Origin of "Radio." The word "radio" can be traced back to the Latin from "radius," originally meaning a spoke of a wheel. From the fact that the spokes

spread out from a common centre came the words "radiate," "ray," and finally "radio." The original root of this word said to be the Greek form "ar,

which meant "to go." Adding To His Herd.

Yet the counts made at Queen's this summer of local milk samples have gone as low as 5,000-bacteria per c.c., and all were under 10.000.
