THINKS PRICE OF GAS SHOULD BE LOWER

(Continued from page 1).
"There is no reflection whatever on the manager," remarked the chairman.

After some further discussion, Commissioner Harris moved to reconsider the manager's report. "And I move in amendment that we do not take up the report again," said the mayor.

"Put the resolutions," said Mr. Newman, addressing the chairman. On the matter going to a vote, the chairman and Commissioners Harris and Newman voted to have the report reconsidered, while Mayor Angrove and Commissioner Nickle voted "nay."

Commissioner Nickle explained that it required a two-thirds vote for the reconsideration of the report and as this was not forthcoming, the report could not be taken up again, and the chairman ruled that he was quite right.

"While we voted in favor of reopening the matter, it does not say that we are opposed to the manager's report," said Commissioner Newman. Mayor Angrove recalled the fact that at the last meeting of the commission the report of the manager was adopted without one dissenting voice.

Regarding the question of the sale of gas ranges, it was decided on motion of Commissioner Nickle to arrange for a conference with the merchants who sell gas ranges.

Commissioner Nickle brought up the question of by-laws for the commission. He said that in Jan. 1923, he had moved that the accounting department be placed under the manager until the reorganization was complete and this was carried. He wanted to know if this reorganization had been completed. If so, it was time to get at the by-laws. The commission had promised to economize when settled in the new offices, and it was right for the people to ask what was being done in this regard.

"I have yet to see the day we need the staff we have here," said Mr. Nickle.

Need House Cleaning.
Manager Folger stated that he could bring in a report on the members of the staff and their duties, at the next meeting.

"It is time that we stopped dilly-dallying and started to do some house cleaning," said Mr. Nickle. "We have promised the public that we will economize and it is time we got at it. I am sure we are carrying more staff than we need."

This matter will be dealt with at the next meeting. Arrangements have been made for a door to be placed in the new offices, directly opposite the cashier's cage and Messrs. Douglas & McIlquham will do the job.

The commission received a letter from the city clerk notifying the commission that the city council had agreed to make application to the Railway and Municipal Board, to give the commission authority to raise by debentures, the sum of \$300,000, to cover the cost of laying gas mains during the last five years, and also to borrow the sum of \$3,800, to cover the cost of the installation of gas mains on Rideau street, in preparation for the new pavement.

Manager Folger explained that he had made a personal canvass of Rideau street, on the new section to be undertaken, and out of 48 or 50 houses, he had signed up 23 householders to take gas, with an estimated revenue of \$345 per year. There was no doubt but what there would be more customers when the gas mains were put down.

Mayor Angrove assured the commission that the paving on Rideau street would be carried out this year. He said a special meeting of the council would be held to deal with the matter.

Should Be Notified.
Commissioner Nickle stated that the commission should be notified as to the streets the council intended to drop from the list for pavements in order to do the work on Rideau street. He said that the commission was being criticized for what it was not doing, and he felt that they had a right to know the streets that would be dropped from the paving area. The commission would be criticized for spending that money that would not be needed this year. The mere passing of the by-law did not guarantee that the paving of Rideau street would be undertaken this year. The by-law might be passed and the paving done seven years hence.

"The council certainly intends to do the work this year," remarked Mayor Angrove.

It was finally decided on motion of Commissioner Nickle, that when the commission has been advised by council that the by-law for paving Rideau street has been passed by the city council, that the commission proceed with the necessary work and that the commission ask the council to advise the commission what streets will not be paved, in view of the fact that the commission may not be put to unnecessary expense.

When the work is undertaken on Rideau street, the commission will need more pipe and on motion of Commissioner Harris, it was decided to have the manager write to the different firms, asking for prices on pipe. The matter was left with the chairman and the manager.

Commissioner Harris brought up the matter of purchasing a drill for rock cutting and his motion to have the manager secure prices on one for the next meeting was carried. It is stated that a drill would cut down the cost of labor to a minimum.

Station Gas Meter.
Manager Folger drew the attention of the commission to the need of a station gas meter. The plant has been without one for eighteen

months or more and there is no means of checking up the amount of gas and the meter would be a great help in ascertaining the cost of manufacture. On motion of the mayor, it was decided to have the manager secure prices on a station gas meter.

It was decided to accept the tender of the Gartschore Company, of Hamilton, for a supply of iron pipe at \$66.95 per ton.

The commission decided to stand adjourned at the call of the chair, the city treasurer having authority to pass all accounts when they are certified to by the auditor and signed by the chairman.

The chairman, R. N. F. McFarlane, presided at the meeting and the other members present were Mayor Angrove, H. C. Nickle, James Harris and H. W. Newman.

accepted his report," said the mayor. "There is no reflection whatever on the manager," remarked the chairman.

After some further discussion, Commissioner Harris moved to reconsider the manager's report. "And I move in amendment that we do not take up the report again," said the mayor.
