RIVAL CHINESE ARMIES ARE ENGAGED IN FIGHTING

Shanghai And Eastern Portion of Kiangsu Provinces Prizes For Which Governors Battle.

Over Twenty Foreign Warships Are Assembled At Shanghai--British And United States Military Units Prepare For Defensive Fighting in That City.

Shanghai, Sept. 3.—Civil war has actually begun in China. General Ho Feng-Lin, Lu Shien-Yuen's administrative officer here, announced this morning through his secretary that fighting between the forces of Chekiang and Kiangsu provinces had commenced. Fighting is occurring at Kwangtu, fifteen miles west of this city on the Shanghai-Nanking railway.

It is announced that the Japanese cruiser Tatsuta has left for this port with 150 marines.

Apparently Shanghai and extreme eastern portion of Kiangsu provinces are the prizes for which the opposing armies of Lu Yung Hsiang and Chi Shien Yuan, two rival provincial military governors, are battling along the line of railway. Hsiang is defending his territory, Shien-Yuan being the aggressor.

REFUGEES SEEK PROTECTION.

Before train service was suspended yesterday on the Shanghai-Nanking railway, more than one hundred thousand refugees poured into this city, placing themselves under the protection of foreign governments. More than twenty foreign war craft are assembled in the harbor awaiting any action which would place the lives of foreigners in jeopardy.

On land, the Shanghai volunteer corps and the Shanghai defence unit, which includes British and United States military units, are prepared to take up defensive fighting positions on the boundaries of the foreign quarter.

U. E. L. MONUMENT.

To Be Unveiled at Belleville on 8th September.

Belleville, Sept. 3.—The Lieutenant-governor of Ontario will unveil the monument erected at Belleville to the memory of the United Empire Loyalists, on Monday the 8th of September at 3 p.m. The Lieutenant-governor will arrive in Belleville on the 12.19 p.m. train, lunch with the Belleville Rotary Club, address the Club, and then proceed to Queen Victoria Park for the unveiling ceremony.

The monument is of a somewhat unusual character, being constructed of cement made from stone and clay taken off farms settled by original U. E. Loyalists in the vicinity of Belleville, and is plain and simple in form to suggest the primitive conditions of the early settler. The outstanding feature is the representation of a log cabin which surmounts a solid square base, to typify the first home of the U. E. Loyalist after coming to this country.

Prominent men from various parts of Canada have signified their intention of being present, and 5,000 school children from the surrounding district will attend the ceremony.

PREMIER KING SEES TRIUMPH

For Liberalism in the Results of Quebec Elections.

SHOW A VINDICATION OF Government's Fiscal Policy Which Is In Interests of Taxpayers

Ottawa, Sept. 3.—Premier King last night made the following comment upon the results of the polling in St. Antoine and Rimouski:

"The Government regards the result of today's polling in the two Quebec ridings as a distinct triumph for Liberalism in Rimouski, a rural riding, where the Nationalist sentiment was strong for some years, and in St. Antoine, a strongly protectionist riding. Liberal candidates were returned today, indicating that the same, middle course being pursued by the present government has the favor of the people. These two victories may, moreover, be regarded as a vindication of the Government's fiscal policy, which was formulated in the interests of the taxpayers, the plain people of the Dominion. Liberalism with this signal vindication of its soundness, will continue in its efforts to effect the greatest good for the greatest number."

WILLISON WOULD MAKE FRENCH COMPULSORY

In Canadian Schools and Colleges—Cannot Travel World on One Language.

Toronto, Sept. 3.—Compulsory teaching of the French language in all Canadian schools and colleges was advocated by Sir John Willison, who has just returned to Toronto after a 30,000 mile world tour, in his speech at the C.N.E. directors' luncheon yesterday—International Day.

Sir John summarized his impressions of the world as he saw it, stressing Australia and opinions there. "You cannot travel the world on one language, and I can think of nothing that would do more to unify Canada and to give it distinction among the nations than the making compulsory of the French language. I would make the teaching of French compulsory not only in our universities but in our secondary and even our elementary schools. I could substantiate that statement by a number of arguments and reasons if that were necessary." (Applause.)

THE CROP PROSPECTS ARE MORE PROMISING

So Thinks Charles Murphy, of the C.P.R., After an Inspection Tour.

Winnipeg, Sept. 3.—Crop prospects in the prairie provinces are vastly more promising than expected, in the opinion of Charles Murphy, general manager of the Canadian Pacific Railway, who returned to Winnipeg to-day after a tour of inspection of western lines.

