What the Press Agents Say About Coming Attractions

### BETTY BALFOUR PLAYS AT CAPITOL LAST TIME TO-DAY

Betty Balfour, "Britain's Queen of Happiness," in her newest picture, "Love, Life and Laughter," opened at the Capitol Theatre yesterday to a large and appreciative audience. The story is one of the famous English "Tip-Toe Tales," and is a happy blending of the jolliest fun, deepest pathos, beautiful settings and the light and shade of high life and low life. The patrons were unanimous in proclaiming "Love, Life and Laughter" the greatest picture ever produced by George Pearson, and when it is considered that this genius is responsible for such great productions as "The Better 'Ole," "Squibbs Wins the Calcutta Sweep," "Nothing Else Matters," etc., one has some idea of the magnitude of the present production.

This splendid drama of romance and adventure has received the unstinted praise of all who have seen it. The noted screen star is seen at her very best, and the picture will long live in the minds of those who have seen it.

### Engineers Did Good Work.

The Engineers in camp at the R. M.C. made a splendid showing at their inspection Friday afternoon by Gen. Elmsley. The pontoon bridge from the R. M.C. wharf to the opposite shore was put across in ninety minutes, which is only ten minutes behind the time of the Royal Engineer services in England for the same time. The men parade to St. George's cathedral Sunday morning. In the evening moving pictures will be shown in camp and shortly afterwards the troops will leave for Ottawa.

Mlle. Odette Jacqueline is one of the youngest stars on the Parisian screen. She is only 18. But already the critics are calling her the "Mary Pickford of France."

**MODERN CARPET OF BAGDAD**  
Here is the brief picture story of the first transcontinental airmail flight, that latest chapter in the many romances of the air now being written. Messages now cross the nation in thirty-six hours, or thereabouts. Mail posted in New York at 8 a.m. will be delivered in San Francisco the following evening. On the left is shown Pilot Claire Vance taking off from San Francisco, bringing in his mail pouch this picture, if himself taken and developed on the field just before he started. At Cleveland the pilots were changed and Pilot Wesley L. Smith is shown (centre) winging his way to New York, and at right being greeted by his wife at the end of the history-making flight.

**DRY AGENTS' NEWEST WORRY**  
Here is the newest way to try to outwit prohibition agents. Just put on a pair of "cow shoes" if the dry boys get on your trail. They fooled the agents down around Hillsboro, Fla.—for a little while. Running across a large still, the agents started hunting the operator. He was nowhere in sight. And no human footprints could be seen. But there were marks of bovine hoofs. The agents followed them and found the stiller. One look at his shoes convinced them the footprints were his. Two blocks of wood, cut to resemble a cow's hoofs, were fastened to a wire frame attached to the soles of his shoes.

### NEED YEAR OF RAIN.

Lakes and Streams Near Port Arthur Very Low.

Port Arthur, July 12.—A year of rain, that is, a generous downfall on every day, would be necessary to again bring the district lakes and streams up to their usual level, said W. P. Cooke, Dominion Government agent, last night. The majority of the streams contain at present but a small quantity of sluggish, muddy water, and, in some water courses and lakes, islands which no person knew were there, have appeared so rapidly has the water fallen.

### PARIS DRESS FOR HOT DAY

Here is the Parisian idea of what the well-dressed woman should wear on a hot day—white organdie pepped up with black embroidery and a black sash. The spiderweb motifs in the large size are of black ribbon, fagotted with black silk, and the smaller ones are circles of black silk embroidered in white. The dress is worn over a plain slip of white organdie and with a large white sun hat with a black border. Very heavy black corded ribbon is used for this sash.
