- PEARS—Gifford, large and small baskets.
- MELONS—Basket lot special.
- EGG PLANT.
- TOMATOES—11 qt baskets (6 lb carriers, 4½ lbs. carriers). For family use.

LEGION TO CONVENE AT ALEXANDRIA BAY

The Good Folks There Are Worrying Over Housing Five Thousand Visitors.

Alexandria Bay, N.Y., Aug. 18.—The people of this chief summer resort of the Thousand Islands await the meeting of the largest convention that has ever assembled here. The American Legion is to convene at Alexandria Bay on September 2nd and 4th and 5,000 members of that body are scheduled to be present. The good folk here are worried, as the local Chamber of Commerce scarcely knows how it will house such an influx.

The hotels can take care of 2,000 and the villagers will have to take the remainder into their homes. President Coolidge and Governor Smith, of New York, have accepted invitations to attend, and the former will have the opportunity of viewing the celebrated Boldt castle, which stands on an island in the river just opposite Alexandria Bay and which has for some time been suggested as a summer home for the United States' chief executive. Hundreds of tourists are daily taken across in motor boats to view this castle, which is fit for any king.

Recalls "Old Times."

An old-time marine captain, laments the passing of the years when the Thousand Islands were the summer homes of great numbers of people from all over New York state.

"In the good old days," he remarked, "the fathers and mothers of the new generation came here to spend the summer in their island homes. Now the young folks will hardly look at the islands. They come here in their motor cars, take a trip around the islands by motor boat, and then off they go. They must be on the move. The result is that scores of costly homes are to be seen with their windows boarded over. The new generation simply will not sit still."

This old captain also lamented the passing of so many of the old steamboats. "The motor craft has done to the steamboat what the motor car has done to the railway train," he said. "It has taken away much of its passenger traffic. I used to command the steamer Sport. It required eight hands. Now a motor craft that will carry 30 people is operated by one man."

Splendid Hotels Gone.

In the old days, the Thousand Island region boasted some of the finest summer hotels on the continent. Now only two remain, the Thousand Island house and the Crossman at Alexandria Bay. The former was erected 50 years ago and recently the event was the occasion of a celebration here. Old-timers consider these structures as having had great luck in escaping destruction by fire.

The big Frontenac on Round Island, which was the mecca of wealthy New Yorkers, and the Columbian at the Thousand Island park, both went up in flames and were never replaced. To-day they would not pay.

The Thousand Island park, formerly the most crowded place in the island region, is so dead to-day that last week several of the older women who made it their homes summer after summer, found it "too quiet" playing bridge and mah jong, and moved to Alexandria Bay to see a little more life.

PRESENTATION TO F. J. WILSON.

Retiring Secretary of the Y.M.C.A., is Kindly Remembered.

On Saturday evening a presentation of the Y.M.C.A. surprised Mr. F. J. Wilson, retiring secretary of the association, by presenting him at his home with a beautiful leather club bag and an address expressing their appreciation and gratitude for the many years of service and the many acts of kindness he has done for them during the thirteen years he held office, first as boys' secretary, then as general secretary. He was the means many times of advising boys and young men to the higher life of service to the other fellow. Business men in the world to-day give him credit for following the advice he had given them. While in the years spent as general secretary he came more in contact with the senior members, the intermediate and junior boys felt that he was the senior head and, when they heard he was about to sever his connection with the Association, thought they would like to show in some tangible way their appreciation of his services.

Although Mr. Wilson was completely taken by surprise, he expressed his appreciation and said that what he had done for the boys of the Y.M.C.A. he hoped they would do for the other fellow.

Teachers' Federation.

Victoria, Aug. 18.—The convention of the Canadian Teachers' Federation came to a close with the selection of Toronto as next year's meeting place, and the election of Lieut.-Col. W. M. Mitchell, Toronto, as president of the association in succession to H. C. Newland, Edmonton. R. E. Howe, Westmount, Que., was chosen vice-president and G. J. Elliott, Winnipeg, secretary-treasurer.