In parts of Saskatchewan where farmers were reported earlier in the season to be plowing under their crops, are now estimated yields from 15 to 18 bushels per acre. In southern Saskatchewan, Mr. Murphy asserted those who had lived there for 20 years, had never seen more favorable crops.

Alberta, he said, will have a better crop than an average for the past ten years. The fields between Calgary and Edmonton, were the best he had ever seen, while north of this area, the prospects were not so favorable, but improvement was noticeable towards Edmonton.

Elevators under construction at Vancouver, Mr. Murphy declared, will be completed in time for the grain rush.

LIBERALS WIN BOTH SEATS IN QUEBEC BYE-ELECTIONS

Hushion Defeats Birks in St. Antoine Division of Montreal By 1,045 Majority.

Gen. Fiset Wins in Rimouski By Nearly 2,000—Votes Polled Smaller Than in 1921—Tories Had Hoped to Win Back Montreal Seat.

Montreal, Sept. 3.—Two Liberal candidates were returned in the federal bye-elections held yesterday in the Quebec province constituencies of Rimouski and St. Antoine division of Montreal. In the former, Major-General Sir Eugene Fiset, late deputy minister of defence, was elected over his Conservative opponent, Eliezer Sasseville, advocate of Rimouski, by a majority of 1917 with one poll to hear from. In the latter, Ald. W. J. Hushion was returned by a majority of 1,045 over the Conservative, W. M. Birks, of Montreal.

Major-General Fiset thus occupies a parliamentary seat that was held by his father, J. B. R. Fiset, from 1872 to 1878 and again in 1887 and 1896. The seat is traditionally Liberal, although it was represented by a Conservative, H. Boulay, from 1911 to 1917.

Despite the claim of the Conservatives that St. Antoine division of Montreal would go back into the Tory fold, it gave Ald. W. J. Hushion a splendid majority over William M. Birks, the strongest candidate that the Meighen party could possibly run. The vote fell far below the total cast in 1921, when 14,330 ballots were recorded and Hon. Walter Mitchell was accorded a majority of 3,782. Yesterday's vote totalled 8,372. The vote stood: Hushion, 5,123; Birks, 4,078.

MANDATE TO PURSUE LOWER DUTIES.

Montreal, Sept. 3.—The Gazette (Conservative) says: "We have no desire to minimize the significance and importance of the election of Mr. Hushion even were it possible to do so. The government has won a seat on its policy of 'No Protection' in a city that was believed with reason to favor the contrary policy in fiscal matters, and is entitled to all the joy and comfort fairly to be derived therefrom. The premier and his colleagues have been given a mandate to pursue the goal of lower duties, euphronically called freer trade, and to surrender to their allies, the Progressives, a further instalment of those tariff taxes which enable domestic industries to withstand the invasion of slaughtered goods and the products of foreign cheap labor."

PLAN TO BUILD BIGGEST PAPER MILL IN WORLD

To Have Capacity of 1,000 Tons Daily—Northern Ontario Project.

Cobalt, Sept. 3.—With a capacity of 1,000 tons daily the world's largest paper mill is being planned for Northern Ontario, and Smooth Rock Falls is mentioned as the probable location of the huge plant. This is the information reaching here from a reliable source.

Should the project materialize, Smoky Falls, the largest and best power site in Ontario north of the St. Lawrence River, and capable of developing 200,000 horse power, would be utilized. A thousand-ton mill would require about half that amount of power.

To feed the mill, the Groundhog, Nagami and Algoma Eastern limits would be drawn upon. Morrow and Beatty have started surveying a railway line west from the present terminus of the T. & N. O. at Island Falls, with Smoky Falls as the destination. It is hinted that the Kimberley Flank interests are involved and developments, not unconnected with the Mata-gami Pulp and Paper Company—already established at Smoky Falls—may be expected at an early date.

"You Said It, Marcelline!"

By MARCELINE FALROY.

On "A Woman's Smile." A WOMAN'S SMILE may not mean much, but it is a man LOVES HER it means EVERYTHING—to him. But if he wants to know what is BEHIND IT He should watch CLOSELY. A SMILE on the LIPS only is HABIT, or maybe PATIENCE; WHOSE EYES only it may be TENDERNESS or just for effect. But when a smile LIGHTS UP THE WHOLE FACE—that is real AFFECTION and if the HEART goes With it—AH! that is LOVE.
