Toronto Parade the "Greatest Ever"—Leaders of Order Speak All Over Ontario.

Toronto, July 12.—Accompanied in some cases by unusual celebrations, the festival day of Orangemen was generally observed to-day in most of the provinces of the Dominion. It was the 234th anniversary of the Battle of the Boyne, and local arrangements in many centres to make it the most successful in the history of the order, in Canada, were duly carried out.

Presiding leaders of Dominion Orange associations, however, addressed gatherings in other parts of Ontario. Lotus R. Reid, chief of the Orange Black Chapter of British America, was at Orillia; while Fred Dane, president of Orange Triennial Council of the World, was the chief figure of the demonstration at Tweed, Ont. There were big rallies at all chief centres in Ontario. Hon. G. Howard Ferguson, premier of Ontario, took part in the celebration at Prescott.

Napanee also was the centre of a large rally, with Hon. Dr. J. W. Edwards among the speakers.

AN ADDITION OF TEN SEATS

In House of Commons As Result of Redistribution.

LIBERALS AND TORIES

Are Unanimous on the Committee Report But the Progressives Dissent.

Ottawa, July 12.—After many weeks of map studying, of giving and taking, of protests of members at the proposed loss of ridings and the merging of others, the report of the redistribution committee will be submitted to the House of Commons next Monday afternoon by its chairman, Hon. E. M. MacDonald. That report will be unanimous as far as the Liberal and Conservative members of the committee are concerned, but four Progressives are dissenting because of riding losses.

Generally speaking, and as outlined in the house when the prime minister introduced the bill at the beginning of the session, there will be 245 seats in the next parliament of Canada, instead of 235 as at present, or an addition of ten. The only province to suffer the loss of seats is Nova Scotia which must submit to the subtraction of two. Ontario and Quebec remain unchanged, as also do New Brunswick and Prince Edward Island. Additions are made in all the western provinces. The Ontario changes are as follows: New constituencies—Three in Toronto, West Essex, Kenora and Rainy River and North Timiskaming. Seats eliminated—East Elgin, Simcoe South, North Ontario, East Peterboro, Amox and Addington, Dundas.

For Repayment of Money Expended on Timbe Lands.

Toronto, July 12.—The Drury government in 1921 set aside a contract between the Northern Ontario Colonization Company and the Crown, and the Ferguson government granted a flat to the company to enter action against the Crown. The company is suing for repayment of money expended on the project, or in the alternative \$425,000 which is alleged to be the value of the timber and the improved lands.

GUNMEN AND THUGS SEIZE LIQUOR BOATS

In Retaliation for Rate-Cutting—Hired by Big New York Bootlegger.

New York, July 12.—In retaliation for rate-cutting on Rumrow, pirates have successfully carried out two raids off the Jersey coast and have seized \$750,000 worth of liquors, according to information reaching prohibition directors of New York City. The captain of one of the raided boats was killed by pirates and his body was thrown overboard. One of the vessels boarded was the French steamship Mulhouse, in command of Captain Ferrene. The name of the other ship has not been revealed, but prohibition officials learn it was of foreign registry.

The raids are alleged to have been under the direction of one of the biggest bootleggers in the United States who, it is said, conspired with others in New York and furnished a big speed boat manned by twenty or thirty well armed gunmen and thugs.

DR. BIRKETT IN LONDON.

Specialist to Inspect French Post-Graduate Schools. London, July 12.—Dr. H. S. Birkett, C.B., well-known ear, nose and throat specialist of Montreal, is in London en route to Bordeaux to investigate claims made by the French government of the excellence of post-graduate courses available to students from Canada at its ear, nose and throat school in that city. German schools were most popular with Canadian medical students before the war, but in resentment of the action of the United States medical associations in expelling German honorary members during the war, Germany has closed its schools to English-speaking students. Vienna now attracts the majority of students, but the French government recently made representations in Canada and United States on behalf of Bordeaux and it is these which Dr. Birkett will investigate.

THE BANKING BILL PASSED

By Close Margin And Now Goes To the Senate.

THE GLORIOUS TWELFTH

Is Again a Topic of Good-Natured Discussion in House of Commons.

