 "THE BARGAIN SPOT OF KINGSTON"

GAS STOVE EXPLODED; WOMAN SUFFERS BURNS
Mrs. James McGarvin Was the Victim of a Sad Accident.
 When a gas stove exploded in her home on Sunday morning, Mrs. James McGarvin, who resides at the corner of Quebec and Cherry streets, suffered severe burns about her eyes and face. She was given prompt medical attention and is doing as well as can be expected. It is believed that one of the children turned on one of the taps while playing around the house. The case is an extremely sad one, as Mrs. McGarvin's mother is an invalid and she has been caring for her, while two of the children are ill with scarlet fever.

TRAINING OF THE MIND.
Brightens Life's Way, Dr. Morgan Tells Summer Students.
 Convocation Hall was well-filled for the students last Sunday night singing when Rev. Prof. Morgan, of the Theological College staff, was the speaker. In an inspiring address, Dr. Morgan brought to mind the wisdom of holding fast to our "human birthright." Life's blessings were added to by the friendships of home and acquaintances, love reaching its highest form in service for others. Life's way was brightened, too, by the training of the mind, that opened the door to the world of art and literature, and to the wonders of the universe. Yet so often men cast these aside for "a mess of pottage," forfeiting their precious inheritance through sloth, avarice or sensuality.
 The closing hymn was "God Be With You Till We Meet Again." J. L. Challinor conducted the singing. Lorne Matthews presided at the piano.

Rotary Club Activities.
 The members of the Kingston Rotary Club have been invited to hold a "basket picnic" on Tuesday evening, Aug. 12th, at the summer home of Rotarian Dr. H. E. Day and Mrs. Day, at Sandy Bottom and the members are looking forward to a big time. Summer school students who took part in the musical programme at the club's luncheon on Friday last have been invited to join the picnic. Each Rotarian will provide baskets for himself and his guests.

SEVERAL FUNERALS.
 The funeral of the late Sarahin Compeau took place from his late residence, 57 John street, Monday morning, to St. Mary's cathedral where the solemn requiem was sung by the Rev. Fr. Hyland. Interment was made in Philomen cemetery, Howe Island. The arrangements were in charge of the James Reid firm.
 The funeral of the late Kenneth Ralph Dixon took place on Sunday morning from the residence of his father at Inverary in charge of the James Reid firm. It was largely attended. Rev. Mr. England conducted the last services. The pall-bearers were: C. Beckwith, H. Gibson, C. Garrett, J. Snyder and C. Lake. Interment was at Sand Hill cemetery.
 The funeral of the late Augustus Conway took place from his late residence on Rideau street on Saturday morning to Cataract cemetery in charge of John Cornelius. The pall-bearers were his six sons: Charles, Frederick, George, William, Percy and Arms. A widow and one daughter, Mrs. Andrew Long, Watertown, N.Y., also survive. The services were conducted by Rev. W. E. Klidd.

A HORSE INJURED
When a Street Car Strikes a Wagon and Drags It.
 A horse driving one of D. J. Zurbright's delivery vans was badly injured when the wagon was struck by a street car at the corner of Princess and Division streets Saturday afternoon. The wagon was going south along Division street and the car coming down Princess. The rig was hit in the back part and it and the horse dragged for 157 feet. The two hind wheels on the wagon were smashed. The driver escaped injury by jumping out.
 At St. Andrew's Church. Rev. Dr. Geo. E. Ross, B.A., of Montreal, who filled St. Andrew's pulpit the last two Sundays during Rev. Mr. Stephen's vacation, delivered an eloquent address Sunday morning on the text from Job 11, 7: "Canst thou by searching find out God?" He claimed that God was seen in nature and in humanity but most assuredly in the life of Christ, whose remarkable personality afforded men an insight into the nature of the Creator.
 A very pleasing vocal solo was given by S. W. Carriere, of Toronto, a student at the Queen's Summer school. C. A. Miller presided at the organ.
 Child Killed by Auto. A Detroit, Mich., despatch says: "Albert Gordon, aged five, a native of Peterboro and eldest son of Joseph and Ethel Gordon, 43 Beresford avenue, died in Highland Park General Hospital late Saturday afternoon, after being struck down by an automobile driven by Forrest Dix, 89 Beresford avenue, who is held at police headquarters charged with negligent homicide. The deceased lad's parents came here from Kingston."

