MEN AND HORSES How closely related is man to the more intelligent of the animals is seen in many of the ailments to which both are prone and the remedies to which they answer. Doctors and veterinarians are often-times surprised to learn of the similarity of their methods of handling the ailments of man and beast. Sprains, burns, scalds, scratches and many other minor injuries, many everyday ailments, too in men and animals take the same course, and both answer immediately to the same treatment—Absorbine Jr. Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause. Its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children everywhere as a positive germicide—a germ killer—and a prompt and certain healer of all hurts. It is useful not only for all the purposes served by ordinary liniments and embrocations, but as a mouth-wash and for anything else where a germicide is needed. Don't wait until you need it. Get it in the house today. \$1.25 at your druggist's.

Dr. Bruce Taylor in London. Dr. Bruce Taylor, the principal of Queen's University, has been in London of late. He left for a tour to Vienna and Budapest, and returned in time for the summer graduation at Glasgow University, where he received the degree of D.D. from his Alma Mater. Dr. Taylor is keenly interested in church union in Canada, says a London writer, and speaks with deep disappointment of the opposition in his own church and of the hindrances that have been put in the way. He thinks that if for any reason church union fails, it will inevitably mean the founding of a new union denomination, for no other can tackle the condition among the scattered population and great distances of the far west.
