### CHAUTAQUA OPENS FOR A FIVE-DAY STAY

Dunbar Male Quartette and Bell Ringers Featured the Opening Concert.

The Dominion Redpath Chautauqua, which opened at the Cricket Field on Friday afternoon for five days, needs no introduction to Kingston. Its huge brown tent, providing for unique open air entertainment, and its invariably excellent and versatile programmes that have characterized it during its visits to the city in recent years, have made it a very popular institution in the Limestone City.

The opening concert on Friday afternoon featured the Dunbar Male Quartette and Bell Ringers, a high grade musical and entertainment company. The quartette carry with them sixty-three ounces to sixty-five pounds. The bells were cast in England by one of the world's oldest foundries, which is still in existence, and there are no bells to equal them. The novelty programme consists of bell-ringing, instrumental numbers, readings, impersonations, sacred songs and the newest hits, played on the bells and sung. They provided a very original entertainment which was much enjoyed.

The programme for Friday night will afford another opportunity to hear the bell-ringers with the addition of a lecture by Dr. Fox of Pasadena, Cal. Dr. Fox is to speak on "The Philosophy of Common Sense." He is a witty, interesting speaker with a record so far of capacity tents.

#### STANDARD ICE CREAM.

Ontario May Establish Legal Qualifications.

Toronto, Aug. 1.—The agricultural enquiry committee of the Ontario Legislature is considering recommendation of a standard for ice cream. There was a Dominion standard before the war, but this was allowed to lapse, but there is no reference to the matter in the regulations issued under the Food and Drugs Act. The committee has asked the Dominion authorities to explain why the standards for cream and ice cream, suspended during the war should not be restored, in view of the present abundant supply of milk and cream.

Dr. C. J. O. Hastings, medical officer of health for Toronto, has informed the committee that ice cream was never of better quality than at present, and that the bulk of cream coming to the manufacturers in Toronto is purchased from creameries.

#### NUDE BATHING FICTION.

Practical Jokers Drew on Their Imagination for the Story.

Toronto, Aug. 1.—Reports of nude bathing and camp fire revels which emanated from Grimsby Beach early in July, have been found by an investigation conducted by the Attorney-General's department to be based only upon imagination and not upon fact. The story, it appears, first gained circulation as a practical joke and secured credence because its sponsors, not realizing its gravity, failed to issue prompt denial of it.

#### NOT FOR EXTENSION.

Of The Time For Running the Big Show at Wembley.

London, Aug. 1.—"I am not in favor of continuing the British Empire exhibition next year," said Hon. Peter Larkin, Canadian high commissioner, in London, when interviewed, to-day, as he was leaving for Canada, on the suggestion that the big show at Wembley should be kept open a second year. "I may alter my opinion on my return after six week's stay in Canada," he added.

#### Bonus Beet Sugar Growers.

London, Aug. 1.—Chancellor of the Exchequer Snowden announced in the House of Commons that the government intended to introduce legislation to promote the home production of beet sugar by giving a subsidy of 19 shillings 6 pence per hundred-weight. It is believed that it will require a decade to put the industry on its feet, and the subsidy will gradually be reduced to 13 shillings after four years, to 6 shillings 6 pence after a further four years and will be abolished after ten years.