Ottawa, July 12.—A bill providing for Government inspection of Canadian banks passed its final stage in the House and now goes to the Senate. There were several Progressive amendments, and in one instance, it looked for a time as though the Government would be defeated. This was on an amendment by E. J. Garland, of Bow River, providing that loans by banks in excess of ten per cent. of their paid-up capital could not be made without the unanimous approval of the directors. Conservative and Progressive leaders alike voted in favor of the amendment, and it was only defeated by 69 to 57, twelve votes from the Opposition side, (eight of them Progressive) going with the Government. Another Progressive amendment was defeated by 94 to 42.

The Glorious Twelfth Again.

Ottawa, July 12.—The "Glorious Twelfth" again figured in the proceedings of the House of Commons yesterday afternoon. It came about over a bill introduced by S. W. Jacobs (Liberal, Montreal), to amend the Criminal Code to provide punishment for the publication of false, defamatory, or seditious matter with intent to produce feelings of ill-will among different classes in a community, with a probable result of bringing about a breach of the peace and a disturbance of business.

Thomas Vien (Liberal, Lotbiniere), whose name was called as seconder, said, with a smile, that he had not been aware of the nature of the bill in advance, but he was extremely pleased that it had been introduced on the eve of the 12th of July.

This at once brought H. C. Hocken (Conservative, West Toronto), to his feet with a eulogy of the anniversary of the Battle of the Boyne. He said, good humoredly, that the bill in question would not affect those who spoke on the 12th of July, because they had shown for over a hundred years that they were lovers of liberty and good citizens.

The Conservative leader, Right Hon. Arthur Meighen, made a closing contribution to the incident, when he suggested, laughingly, that Mr. Jacobs' bill was not directed against the member for West Toronto (Mr. Hocken), but against the member for Rimouski (J. E. D'Amour). Mr. Jacobs' bill was then given a first reading and is unlikely to be heard of again this session.

HOCKEN IS HARD ON CIVIL SERVANTS

He Would Not Add Any to the Service for Three Years.

Ottawa, July 12.—In the discussion on the supplementary estimates H. C. Hocken (Conservative, West Toronto) declared that to say a civil servant could go out of the government's employ and get larger pay was "all bunk." The cost of the Civil Service should be cut by millions of dollars. The government should declare "a holiday for three years" and not add anybody to the service in that time. There was no comparison between the test a man had to meet in the Civil Service and that which he had to meet outside.

"No man in the public service," he said, "has to show results, and no man in private business can hold high office unless he shows results." Deputy ministers, said Mr. Hocken, went to work at 10 o'clock in the morning and went golfing at 3 or 4 in the afternoon. They could not do that if they were in private business.

SETS FIRE TO CLOTHING AND BURNED TO DEATH

Sad End of Mrs. James Reid, Napanee—Accident Happened in Garden.

Napanee, July 12.—The citizens received a severe shock on Friday afternoon when it was learned that Mrs. James Reid, John street, was dead. It appears that she went out into the garden between three and four o'clock, and in some unaccounted way set fire to her clothing. When she was found about five o'clock the front of her clothing was burned and she had fallen on her face, and was dead. Besides her husband, one son, G. Stanley Reid, is left to mourn a devoted and loving mother. Deceased was about seventy-three years of age.

THE SENATE WAS STIRRED

By An Anonymous Memorandum Concerning Church Union.

REFERRED TO "R.C.'S" Said They Would Vote Against Bill—Senator Donnelly Repudiates Communication.

Ottawa, July 12.—Before the Senate adjourned last evening, Hon. Gideon Robertson, on a question of privilege, drew attention to an anonymous letter which has been circulated in the Senate, and made the following statement: "I crave the privilege of saying a word on the point of personal privilege. About fifteen minutes before the House met today, an honorable member of this House came into my room and showed me a typewritten memorandum that has been circulated amongst some of the honorable members of the House. I have since learned that it has been suggested, in some quarters, at least, that I knew something about the origin of this anonymous communication, which has been handed to the honorable members respecting a subject that was under discussion yesterday (church union). The type written memorandum is one that, to my mind, should be absolutely condemned, and that we should all deplore, as I am sure we do. It reads as follows: Watch how the R.C.'s like Lynch-Staunton and Donnelly come out against union. That is inspired. You know the feeling in the west in favor of it. Can you not say a word to offset Gillis?"