NORTHERN ONTARIO HAD BIG MOUNTAINS
Ranges Higher Than Rockies Account for Minerals, Says Prof. M. B. Baker.

Northern Ontario is rich in minerals and one explanation of that was offered before the Geology Section of the Scientific Association, meeting in Toronto, by Prof. M. B. Baker, Queen's University. That was to be found in "geological holocausts" which led to the formation of metallic deposits and the building of two huge ranges of mountains, probably larger than the Rockies.
 "During the formation of each of these continents of mountain ranges, vast masses of igneous rocks were introduced into the lower parts of mountains to be exposed later when they were worn down to their bases," said the geologist.
 "At the close of the pre-Cambrian age there was another period when igneous rocks of enormous volume were injected into and poured over the rocks already formed.
 "Included in the rocks of this later rocks adjacent to them, are to be found the copper, nickel, silver and cobalt of the Keweenaw, Sudbury and Cobalt areas," he explained. The gold ores of Porcupine, Kirkland, and other regions in Ontario and Quebec were amassed during the second great igneous upheaval, when the molten rocks were squirted up inside the mountains.

CANADIAN PACIFIC—THE HARVESTERS' SHORTEST ROUTE TO THE WEST.

Due to the fact that the Canadian Pacific is the shortest route to the West, the greater majority of harvesters last year travelled via Canadian Pacific. The company will maintain the usual high standard of colonist car equipment this year with cars for the exclusive use of ladies, children and their escorts, while lunch counter cars in which hot meals, refreshments, etc., may be obtained at most reasonable rates will also be attached to all trains.
 Because the Canadian Pacific is the shortest route to Western Canada and due to the efforts of the Company to have the harvesters spread over as much territory as possible in a minimum space of time, it is expected from the numerous inquiries received, that a number of extra trains will be necessary this year to transport the harvesters to the West. Canadian Pacific agents throughout Ontario have been fully instructed in the various matters pertaining to harvesters and will gladly furnish full information regarding the departure of trains.
 On August 22nd, at 12:01 a.m. (midnight, August 21st) the first special train will leave Toronto, followed by one at 10:00 a.m. and others as required.
 It is confidently expected that harvesters will again travel Canadian Pacific, the majority of harvesters from Ontario last year having done so as the harvesters are thus able to be among the first from Ontario in the harvest fields.

Barnabus Wood, of Odessa, Is Eighty-eight Years Old

The Whig extends congratulations to Barnabus Wood, of Odessa, who on Monday, August 11th, celebrated his 88th birthday anniversary. Mr. Wood is still very active and able to carry on his farm work with surprising energy for one of his years.
 Since 1853, a period of seventy-one years, Mr. Wood has been a reader of the Kingston Whig. One day, when he was seventeen years of age, he was in Sydenham on horseback, when a Whig representative took his subscription and the still watches for the arrival of the paper every day.

Frocks With Youthful Charm
 By ELEANOR GUNN

The much overworked term, "simplicity," which creeps into every fashion writer's report, is being qualified. One now reads about elaborated simplicity, which seems to indicate more accurately the mode at present. Many a frock cannot come under this classification of simplicity, although it may be simple in silhouette. As a matter of fact, there appears to be an alarming tendency of gowns becoming intricate. The reentry of lace is largely responsible for elaboration in effect, while, of course, the curious and unexpected turns and twists to which tucks are subjected, the use of cordings and of braiding, to say nothing of applique, make a sum total decidedly on the side of elaboration.
 Midsommer collections reported from the great houses of Paris emphasize chiffons, both plain and printed. While bouffant skirts may not be of general interest frocks have a delightful suggestion of youth, a quality associated with bouffancy; this results from the use of aprons and of overskirts of sorts.
