Muskalunge Fishing At French River Camp

In the fall when the lunge become voracious and the life of a young fish is worth practically nothing, the fisherman comes into his own. Fighters to the last gasp, the lunge is the one fish that one prays, will rise to the plug or minnow and when he does—well, try and yawn. A hot shore dinner in the heart of the lunge territory, French River, a rest, and then a recounting of the day's sport around the open fire, is something one never forgets.
 The beauty of the woods in autumn, the snappy morning atmosphere when one's blood runs faster, good fishing, warm bungalows electrically lighted and a clubhouse with a huge fireplace, music, dancing—all these may be had at French River bungalow camp which will remain open this year until October 15th following the request of patrons of the camp. The camp is only 215 miles north of Toronto and any Canadian Pacific agent will gladly supply all information, make your reservations, etc. An hour's communion with a hungry lunge is worth a lifetime listening to the other fellow tell about it. Think it over.

"Nerves in Bad State Could Not Sleep"

Mrs. H. N. Tardell, Harrowsmith, Ont., writes:
 "My nerves were in a very bad state, and for nearly six months I did not know what it was to have a good night's rest. I could not eat, and never felt well. I heard about Dr. Chase's Nerve Food, and thought I would try it. After taking it for a few days I began to feel better, and soon was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well. I have also given the Nerve Food to my little girl, with good results."
