**TO STRIKE TAX RATE
AT THE NEXT MEETING**

**Assessment Roll Was Con-
firmed at Meeting of the
Portsmouth Council.**

At a meeting of the Portsmouth
Council held on Monday evening the
assessment roll was confirmed and the
tax rate will be struck at the next
meeting of the council. It is not
known as yet what the rate will be as
the school estimates have not yet been
presented.

The question of drivers of autos be-
ing fined for speeding in the village
was under consideration, and it was
pointed out that the council did not
desire to make any money out of the
people. Reeve Halliday thought
that the drivers should have been given
a warning before action was taken
and asked that the fines be remitted
and that the offenders only be called
upon to pay the costs of the court, but
the council took no action.

It was announced that Union street
was being prepared for oiling and the
work will be proceeded with just as
soon as the poles have been filled.

A request was received from the
Health Association, to take over the
drain constructed for the use of Mow-
at Hospital, but council would not
agree to take it over, as it could not
be used to any great extent by the
residents and further, the council did
not care to assume the responsibility
in the matter.

Reeve James Halliday presided at
the meeting and the other members
present were Councillors Kennedy,
Hartick, Westlake and Weller.

ST. LUKE'S PICNIC.
Was Held Monday Afternoon In Spite
of the Rain.

In spite of threatening showers and
dark skies, the St. Luke's Sunday
school picnic to Brophy's on Monday
was a big success. The steamer
Brockville made two trips and on the
evening boat the crowd was a large
one, encouraged by the clearing up in
the weather. The following events
were run off:

Soft ball—boys defeated girls 13-11
in a five inning game which was much
enjoyed.

The races were:

Infant class, girls—1. A. Webber, 2.

feature. All the party had a good time
and the picnic was a general success.

According to local immigration au-
thorities there are between 130 and
140 Chinese in Kingston. They were
required to register with the immigra-
tion officers by June 30th. under the
new law. This is over twice the num-
ber of Chinese carried by Brockville

Dr. John Watson's Article.
"The Conflict of Idealism and
Realism" is the title of a valuable
article in Queen's Quarterly by Dr.
John Watson, late professor of moral
philosophy in Queen's University.

The treatise is a review of the de-
velopment of philosophy in England
during the nineteenth century and
deals largely with Ferrier's "Insti-
tutes of Metaphysics" and also with
the writings of Sir William Hamil-
ton.

The novel introduction to the es-
say supposes a conversation between
Socrates, Plato and other Greeks, in
which Socrates describes a trip, via
aeroplane, to Glasgow University,
where he was the guest at a ban-
quet whose object was to discuss
the most recent philosophy.

**GIVEN MONTH IN JAIL
ON CHARGE OF PERJURY**

**Swore He Had Lemon Extract
But Later Admitted Pur-
chasing Bottle Liquor.**

When Albert Newell, a young-man
came before Magistrate Farrell, on
Monday morning, on a charge of be-
ing intoxicated, he swore that he had
been drinking extract of lemon; which
he had purchased at local stores but
this was not the case. He purchased a
bottle of liquor from one, Francis
Clark. On a charge of perjury Newell
was on Tuesday morning sentenced
to one month in jail and on a charge
of selling liquor without a license,
Clark was fined \$200 and costs, with
the option of three months in jail.

Clark pleaded "not guilty" to the
charge of selling liquor without a li-
cense on being arraigned, but after-
wards changed his plea to that of
"guilty," admitting that he had sold
Newell a bottle of liquor but that he
did not know there was any harm in
making the sale and asked the magis-
trate to pardon him.

"I have no right to pardon," remark-
ed the magistrate.

"But I did not think there would be
any harm in doing what I did," said
Clark.

Newell stated that on Sunday after-
noon he had a drink of two per cent.
beer at a local hotel. As he came out
of the hotel he remarked to Clark,
who was nearby, that he would like
very much to have a drink of liquor.
"I can get you some liquor," said
Clark, and the latter made off and re-
turned in a short time with a six-
ounce bottle, which he sold to Newell
for \$1.25.

A tippler gathered in Monday night
stated that he had been mixing some
extract of lemon with two per cent.
beer. He secured the lemon extract
from the pantry at his boarding house.
The thirsty one told about the having
to "knock off" work on a roof Mon-
day afternoon, when the rain came on,
and as he was quite wet, wanted some-
thing to make hi mical good. He was
fined \$10 and costs.

**FINED FOR SPEEDING
THROUGH PORTSMOUTH**

**A Number of Prominent Citiz-
ens and Also a Lady
Had to Pay.**

A nice lively little session was ex-
pected on Monday afternoon when
County Magistrate Bradshaw took his
seat in Portsmouth town hall and
heard the cases against speeders sum-
moned to appear by Village Constable
Walker. Unfortunately for the spec-
tators who gathered, all but two of the
speeders, and there were some very
prominent citizens among them, paid
up their fines beforehand and avoided
appearing in open court.

A woman was fined five dollars with
costs of three dollars and twenty-five
cents. It was alleged that on a certain
Sunday named by the constable and
corroborated by his witness, Harry
Nagel, that she had travelled 330 feet
in nine seconds through the main road
of the village. The accused asserted
that she was going between fifteen and
twenty miles an hour. She said her
car was an old one and not capable of
twenty-five miles an hour. However,
as she had no further witnesses, her
case was lost.

A young man pleaded guilty without
further ado and paid a similar fine.
Among those who paid their fines be-
forehand were two prominent furniture
men, a well-known lawyer, a leading
lumber man, a contractor, an account-
ant, and other well-known citizens.

One summons was returned to the
constable on account of having incor-
rect spelling of a name, but will be re-
issued.

L.O.O.F. Canton Excursion.
The rain was a detriment to the
moonlight excursion held on the
steamer Waubic to Clayton Monday
night by the Kingston Canton, No.
6. L.O.O.F., yet there were about
200 on board and all had a good
time. The rain prevented the pro-
posed block dance at Clayton, but
the dancing on board was fully en-
joyed.

WANTS RADIAL SERVICE.

**Campbellford Asks the Hydro Com-
mission and C.N.R.**
Campbellford, July 8.—This town
has asked the Hydro Commission
and the Canadian National Railways
to provide radial lines for this dis-
trict. Three routes have been sug-
gested for the proposed radial road,
the one which appears to be most in
favor running from Campbellford
through Seymour township to Mey-
ersburg, thence through Percy to
Warkworth, and from that point to
Rosenesth, in Anwick, thence to
Burnley, in Haldimand, and to Cen-
terton in the same township, and
from that point through Baltimore,
in Hamilton township, to Cobourg.
At Cobourg the new road would
connect with the radial already built
from Toronto to Bowmanville, and
which is to be extended to Cobourg.
