ACTION HAS BEEN FULL OF TRAGEDY

Decision is Now Expected in Cape Vincent Fire Case.

The suit of E. W. Coon against the Phoenix Insurance company and ten other underwriters, to recover full value for the loss by fire of the Coon cheese warehouse at Cape Vincent, N.Y., in April, 1921, is being reopened and the case will be submitted to Justice Irving R. Devendorf, Herkimer, N.Y., within the near future.

The litigation, involving a claim of many thousands of dollars has been fought with tragedy and delayed in its proceedings through the courts for more than a year.

At the first hearing one of the principal witnesses for the defense, the late Fred G. Millard, Syracuse, N.Y., was stricken with apoplexy, dying a few days later.

During the second hearing Warren H. Evalul, Cape Vincent, N.Y., superintendent of the plant and star witness for plaintiff, disappeared, his body was found a day later in Black river.

Just at the close of the evidence last fall Justice Edgar C. Emerson, referee, was taken ill and his death resulted in long delay.

Arrangements finally were completed by attorneys to certify the testimony as submitted before Justice Emerson to Justice Devendorf. Minutes have been transcribed and with the filing of briefs, Justice Devendorf will take the case, and give decision.

Mr. Coon demands \$115,315 as the actual loss suffered in the destruction of the plant and contents. Insurance appraisers, from whose decision he took the claim into court, granted a much lower sum. The property was insured for full value.

THE TOWN WATCHMAN

The Humane Society is to be linked with the Salvation Army in the doing of good works. The little band of men and women who constitute this society are doing splendid work for the dumb animals, and when their tag day comes, drop in your coin willingly.

If the burglars would go through the city in dead of night and steal all the roosters that crowd there would be jubilation in many homes.

The farmers are kicking because they say the speed cops summon them but let the visiting tourists go. The latter burn up the roads hereabouts, but the local court dockets fail to show any convictions.

Now that an Ottawa magistrate has declared it not unlawful to put your arm around a girl while you drive your auto, Toronto magistrates will have to change their view. Auto hugging is common around Gananoque, and some of it is seen about Kingston.

Kingston city council debates have become tame in comparison to those of the township body. But the reason is obvious—the Thunderer has transferred himself beyond the city limits. However, Kingston township is going to benefit by all this controversy. The smoke of battle will soon clear and peace will again reign.

Queen's summer school means a good deal to Kingston. There is a registration of nearly 450, of whom more than \$50 come from outside places. Fully fifty thousand dollars is expended by this number in the session of six weeks.

It would appear that the O.T.A. referendum is to be held in October, the month that used to produce the "brown October ale." Perhaps the attorney-general had this in mind when he hit upon October as the voting time.

Now we are told that the United Empire Loyalists were not the "whole push" after all and that there were other people who helped make Canada besides the U.E.L. folk. Assuredly there were, and there is no brighter page in Canadian history than that which tells of those brave French priests, who came over in the sixteenth and seventeenth centuries to christianize the Indians. They know real hardships, and suffered horribly.

On several panels of the Old Bank of British North America quarters, now occupied as the Ontario government liquor dispensary, appear the letters "B.N.A." A banker, who was in the dispensary getting his bottle of medicine, was asked by a stranger what those letters meant and he replied: "Booze Not Adulterated." Well we hope that is correct, and that the administration at Toronto will give the people better Scotch than was supplied during the U.F.O. regime.

A Letter of Thanks. The Whig has received the following letter from a subscriber:

"I am writing to thank you for printing a verse from the Bible in the Whig every day. In this way you are doing a great work, as many will read it who seldom open the Bible. I am very grateful to the Whig for publishing these verses of scripture."

HAD PLEASANT OUTING

Sydenham Street Methodist Church Picnic Held at Brophy's Point Friday.

The annual picnic of Sydenham Street Methodist church was held on Friday afternoon at Brophy's Point, with three hundred present. The weather was ideal for the outing, and all in attendance voted it the best picnic in the history of the school. The scholars are very grateful to Harold Davis, who paid the cost of the steamer. During the afternoon a baseball game was played between the young men of the church, after which twenty-six races took place and were very keenly contested. The races were under the charge of a committee, of which Harry McQueen was convenor. The refreshment committee was composed of Mrs. C. S. Anglin, Mrs. R. H. Ward and Mrs. E. P. Jenkins. This committee was assisted by a number of the teachers and officers of the school.

All those present were treated to ice cream cones, while the younger children received balloons and fire crackers. C. S. Anglin, superintendent of the school, was the general supervisor of the picnic.

Injured in Auto Collision.

What might have proved a very serious accident occurred on July 4th as Mr. and Mrs. Harold Miller and family, formerly of Kingston, but now of St. Catharines, were motoring to Toronto. Their car collided with another car. Mrs. Miller was thrown against the wind shield and severely bruised about the head and body and shaken up, but was able to proceed to her home next day. The others escaped injury as did also the occupants of the other car. Both cars were badly damaged.

KIWANIS ACTIVITIES. The Kiwanis Club have the arrangements completed for a monster sing-song next Tuesday evening in Macdonald Park. Kiwanian Edward Murphy and Kiwanian Ernie Kerr, of the Montreal Club, will have charge. They are the two men who are chiefly responsible for the success of the sing-songs held in Montreal every week in Fletcher's Field with from five to eight thousand people each week. Daylight saving has made it impossible to throw the words on a screen until after nine o'clock, so song sheets and large painted streamers are used. This means that the singing will start early, and if the public like it and will co-operate with the club it will be repeated regularly during the summer. New Ferry Steamer. Announcement is made that the Brockville and Morristown Transportation Company, Inc. is considering replacement of the steamer Victoria by purchase of a much larger craft. Frank L. Scott, secretary of the company, said the cost of the new vessel would be \$25,000, and it would be a double-end steam ferry boat, 95 feet long, with a 30-foot beam, capable of accommodating 14 motor cars. New terminals will be built at Brockville and Morristown. The purchase of the larger craft was deemed necessary because of increase of traffic across the St. Lawrence at that point.