"This bears no address and bears no signature. I want to say that so far as I am concerned, and so far as anybody that I know connected with the forwarding of the bill referred to is concerned, that they not only have had nothing to do with such work as that, but they absolutely and most unqualifiedly condemn anyone who would interpose or make such statements of reference.

PREHISTORIC SKELETONS HAVE BEEN UNEARTHED

Krasnoyarsk, Siberia, July 12.—Russian archeologists excavating near here have unearthed several human bodies belonging to the stone age, and also a number of prehistoric mammoths, dinosaurs, bisons, gigantic stags and more than 700 stone and bone implements, ornaments and weapons of the prehistoric era. One of the human skeletons found by the explorers is believed to be at least 17,000 years old.

Leopold-Loeb Plea Based on Insanity

Chicago, July 12.—Parents of Nathan Leopold, Jr., and Richard Loeb, who confessed kidnapping and killing Robert Franks, will not ask an acquittal of their sons, counsel announced to-day. The fees of the attorneys and the alienists have been fixed by the legal and medical associations so that any talk of "a million dollar" defense is "bunk." Attorney Clarence Darrow said, although the fathers are millionaires. There will be no attempt made by the defense to get an acquittal," he said. "The question of insanity alone is involved.

THE CITY IS TO SEEK HIGHWAY RELIEF

In View of Its Three-fold Contribution to the Provincial Road.

Kingston is to send a large delegation to the meeting in Belleville on July 18th of the advisory committee on highways appointed by the provincial government. A meeting of the Board of Works and Suburban Area Commission was held on Friday afternoon and, emphasizing the importance of the coming meeting, when permanent policies regarding highways may be decided on, the conference recommended that the same two bodies, together with Mayor Angrove and as many representatives as possible from the city council and Belleville, should motor to Toronto next Friday morning to determine the place of urban municipality in road building, financial and otherwise, is one of the functions of the advisory committee, and it was pointed out at Friday's meeting that at present Kingston is contributing in three ways towards provincial highways: in her contribution to the cost of the provincial highway, in contributing towards the cost of the suburban area roads and in paying 100 per cent. of the cost and maintenance of Princess street and part of Ontario street to the provincial highway system.

To Seek Relief.

In the invitation received, there is a suggestion that a financial contribution be made toward the central twenty feet through an urban municipality, and City Engineer Dick was asked to prepare figures relative to the cost of sewers, etc., included in such areas. Princess street from Alfred street to the limits is in poor condition and will be brought before the committee. Relief may also be sought for the improvement of Division street, concerning which the city council and suburban commission recently held a conference.

In the discussion, it was pointed out that Kingston is saving a great deal by doing her own paving, instead of having it done by contract. At the close of the meeting a questionnaire was prepared to be sent to the government for explanations regarding highway financing. The questions suggested ask what share of the provincial highway is chargeable against cities, on what conditions the government has built permanent highways through places like Napanee, Spencerville, Pickering and other small towns, and third, how are the charges assessed?

Those present were Reeve Sibbitt, ex-Mayor Nickle, and R. H. Fair, of the Suburban Commission. Aids, Kido, Peters and Joyce, Dr. Sands, Auditor Muir and Engineer Dick.

Career in British Army Not as Popular as in Past

London, July 12.—The army as a career is seemingly not so popular as it once was. After making his half-yearly inspection of the military college at Sandhurst, General Earl Cavan, chief of the Imperial general staff, said the strength of the college was being reduced by one company entirely, owing to the insufficient number of candidates for commissions.

May Send Ambassadors.

London, July 12.—While other great powers have viewed with equanimity the appointment of a Soviet ambassador to Peking, an apparently authentic report of a similar step by Japan has caused diplomatic discussions between the United States and Great Britain as to the advisability of following suit. At present, both powers are represented in China by ministers.

The All-British Motor Show, at which ninety-three firms are exhibiting, has been opened in Melbourne.
