LIVINGSTON'S

75-79 BROCK STREET
"If Off Your Route It Pays To Walk"

BALCONY COLLAPSED; WOMAN IS INJURED

Mrs. A. Stewart, Madoc, Falls to Sidewalk—Her Leg Broken.

Marmora, Aug. 25.—An accident of a peculiar and distressing nature happened on Forsythe street. Mr. and Mrs. Walter Colster reside in rooms above the stores rented by Miss Quinn and Mr. Fred Lee. A wooden balcony jutting out from the upper storey was used by the Colsters as accommodation for outdoor plants. On the day in question Mrs. Colster's aunt, Mrs. A. Stewart, Madoc, stepped out on this balcony to examine a very beautiful plant, when without warning the whole fabric descended to the cement sidewalk below, a distance of some twelve feet. Through the fall Mrs. Stewart sustained among other injuries a broken leg. Being an elderly lady her accident is of grave concern to her relatives. Though she was wearing glasses at the time, it is remarkable that they were neither damaged in the least way or jarred off. Mrs. Colster had a narrow escape from falling, just managing to catch at the screen door and so pull herself back into the room.

FLAT TIRE CAUSES MOTORIST'S UNDOING

Caught by Provincial Constable With Load of Booze East of Napanee.

Napanee, Aug. 25.—A flat tire proved the undoing of the driver of a liquor laden motor car just east of Napanee Saturday afternoon, and also provides a wonderful argument for those in favor of driving "in" on the flat tire.

William West, garage man living in Hastings, stopped by the roadside to fix a blowout on the tire of his Stutz car. Fate sent Provincial Constable William Thompson of Napanee along the highway, and when he stopped his car to help his brother motorist in distress, he was greeted by two cases of the best Quebec liquor commission Scotch whiskey, and a quantity of good ale, which rode in the car.

West is now in jail at Napanee, and his big car is also detained.

The police have been on the look out for a certain Stutz, which is reported to be in the whiskey business, for some time.

West appeared for trial at Napanee to-day before Acting Magistrate Rankin. He is charged with illegally transporting liquor, and if found guilty may lose his car as well as suffer the fine accompanying conviction.

STANDARD WAGE FOR MINERS OF ALBERTA

Recommended by the Conciliation Board in Dispute in the North.

Edmonton, Aug. 25.—The report of the board of conciliation investigating the dispute between the coal operators of Northern Alberta and the Edmonton and district miners' federation, recommends that all mines in the operators' association continue to pay standard wages for all company men.

The scale of wages, which is the same as that now paid in the Pennsylvania, follows: miner on company work, \$5 for eight-hour day; brushers, track layers, drivers and chief cager, also \$6 a day; pushers and assistant cagers, \$4.50 a day; coupler (under 18 years), \$3.50 a day; assistant track layer, \$3.50 a day; boys under 18, on surface, 35 cents an hour, outside labor, 50 cents an hour; blacksmith, 65 cents an hour.

The miners asked \$5.50 per day. The operators in the dispute were prepared to pay \$5 per day. Both parties wished to arrive at a standardized scale.

The board recommended that contract rates in the different mines be continued as they were in the agreement that expired on June 30th, 1924, with provision for no overcrowding of contract miners during busy season. The miners are protected by extra pay for work in wet places.

E. STUART TAYLOR
Who has been appointed general superintendent of agencies of the Crown Life Insurance Co. Mr. Taylor has been associated with the Sun Life of Montreal for the past eighteen years. He has been secretary of Home Agencies. He enters his new position immediately and will reside in Toronto.

ENCOURAGEMENT TO CANADIAN MILLERS

Bill Before Reichstag Does Not Provide for Duty on Flour at Once.

London, Aug. 25.—Yesterday's developments in connection with the threatened imposition by Germany of a duty on wheat and flour are moderately encouraging to the Canadian point of view. The fact that the bill before the Reichstag provides no immediate duty on flour has given the Canadian milling interests some measure of hope but there is no relaxation of the efforts to dissuade the German Government from exorcising the authority which the bill if passed will give. A memorandum from the acting high commissioner to His Majesty's Government has been forwarded by the Foreign Office to the British ambassador at Berlin, who is understood here to be co-operating with the American ambassador, and is keeping the Canadian interests informed through L. D. Wilgress, the Canadian Government trade agent at Hamburg. The Canadian milling companies are receiving every assistance possible from the Government agents here, and are also placing their own representations before Berlin. It is believed here that the most effective argument that can be put forward by the British Government, which is not itself protectionist, and is moreover in the position of a creditor, is to emphasize the loss to German revenues through a prohibitive duty. On the other hand it is recognized that the German government may have to make some concession to the Nationalist group whose support is necessary to secure the adoption of the London agreement on the experts' plan.

A RECEPTION HELD

At Thousand Island Park for Governor of Illinois.

Thousand Island Park, Aug. 25.—Last Wednesday afternoon former Governor Frank O. Lowden of Illinois, was the guest of the Thousand Island Park Club. The governor was accompanied by his wife and daughter, and an informal reception was tendered the distinguished guests at the home of Dr. and Mrs. George E. Bellby.

Bishop Waldorf of Kansas, a summer resident at the Park, welcomed the governor in a short address in which he enumerated the many advantages and attraction of this place, and especially of the Thousand Islands, as a summer vacation resort.

Governor Lowden replied saying that he was glad to pay this neighborly informal call, and hoped it would not be the last time. He said that he had been a summer resident of the Thousand Islands for years, and that he knew of no place in America that could compare with this region as a place for summer residence. He believed that Thousand Island Park, with its many beautiful trees, occupied the most advantageous part of this island, and was glad to know that the citizens and property holders had so recently taken a renewed interest for the future management of the place.

There was instrumental music under the direction of Sherman Kruesburg, and Miss Alice Kenyon sang several songs. Mr. H. O. Williams had charge of the afternoon programme, and Dr. and Mrs. Bellby introduced the guests.

NO RESULTS YET.

Of the Departmental Examinations at Kingston Collegiate.
Principal Sitter, of the Collegiate Institute, writes to the Whig today as follows:

"Kindly let me say that I have as yet received no examination results from the department; that they will be sent to the candidates without delay as soon as received, and that nothing is to be gained by making inquiries about them."

Sir Henry at Huntsville.

Huntsville, Aug. 25.—Sir Henry Thornton, president of the Canadian National railways, was tendered a civic welcome upon his arrival in Huntsville yesterday afternoon to make an inspection of the new station which was recently erected. The reception took the form of an open air meeting in the memorial park and was presided over by Mayor A. A. Cooper. Lady Thornton, who accompanied Sir Henry to Huntsville, was presented with a large bouquet of roses.

Hospital Telephone System.
The new telephone system at the General Hospital was expected to be ready for use on Tuesday. The switchboard, with a girl operator, has been placed in the waiting room at the main entrance. There is to be a phone in every floor, with phones in every room in the new Empire wing. A change has been made in the number, 2766 taking the place of 266.

For Hay Fever Victims.
A new invention provides washed and pollen-free air to rooms in which hay fever patients may live in comfort.