The Quebec government voted \$50,000 for the Tourist Association of Quebec for use in the organization of country districts for tourist traffic.

John Meharry, formerly of Peterboro, was instantly killed in New York on Saturday. Deceased was formerly a member of the Peterboro police department.

CUTS WIFE'S THROAT FROM EAR TO EAR

Jealous Toronto Pole Then Killed Himself—The Woman May Not Recover.

Toronto, Aug. 18.—Believed to have been prompted by jealousy, Nick Kuleck, a Pole, aged fifty years, early today in a house in the central foreign section of the city, cut his wife's throat from ear to ear and then committed suicide by slashing his own throat. Mrs. Kuleck is in hospital in a very critical condition and may not recover from her wound.

The attack by Kuleck on his wife was the outcome of a quarrel shortly before six o'clock this morning. When she arose to call her son-in-law, who lives in the same house, she was met on the stairs leading to the kitchen by her husband who slashed her throat. He ran out of the house and onto the verandah of the house next door and cut his own throat, dying almost immediately.

Constable Byrt, who was in the vicinity, heard the woman's cry of "murder," and on entering the house found her partially dressed and lying in a pool of blood on the floor. He afterwards found Kuleck lying on the verandah next door.

HOTEL ARRIVALS

British American.

Joseph Elliott, Prescott; J. B. Har-ker and wife, Belleville; A. M. Brown and wife, Belleville; H. R. Hare, Belleville; S. S. Holmes, Toronto; George Bagey, Oakville; G. R. Smith, Detroit, Mich.; Raymond Smith, Detroit, Mich.; O. Compeau, Gananoque; Joseph A. Webber and wife, Detroit, Mich.; Robert A. Stokes, Toronto; Charles Mayer, Brooklyn, N.Y.

MAY CURTAIL WINTER LUMBER OPERATIONS

Extra Large Cut of Last Season Likely to Result in Lower Out.

Pembroke, Aug. 18.—An extra large cut of logs last season, combined with a dull lumber market at present, is likely to result in the curtailment to a certain extent of the operations of most lumber companies during the coming winter and among them the Edwards Lumber and Pulp Company, Limited, and the Pembroke Lumber Company, Limited.

It is understood that the Edwards Lumber and Pulp Company will operate nine concern camps this year at Stonecliffe, Ont., Deux Rivieres, Ont., and Angliers, Que., and the number may possibly be increased. They took out an extra large cut last year and have many logs in the water and their present plans would indicate that the cut this year will be about normal. They now have about 150 men in the bush making improvements and will add to this staff at the rate of from about fifty to seventy-five men until a total of about 1,000 are employed.

The Pembroke Lumber Company, Limited, have sufficient logs in the river to run their mill next season and this year will operate but one concern camp. This will be located at Kenny, on the T. and N.O., and they will have one jobber on their Jocko limit and one on the Muriagh limit. About 350 men will be employed.

Laying of corner stone of Storrington township hall, Sunbury, by Judge Lavell, Wednesday, Aug. 20th, 6.30 p.m. Choice programme. Chicken pie supper.

DAILY MEMORANDUM.

Attend Cavalier Club Moonlight to Clayton tonight and help boys pay their way to camp.

"Oh Yes I Have A Charge Account at Laidlaw's"

YOU see this year we are running our household on the budget plan—so much for food, so much for clothing, and so on, and I find a charge account in one reliable store, gives me the most complete record of such expenditure for the month, nicely tabulated and then I write and mail my check to cover this or send the money.

I FIND too, I spend more systematically than when I carry money in my purse all the time—then it is such a convenience because I can telephone for anything.

LITTLE MRS. HOUSEKEEPER speaks wisely, selecting what she wants at the time she most wants it and thus saves time and money and is a convenience.

CREDIT is extended as a convenience—a distinct part of our policy, "to help you buy the things you most need." It is granted to persons whose record for the payment of bills is good, or who can otherwise establish a basis for credit.

THE policy governing our giving of credit and the confidence we place in our customers have enabled us to successfully carry many hundreds of accounts.

John Laidlaw & Son
