of ink—it relaxes the mind and the fingers because it's so big and balanced that the hand can hold it without fiercely gripping the shaft, as you would to keep a small light pen from wobbling.

Its Chinese lacquer-red color, with smart black tips, flashes your eye a reminder not to forget your pen when you lay it down.

All this in a pen so smooth you can tell the Parker Duofold point from others with your eyes shut! Make this test today at the nearest pen counter—you'll be surprised.

This famous point is guaranteed 25 years for mechanical perfection and wear. It needs no "breaking in"—no style of writing can distort it—hence a pen you can lend, not with fear, but pride!

Strong Gold Girdle—was \$1 extra—now free, due to large production. (Considerably more than a million Parkers were bought last year in Canada and the States.) Any good pen counter will sell you this classic on thirty days' approval—the same in all cities and towns.
