Answered Letters. Miss F.: "How is broken glass mended?"

Answer: Water Glass (sodium silicate) forms a cement (just as it comes in the bottle.) Because of its transparency it makes a splendid cement for mending glass ware.

Newly Wed: "Will you kindly tell me how to cook cabbage, green peas and sweet corn? Do I start them in cold water or hot? And shall I salt them or wait until nearly cooked to do so?"

Answer: Take off the outer leaves of the cabbage, cut in quarters, soak in cold water and cook uncovered in boiling salted water until tender. Cook corn in boiling water. Peas should be covered with cold water and allowed to stand for half an hour; then cook until soft in a small quantity of boiling water, adding salt during the last ten minutes of boiling. Drain and season with butter.

The Editor hears

That a story comes from Toronto showing the power of a French label. A lady wearing a very smart French hat bearing the label of a Paris firm inside its soft brim was an attendant at a charity bazaar and had occasion to leave her hat in a dressing room. When she returned to get it the hat was safe but the label was gone. Some one has sewn it inside a hat made in Toronto and (if her conscience doesn't trouble her) will be happy in wearing, if not a Paris hat, a Paris Label.

That the Woman's Institutes are providing luncheon at the school fairs with great success. People are glad to be able to get homemade refreshments without the trouble of bringing a basket along.

That hundreds of children dressed as maple leaves will take part in the historical pageant put on at the fair grounds next week.

That Major Cartmear of the headquarters staff will take the part of Count Frontenac in the Kingston historical pageant.

That Miss Kenneth Haig, Winnipeg, president of the Canadian Woman's Press Club, said at a dinner given in her honor in Toronto that publicity was one of the first safeguards of law and order and the bulwark of liberty. Speaking in reference to those who would exclude from the newspapers news of crime.

Mrs. W.: "Can you tell me how to make good Lentil Soup?" Lentil Soup: Soak one-half pint of lentils for 12 hours with a little bicarbonate of soda in the water. Cut the following vegetables into small pieces: 3 onions, 2 small carrots, 1 small turnip, 2 potatoes and a bunch of herbs. Put these into a pan with 1 ounce of drippings and cook for five minutes, with the lid on. Add the lentils and one quart of water, with salt and pepper, and boil gently till reduced to pulp. Pass through a sieve and season to taste. Distracted: Many articles have been published in this column on fighting the moth. Eternal vigilance is the best preventive, as the eggs once laid will hatch out, so do not let one moth-miller escape, and keep your upholstered set well-brushed and sprayed with gasoline.

Mrs. G. B. A.: "Will you tell me how to care for my new hardwood floor?"

C. F.: "Kindly give me a menu for a wedding breakfast."

E. H.: "Have you a list of articles for the Hope-chest?"

Answer: I have multigraphed articles on "The care of wood floors," "The Bride's Trousseau and Household Linen," and "Wedding Breakfast." The latter includes menus also appropriate for anniversaries. These will be sent on receipt of a stamped, self-addressed envelope.

Tomorrow—Some Good Apple Recipes.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use YOUR full name, street number, and the names of your city and state. —The Editor.

inal occurrences, this did not mean, as Miss Haig pointed out, that publicity should be always concentrated on the "yellow" things of life.

That a letter of appreciation for the bale sent last spring to the Grenfell Mission in far away Labrador has been received by Miss Marion Leslie, the secretary of the Kingston branch of the club, and is published on this page. Another bale for which the club is already working will be sent out next April.

AUNT HET

"Maybe girls knowed that kind o' stories when I was young, but they was modest enough to act insulted when they heard 'em."

An Appreciation

Harrington, Canadian Labrador, May 28th, 1924.

My Dear Miss Leslie:—The bale of clothing which you sent to us on April 30th arrived. It was in splendid condition and we want to thank you so much for it all. Everything is so nice, and so useful. Just the sort of things we want; also the extras, soap, cocoa, barley, etc., do help us so much.

SONNET ON SLEEP

Care-Chamber Sleep, son of the sable Night, Brother to Death, in silent darkness born, Relieve my languish, and restore the light; With dark forgetting of my care return. And let the day be time enough to mourn The shipwreck of my ill-adventured youth; Let waking eyes suffice to wail their scorn. Without the torment of the night's unrest. Cease, dreams, the images of day's desires. To molder forth the passions of the morrow; Never yet rising sun approve you less. To add more grief to aggravate my sorrow; Still let me sleep, embracing clouds in vain, And never wake to feel the day's disdain. —Samuel Daniel
