Captions That Capture

Thanks to the captions that head the different groups of opportunities in the Whig's A-B-C Classified Section, you don't have to read the whole section to find some specific opportunity.

These captions will capture your attention immediately-and enable you to capture your own little opportunity instantly.

But, as the saying goes, "We haven't said the half of it yet."

The captions which designate the main groups are amplified by sub-captions which in turn include a large number of smaller captions known as index terms.

As soon as you notice that captions, sub-captions and index terms are all alphabetically arranged in numerical classifications-you will realize the pains we have gone to in order to assure the reader convenience. If the A-B-C Classified Section isn't worth your daily
